Bulloch County Service Delivery Strategy

***Bulloch County, Town of Brooklet, Town of Portal, Town of Register,
And the City of Statesboro***

All local governments in Bulloch County have worked together to develop this service delivery strategy. The goal is to discover the best way to deliver services to the people in our community in the most effective, equitable, and professional manner possible. We believe that the agreement contained herein represents the best efforts of all parties to meet the challenges set forth in the Service Delivery Act, which include the elimination of double taxation, duplication of services, the justification of water and sewer rate differentials, the elimination of conflicts in our land use plans, and the establishment of a process for resolving land use classification disputes.

County: Bulloch	Service: Emergency Management
------------------------	--------------------------------------

1. Check the box that best describes the agreed upon delivery arrangement for this service:
- Service will be provided countywide (i.e., including all cities and unincorporated areas) by a single service provider. Service provider: *Bulloch County. Due to a greater population density and a greater concentration of resources in the City of Statesboro, the City contributes an amount annually to the civil defense fund and provides mutual aid the County in the event of a disaster.*

2. In developing this strategy, were overlapping services areas, unnecessary competition and/or duplication of this service identified?
- Yes** (if "Yes," you must attach additional documentation as described, below)
 No

If these conditions will continue under this strategy, **attach an explanation for continuing the arrangement** (i.e., overlapping but higher levels of service (See O.C.G.A. 36-70-24(1)), overriding benefits of the duplication, or reasons that overlapping service areas or competition cannot be eliminated). If these conditions will be eliminated under the strategy, **attach an implementation schedule** listing each step or action that will be taken to eliminate them, the responsible party and the agreed upon deadline for completing it.

There are overriding benefits to continuing this arrangement because Statesboro provides assistance to the County in the event of an emergency or natural disaster.

3. List each government or authority that will help to pay for this service and indicate how the service will be funded (e.g., enterprise funds, user fees, general funds, special service district revenues, hotel/motel taxes, franchise taxes, impact fees, bonded indebtedness, etc.)

RE: Water Rates Analysis

As you requested, the Town of Portal has prepared an analysis of current water rates for customers inside the city versus rates charged for customers outside the city limits. Water service is available to all residents within the city limits as well as those living ¼ mile outside the city limits. The rate schedule is as follows:

Inside city limits: \$12.25 first 2,000 gallons
 \$1.50 per 1,000 over the minimum up to 10,000 gallons

Outside city limits: \$15.00 first 2,000 gallons
 \$1.65 per 1,000 over the minimum up to 10,000 gallons

Water customers outside the city limits have a higher cost of service for the following reasons:

1. The residents of the Town of Portal own the water pump. Residents within the ¼ mile band around Portal have the option of accessing city water, which benefits these citizens who would otherwise need to dig a well.
2. Several years ago when the town received federal funds to upgrade the water system, FHA set the water rates at their current level.
3. The Town of Portal maintains all water lines up to the service meter at the residence. The additional cost for users outside the city limits helps pay for administrative costs related to maintenance needs for these residents.

The current water rate structure is justified for the reasons listed above. If additional information is needed or if I can answer any questions about this matter, please feel free to call me.

Sincerely,

Bill Brown, Mayor
Town of Portal

June 9, 1998

A motion was made by Keith Brown, seconded by Larry Motes to raise the water rates becoming effective for July Water, billed for August 1, 1998.

Increased rates are:

Inside city limits

\$12.25 minimum first 2,000 gal.

\$1.50 per 1,000 gal. over the minimum up to 10,000 gal

\$1.00 per 1,000 gal. all over 10,000 gal.

Outside city limits

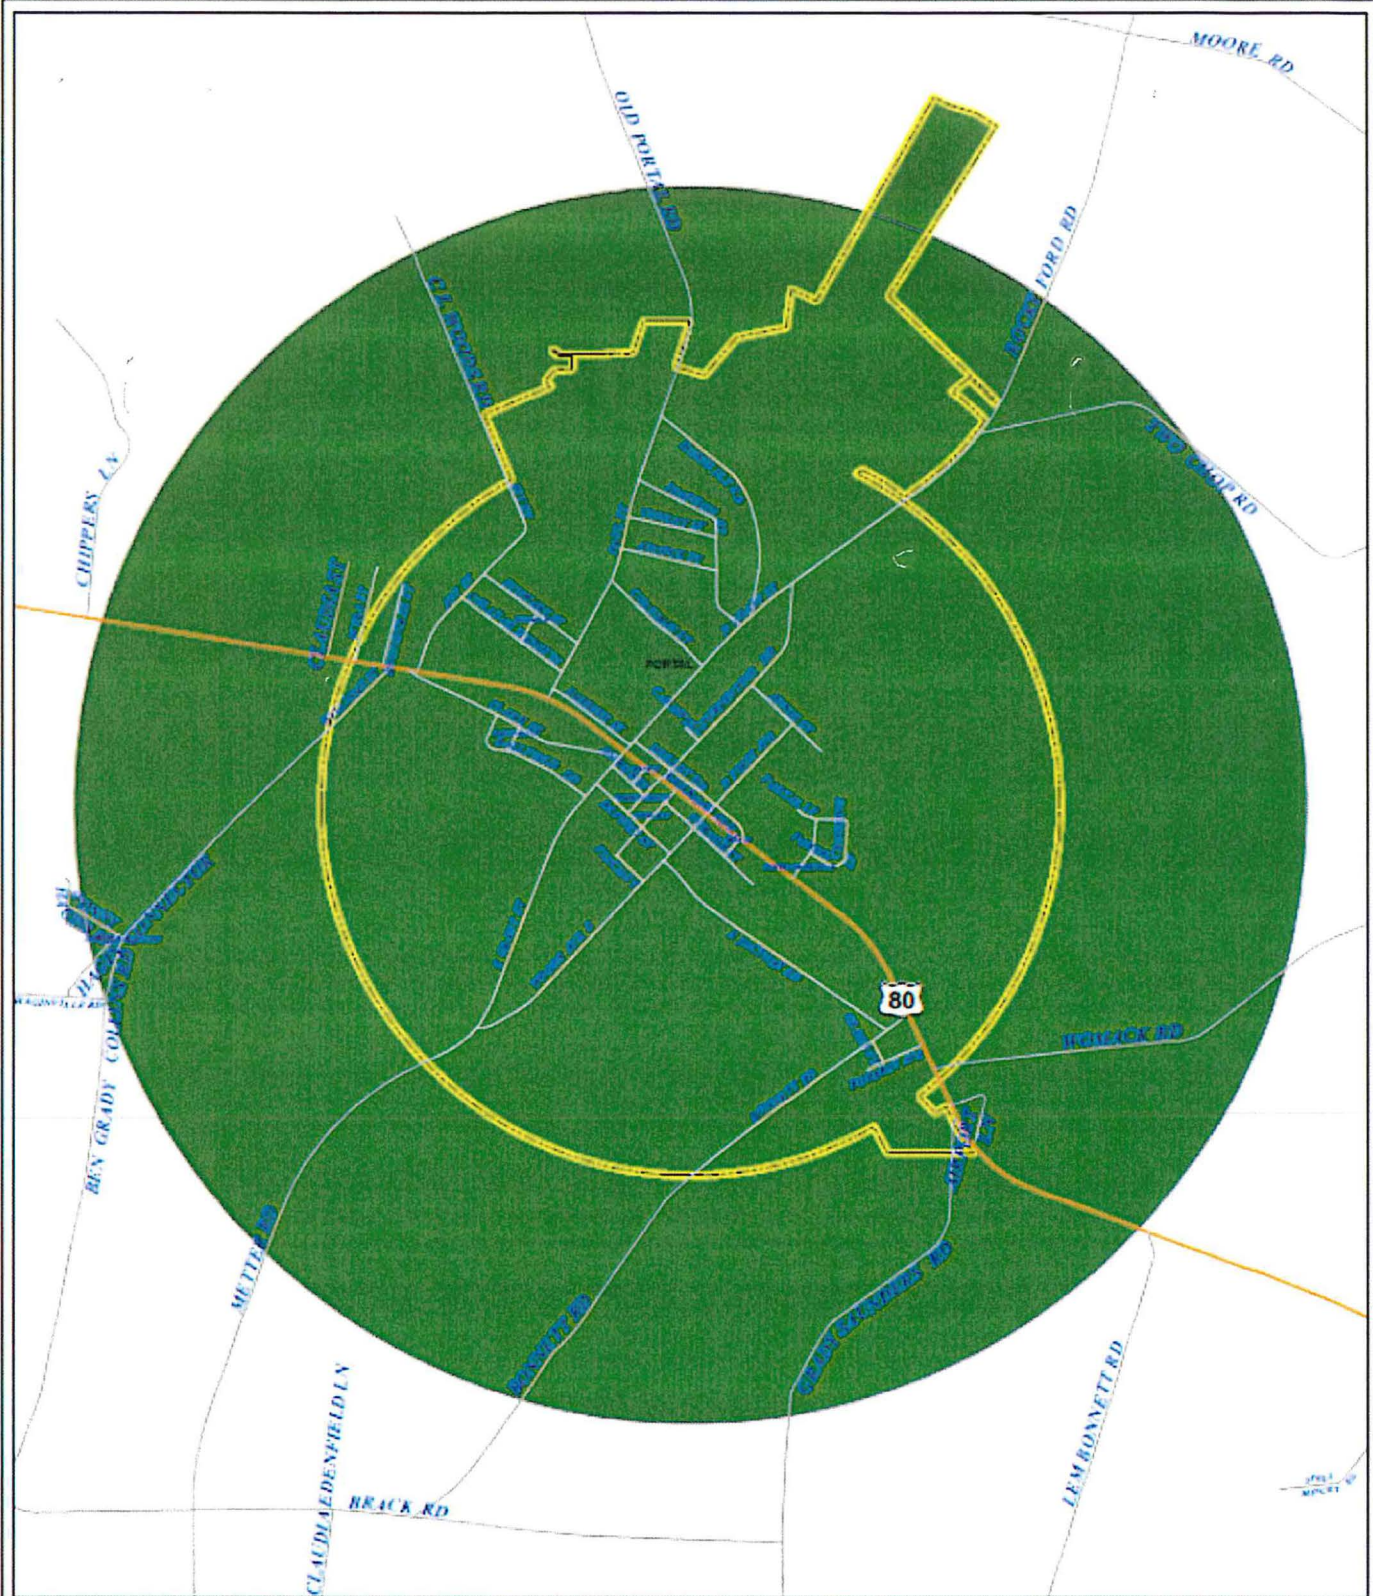

\$15.00 minimum first 2,000 gal.

\$1.65 per 1,000 gal. over the minimum up to 10,000 gal

\$1.00 per 1,000 gal. all over 10,000 gal.

There being no further business, the meeting was duly adjourned.

Respectfully submitted

**TOWN OF PORTAL
WATER SUPPLY AND DISTRIBUTION**

XII. PROPOSED RATE STRUCTURE AND REVENUE:

To generate the required revenue to repay the loan, the Town of Portal must experience a rate increase. The Town must generate a total of \$76,663.94 annually to repay the \$503,600.00 loan. To accomplish this it is recommended to increase the rates as shown in Table 5. The average residential customer consumes an average of 5,000 gal/month. On March 31, 1992 a public hearing was held and there was no objections by the residents for the rate increase.

Form 3: Summary of Land Use Agreements

Instructions: Answer each question below, attaching additional pages as necessary. Please note that any changes to the answers provided will require an update of the service delivery strategy. If the contact person for this service (listed at the bottom of the page) changes, this should be reported to the Department of Community Affairs.

County: Bulloch

1. What incompatibilities or conflicts between the land use plans of local governments were identified in the process of developing the service delivery strategy?

No conflicts have been identified.

2. Check the boxes indicating how these incompatibilities or conflicts were addressed:
- Amendments to existing comprehensive plans
 - Adoption of a joint comprehensive plan
 - Other measures (amend zoning ordinances, add environmental regulations, etc.)

Note:

If the necessary plan amendments, regulations, ordinances, etc. have not yet been formally adopted, indicate when each of the affected local governments will adopt them.

If "other measures" was checked, describe these measures:

3. What policies, procedures, and/or processes have been established by local governments (and water and sewer authorities) to ensure that new extraterritorial water and sewer service will be consistent with all applicable land use plans and ordinances?

In all effort to ensure that extraterritorial water and service extensions or improvements are consistent with all applicable land use plans and ordinances, the respective member governments of Bulloch County, by adopting the service delivery agreement, also agree to establish the following process for the provision of extraterritorial water and sewer services.

- 1) Prior to initiating the provision of water and sewer services outside the boundaries of that respective local government, the City will notify the County government of the services to be provided, the proposed service area, and the anticipated impact on the future land use classification. The notification will include, at a minimum, information on location of property, size of the proposed service area, proposed purpose of the extension (i.e., proposed change in land use), and the current and future land use classification. For the purposes of official notification of the county as required by this agreement, notification of the county shall be achieved by delivery of the required information to the County Manager. Concurrent with the notification to the County Manager, the city will forward the proposed extraterritorial extension data required above to the county Zoning Administrator for review. Within 10 working days following receipt of the above information, the County will forward to the City a statement either: (a) indicating that the County has no objection to the proposed extraterritorial water or sewer service and its consistency with the land use plan and all applicable ordinances; or (b) describing its bona fide objection(s) and explaining why the proposal is inconsistent with the land use plan and all applicable ordinances, providing supporting evidence, and including a list of any possible stipulations or conditions that would alleviate the county's objections.
- 2) If the County has no objection or fails to respond within the aforementioned time frame to the City's proposed extraterritorial water or sewer service, the City is free to proceed with the provision of the service.
- 3) If the County notifies the City that it has a bona fide objection(s), the City will respond to the County in writing within 10 working days of receiving the County's objection(s) by either: (a) agreeing with the county and stopping action on the proposed extraterritorial water or sewer service; (b) agreeing to implement the county's stipulations and conditions and thereby resolving the County's objection; (c) disagreeing that the County's objection is bona fide and notifying the County that the City will seek a declaratory judgment in court; (d) meeting with appointed representatives from the City and County to mitigate the issue and thereby resolve the County's objection(s) before

mediation; or (e) initiating a 30-day (maximum) mediation process to discuss possible compromises with a mediator selected from the list of mediators approved by the Georgia Department of Community Affairs.

- 4) If the City initiates mediation, the City and County will agree on a mediator, mediation schedule, and determine participants in the mediation. The City and County agree to share equally any costs associated with the mediation.
- 5) If no resolution of the County's bona fide land use classification objection(s) results from the mediation, the City will not proceed with the proposed extension or improvements to the water and sewer service.
- 6) If the City and County reach agreement as described in step 3(a), 3(b), or 3(d) or as a result of the mediation, the City is free to proceed with the extraterritorial water or sewer service.

This extraterritorial process for water and sewer services shall remain in force and effect until and unless the service delivery agreement is formally amended by the respective member governments.

SERVICE DELIVERY STRATEGY FORM 4: CERTIFICATIONS

Instructions:

This form must, at a minimum, be signed by an authorized representative of the following governments: 1) the county; 2) the city serving as the county seat; 3) all cities having a 2010 population of over 9,000 residing within the county; and 4) no less than 50% of all other cities with a 2010 population of between 500 and 9,000 residing within the county. Cities with a 2010 population below 500 and local authorities providing services under the strategy are not required to sign this form, but are encouraged to do so.

COUNTY: BULLOCH

We, the undersigned authorized representatives of the jurisdictions listed below, certify that:

1. We have executed agreements for implementation of our service delivery strategy and the attached forms provide an accurate depiction of our agreed upon strategy (O.C.G.A. 36-70-21);
3. Our service delivery strategy promotes the delivery of local government services in the most efficient, effective, and responsive manner (O.C.G.A. 36-70-24(1));
4. Our service delivery strategy provides that water or sewer fees charged to customers located outside the geographic boundaries of a service provider are reasonable and are not arbitrarily higher than the fees charged to customers located within the geographic boundaries of the service provider (O.C.G.A. 36-70-24 (2));
5. Our service delivery strategy ensures that the cost of any services the county government provides (including those jointly funded by the county and one or more municipalities) primarily for the benefit of the unincorporated area of the county are borne by the unincorporated area residents, individuals, and property owners who receive such service (O.C.G.A. 36-70-24 (3));
