# Introduction

## INTRODUCTION

The second part of the Regional Plan is the Stakeholder Involvement Program that describes Three Rivers Regional Commission's strategy for ensuring adequate public and stakeholder involvement in preparation of the Regional Agenda. In preparing the Regional Plan it is important to work with all local governments to identify the issues and challenges unique to each community.

The Georgia Department of Community Affairs (DCA) requires that the Stakeholder Involvement Program be developed and submitted to DCA prior to the start of the Regional Agenda. This document outlines Three Rivers' strategy to develop and implement a public involvement program for the Regional Plan and is hereby submitted to DCA for approval.

The purpose of the Stakeholder Involvement Program is to detail the varied strategies and techniques of involving the public, stakeholders, and Three Rivers Council in the process of developing the Regional Agenda component of the Regional Plan. The Stakeholder Involvement Program is divided into three sections: 1) Identification of Stakeholders, 2) Identification of Participation Techniques, and 3) Schedule of Completion of the Regional Agenda.

The primary stakeholder involvement strategy used to facilitate the development and submittal of the Regional Agenda will be the formation of the Three Rivers Regional Planning Committee. The purpose of this Committee is to provide feedback to the planner and shape the over planning process.

The Stakeholder Involvement process allows individuals to make significant contributions to the planning process; therefore it is important that a free flow of information be maintained between the Regional Commission and the Stakeholders, as well as within the Stakeholder Committee. Coordination is essential because the people that comprise the Stakeholder Committee live and work within the Region, and they will be the best resource to generate support for the Regional Plan. Additionally, the Stakeholder Involvement Program will encourage local governments to partner together on future projects that support the awareness of land use, development, and community related issues and opportunities across the Region.

# Identification of Stakeholders

## STAKEHOLDERS

A variety of stakeholders will take part in the development of the Regional Agenda. They will range from local government officials and staff to professionals to the general public. This is only an initial list as additional members will likely be added along the way in the planning process.

# Identification of Participation Techniques

## PARTICIPATION TECHNIQUES

The following participation techniques will be used to keep the community, stakeholders, and council involved and informed during the development and through the adoption of the Three Rivers Regional Agenda.

**Steering Committee:** The steering committee will be comprised of 10 members from our Three Rivers Regional Council board. These committee members will oversee the development of the entire plan.

**Email blasts:** Planning staff will keep a database of stakeholder email addresses. In addition, community members who attend the open house and public meetings will be given the opportunity to provide an email address to be added to the database.

**Lobby displays:** At both offices of the Three Rivers Regional Commission, there will be a display board and printed information sheets detailing information about the Regional Plan. These displays will be in the lobbies of each office. Visitors to the offices will be able to take in the information and ask questions of staff.

**Open House:** The Open House will be a kick-off event for public information of the Regional Agenda. The event will provide a casual setting for the public to discuss

information and exchange ideas with the staff of the Regional Commission. The draft Regional Assessment, maps, fliers, and surveys will be available to the public.

**Questionnaire:** The stakeholders and public will be presented with a questionnaire to help with the forming of the Regional Vision statement, issues and opportunities, and areas requiring special attention. This questionnaire will be available on the website and at Open House.

**Required Public Hearing:** A public hearing will be held at the end of the planning process to present stakeholders and the general public with the final draft Regional Agenda as required by State Planning Requirements. This will be an opportunity for them to review and comment on the plan.

**Stakeholder Interviews:** Interviews will be held with stakeholders to gather their views on major community issues and opportunities to be included in the Regional Agenda.

**Website:** A page on the Three Rivers website will be devoted to the Regional Plan. It will provide information such as meeting dates and drafts of portions of the Regional Plan.
