SERVICE DELIVERY STRATEGY AGREEMENT AMENDMENT

WHEREAS, the City of Barnesville owns and operates the only public water supply reservoir and water treatment works in Lamar County and shall provide water to the citizens and customers of the City of Barnesville, the City of Miner, the Town of Aldora, and in unincorporated Lamar County. The City of Barnesville also sells water to the Lamar County Water and Sewer Authority.

WHEREAS, the City of Barnesville owns and operates a public water distribution system and provides water to the citizens and customers of the City of Barnesville, the City of Milner, the Town of Aldora and parts of unincorporated Lamar County. The City of Barnesville and the City of Milner, in addition to servicing their respective cities, also provide water services in unincorporated Lamar County where its distribution lines currently exist. The City of Barnesville and the City of Milner, in addition to serving their respective cities, also serve unincorporated Lamar County along corridors where their distribution lines currently exist, except as agreed upon in contracts with the Lamar County Water and Sewer Authority.

WHEREAS, the Lamar County Water and Sewer Authority (the "Authority") provides water distribution service to unincorporated Lamar County with the exception of those areas (corridors) served by the City of Barnesville and the City of Milner.

WHEREAS, in the event any land is annexed into the City of Barnesville or the City of Milner and is without water service at the time of annexation, the annexing city will provide water service to the annexed area. If the Authority is providing water service in an area annexed by the City of Barnesville or the City of Milner which is being annexed pursuant to the request of the landowner, the Authority will continue to provide service until such time as the annexing city acquires the Authority's lines and appurtenances thereto, as provided under O.C.G.A. 36-36-7. If acquired by the annexing city, such acquisition shall be at fair market value. If the Authority is providing water service in an area that is annexed into the City of Barnesville or the City of Milner through any other method

UPDATED SERVICE DELIVERY STRATEGY FOR Lamar COUNTY

We, the undersigned authorized representatives of the jurisdictions listed below, certify that:

1. We have reviewed our existing Service Delivery Strategy and have determined that:
(Check only one box for question #1)

- A. Our Strategy continues to accurately reflect our preferred arrangements for providing local services throughout our county and no changes in our Strategy are needed at this time; or
- B. Our Strategy has been revised to reflect our preferred arrangements for providing local services.

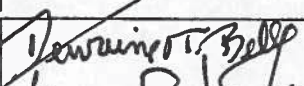

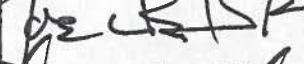

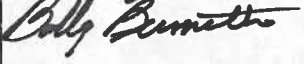

If Option A is selected, only this form, signed by the appropriate local government representatives must be provided to DCA.

If Option B is selected, this form, signed by the appropriate local government representatives, must be submitted to DCA along with:

- an updated "Summary of Service Arrangements" form (page 2) for each local service that has been revised/updated;
 - any supporting local agreements pertaining to each of these services that has been revised/updated; and
 - an updated service area map depicting the agreed upon service area for each provider if there is more than one service provider for each service that has been revised/updated within the county, and if the agreed upon service areas do not coincide with local political boundaries.
2. Each of our governing bodies (County Commission and City Councils) that are a party to this strategy have adopted resolutions agreeing to the Service Delivery arrangements identified in our strategy and have executed agreements for implementation of our service delivery strategy (O.C.G.A. 36-70-21);
3. Our service delivery strategy continues to promote the delivery of local government services in the most efficient, effective, and responsive manner for all residents, individuals and property owners throughout the county (O.C.G.A. 36-70-24(1));
4. Our service delivery strategy continues to provide that water or sewer fees charged to customers located outside the geographic boundaries of a service provider are reasonable and are not arbitrarily higher than the fees charged to customers located within the geographic boundaries of the service provider (O.C.G.A. 36-70-24 (2));
5. Our service delivery strategy continues to ensure that the cost of any services the county government provides (including those jointly funded by the county and one or more municipalities) primarily for the benefit of the unincorporated area of the county are borne by the unincorporated area residents, individuals, and property owners who receive such service (O.C.G.A. 36-70-24 (3));

6. Our Service Delivery Strategy continues to ensure that the officially adopted County and City land use plans of all local governments located in the County are compatible and nonconflicting (O.C.G.A. 36-70-24 (4)(A));
7. Our Service Delivery Strategy continues to ensure that the provision of extraterritorial water and sewer services by any jurisdiction is consistent with all County and City land use plans and ordinances (O.C.G.A. 36-70-24 (4)(B)); and
8. Our Service Delivery Strategy continues to contain an agreed upon process between the county government and each city located in the county to resolve land use classification disputes when the county objects to the proposed land use of an area to be annexed into a city within the county (O.C.G.A. 36-70-24 (4)(C))¹ and;
9. DCA has been provided a copy of this certification and copies of all forms, maps and supporting agreements needed to accurately depict our agreed upon strategy (O.C.G.A. 36-70-27).
