STATE OF GEORGIA
COUNTY OF BRANTLEY.

THIS AGREEMENT, made and entered into this 20th day of June, 1996, by and between the City of Nahunta, Georgia, hereinafter referred to as the "City", and the Brantley County Board of Education, hereinafter referred to as the "Board".

WITNESSETH

WHEREAS, the Board has a middle school and a high school located approximately two miles west of the City, and

WHEREAS, the City and the Board are mutually interested in extending a sewer line to these facilities so waste water can be pumped from the schools to the City's waste water treatment plant, and

WHEREAS, in the interest to providing these facilities and services with the least possible expenditure of public funds, full cooperation from the City and the Board is necessary,

NOW THEREFORE, in consideration of promises made, one to the other, the City and the Board through their governing bodies agree to cooperate with each other in carrying out the above-stated purposes, and to that end they agree as follows:

1. The City will arrange for the planning and construction of a sewer line capable of transporting waste water generated by the Board's middle school and high school from their combined campuses to the City's waste water treatment plant. The City is authorized by the Board to retain a qualified engineer to design and supervise the construction of this line. The engineer will advise the City and the Board whether the existing system can

handle the increased waste water load and the impact of the additional load on the system. The engineer will also prepare plans for the construction of the line if the project is feasible, and give to the City and Board updated estimates of its costs. Final plans for the project and any subsequent changes thereto are subject to the approval of both the City and the Board. The Board agrees to pay to the City an amount equal to the amount paid by the City to its engineer for these services, whether the project is constructed or not.

2. The City shall have control over the construction of the project. The Board agrees to cooperate with the City in order to facilitate these improvements by giving the City reasonable and appropriate easements on its property for the construction of the sewer line and any pumping facilities related thereto.

3. The City and the Board have received a preliminary estimate of \$250,000.00 for the planning and construction of this project. After final engineering plans are accepted by the City and the Board the City will advertise for competitive bids for the construction of the project, following the procedures mandated by law for local governmental projects, and then choose from the bidders a contractor for the project. Should that contractor's bid together with the cost of the engineer exceed \$250,000.00 by ten percent or more the City shall secure final agreement on the cost from the Board before construction begins.

4. The City agrees to apply for a Georgia Environmental Facilities Authority loan in the amount of \$100,000.00 to be amortized over 120 months at 2% interest. This agreement is

contingent upon the City securing this loan. The loan proceeds will be applied toward the cost of construction of the sewer line. The City will repay the loan in monthly installments according to its terms. The Board agrees to pay the City on or before the first of each month an amount equal to the City's monthly payment on the Georgia Environmental Facilities Authority loan.

5. The cost of the project in excess of the amount financed by the Georgia Environmental Facilities Authority shall be paid by the Board to the City either in installments during the time of construction, or as a lump sum payment when the project is completed. The City shall select the method of payment. Payment of any installment or the lump sum by the Board shall be contingent upon the City certifying to the Board that the work performed is acceptable.

6. After the sewer line is operational the City shall assess the Board a monthly fee for the treatment of its waste water based upon the number of gallons processed and at a rate equal to the lowest rate charged commercial metered customers of the City's sewer department.

7. After the sewer line is operational the City will remain responsible for its operation to include maintenance, up keep and repairs from a lift station, which is to be constructed on school property, to the waste water treatment plant. The City will provide to the Board services similar to those provided to citizens of the City of Nahunta. The City will at no time impose special fees, assessments or charges on the Board, other than those referred to in this agreement, that are not charged in like fashion.

to similarly situated city residents. Should the line become obsolete or inadequate for the purposes intended, the City and the Board agree to cooperate to repair, improve or replace the line.

8. The City and the Board agree that this sewer line is intended primarily for the transport of waste water from the Board's school complex to the City's waste water treatment plant. The City shall be allowed to connect other sewer customers to the line so long as this does not adversely effect service to the Board. Should a new customer be tied into the line the City will determine after twelve months of sewer service the total gallons of waste water generated by that customer and advise the Board accordingly. Within eighteen months of the beginning of sewer service to that customer the City will calculate the percentage of increase in the volume of waste water created by the new customer's use of this line and reimburse to the Board an amount equal to a like percentage of the total costs of the construction of this line. (EXAMPLE: If after one year of service to a new customer the Board generates 1,000 gallons of waste water and the new customer generates 100 gallons of waste water the City will rebate to the Board 100/1100th's of the Board's total cost for the construction of the line.) This arrangement will remain in effect for twenty (20) years from the first use of the line by the Board.

9. It is understood and agreed that this agreement is made in good faith and that unless otherwise provided herein it is to be in effect for fifty (50) years. After ten years or at such time as the Georgia Environmental Facilities Authority Loan is paid in full the terms of paragraph four of this agreement shall expire and the

Board shall have no continuing obligation to make monthly payments to the City other than those amounts charged for the processing of waste water. Remaining provisions of this agreement shall remain in full force and effect unless cancelled or changed by mutual agreement of the parties.

IN WITNESS WHEREOF, and pursuant to authority granted by duly recorded resolutions, the parties hereto have caused this Agreement to be executed on their behalf.

Answer each question below, attaching additional pages as necessary. Please note that any changes to the answers provided will require updating of the service delivery strategy. If the contact person for this service (listed at the bottom of this page) changes, this should be reported to the Department of Community Affairs.

County: BRANTLEY

1. What incompatibilities or conflicts between the land use plans of local governments were identified in the process of developing the service delivery strategy?

None. Presently no zoning ordinances have been adopted by the County or either City. The local governments have entered into agreements for resolution of land use matters should such ever arise.

2. Check the boxes indicating how these incompatibilities or conflicts were addressed:

- amendments to existing comprehensive plans
- adoption of a joint comprehensive plan
- other measures (amend zoning ordinances, add environmental regulations, etc.)

Note: If the necessary plan amendments, regulations, ordinances, etc. have not yet been formally adopted, indicate when each of the affected local governments will adopt them.

If "other measures" was checked, describe these measures:

3. Summarize the process that will be used to resolve disputes when a county disagrees with the proposed land use classification(s) for areas to be annexed into a city. If the conflict resolution process will vary for different cities in the county, summarize each process.

Prior to initiating any formal annexation action, the City will notify the County, identifying the proposed area for annexation and the County will have 30 days to object. The parties must try to resolve their dispute by mediation. See attached Agreement.

4. What policies, procedures and/or processes have been established by local governments (and water and sewer authorities) to ensure that new extraterritorial water and sewer service will be consistent with all applicable land use plans and ordinances?

None.

WITNESSETH:

WHEREAS, the County and the Cities in an effort to avoid duplication and/or conflicts in the delivery of certain services and to provide efficient management of County and City governments under the terms and provisions of the laws of the State of Georgia, desire to enter into this agreement regarding any future extension of water and/or sewer services by either of the Cities into areas of the County beyond the corporate limits of the Cities; and

WHEREAS, the County and the Cities do hereby agree to and establish the following process regarding any proposed extension of water and/or sewer service into the unincorporated area by either Nahunta or Hoboken, to-wit:

1. Prior to initiating any formal action on the extension of any water and/or sewer service into an unincorporated area of the County, the City desiring or interested in extending its water and/or sewer service beyond its corporate limits must notify the County's governing authority of such proposed service extension and therein provide the following information: the exact location of property/area to be served by such service extension; the type of service (water and/or sewer) to be provided; the type and number of customers expected to be provided said service; the exact route the general service delivery lines will follow; when the service should be expected to begin; and the means of financing the proposed expansion project.

4. If a City desiring to extend its water and/or sewer service into an unincorporated area of the County is permitted by the County as set forth herein, then prior to the City engaging in such service extension, the City must enter into a written agreement with the County wherein the actual services to be provided by the City and its manner of establishing its cost for such service are set forth and approved by the County.
5. This Agreement regarding the extension of water and/or sewer services into the unincorporated areas of the County of the Cities shall remain in full force and effect for a period of fifty (50) years, or until amended by written agreement of the parties, or terminated by the parties.

Answer each question below, attaching additional pages as necessary. Please note that any changes to the answers provided will require updating of the service delivery strategy. If the contact person for this service (listed at the bottom of this page) changes, this should be reported to the Department of Community Affairs.

County: BRANTLEY

1. What incompatibilities or conflicts between the land use plans of local governments were identified in the process of developing the service delivery strategy?

None. Presently no zoning ordinances have been adopted by the County or either City. The local governments have entered into agreements for resolution of land use matters should such ever arise.

2. Check the boxes indicating how these incompatibilities or conflicts were addressed:

- amendments to existing comprehensive plans
- adoption of a joint comprehensive plan
- other measures (amend zoning ordinances, add environmental regulations, etc.)

Note: If the necessary plan amendments, regulations, ordinances, etc. have not yet been formally adopted, indicate when each of the affected local governments will adopt them.

If "other measures" was checked, describe these measures:

3. Summarize the process that will be used to resolve disputes when a county disagrees with the proposed land use classification(s) for areas to be annexed into a city. If the conflict resolution process will vary for different cities in the county, summarize each process.

Prior to initiating any formal annexation action, the City will notify the County, identifying the proposed area for annexation and the County will have 30 days to object. The parties must try to resolve their dispute by mediation. See attached Agreement.

4. What policies, procedures and/or processes have been established by local governments (and water and sewer authorities) to ensure that new extraterritorial water and sewer service will be consistent with all applicable land use plans and ordinances?

The Cities have entered into an Agreement with the County which provides that neither city will extend water and/or sewer service into the unincorporated area without giving a 30 day notice to the county and such extension may not occur if the county objects to same. A copy of said Agreement is attached hereto.

STATE OF GEORGIA

COUNTY OF BRANTLEY

**SERVICE DELIVERY STRATEGY
DISPUTE RESOLUTION PROCESS
O.C.G.A. 36-70-24(4)(C)
HOUSE BILL NO. 489**

The City of Hoboken, the City of Nahunta and the Brantley County hereby agree to implement the following process for resolving land use disputes over annexation effective July 1, 1998.

1. Prior to initiating any formal annexation activities, the city will notify the the county government of a proposed annexation and provide information on location of property, size of area, and proposed land use or zoning classifications (if applicable) of the property upon annexation.

Within 30 working days following receipt of the above information, the county will forward to the city a statement either: (a) indicating that the county has no objection to the proposed land use for the property; or, (b) describing its bona fide objections to the city's proposed land use classification, providing supporting information, and listing any possible stipulations or conditions that would alleviate the county's objections.

2. If the county has no objection to the city's proposed land use or zoning classification, the city is free to proceed with the annexation. If the county fails to respond to the city's notice in writing within the deadline, the city is free to proceed with the annexation and the county loses its right to invoke the dispute resolution process, stop the annexation or object to land use changes after the annexation.
3. If the county notifies the city that it has a bona fide land use classification objection, the city will respond to the county in writing within 15 working days of receiving the county's objections by either: (a) agreeing to implement the county's stipulations and conditions and thereby resolving the county's objections; (b) agreeing with the county and stopping action on the county's proposed annexation; (c) disagreeing that the county's objections are bona fide and notifying the county that the city will seek a declaratory judgement in court; or (d) initiating a 30-day (maximum) mediation process to discuss possible compromises.

4. If the city initiates mediation, the city and county will agree on a mediator, mediation schedule and determine participants in the mediation. The city and county agree to share equally any costs associated with mediation.
5. If no resolution of the county's bona fide land use classification objections results from the mediation, the city will not proceed with the proposed annexation.
6. If the city and county reach agreement as described in step 3(a) or as a result of the mediation, they will draft an annexation agreement for execution by the city and county governments and the property owners.

Regardless of future changes in land use or zoning classification, any site-specific mitigation or enhancement measures or site-design stipulations included in the agreement will be binding on all parties for the duration of the annexation agreement. The agreement shall become final when signed by the city, the county and the property owners.

This annexation dispute resolution agreement shall remain in force and effect until amended by agreement of each party or unless otherwise terminated by operation of law.
