LOCAL GOVERNMENT PERFORMANCE STANDARDS

In order to help realize the regional vision set out in the Regional Plan, local governments will be assessed on progress toward implementing a set of performance standards – measurable steps that can be taken by counties and municipalities in the region. As a part of plan implementation meetings, local governments are asked to complete a community assessment that includes the minimum standards and excellence standards (optional).

The *Minimum Standards* are considered to be essential activities needed for consistency with the CSRA Regional Plan 2040. The intent is to ensure a consistent and predictable basic level of local requirements across the region. The Regional Commission and DCA can provide technical and training assistance to local governments to help them achieve the minimum standard.

All local governments assessed meet the 75% threshold for the minimum standards.

Minimum Standards

The following are the Minimum requirements for governments. Each requirement is worth one point. In order to meet the standard, **all governments** need 75 percent of all possible points (some of the standards do not apply to all governments). There are no separate standards for urban vs. rural.

- Updates local Comprehensive Plan at regular intervals as required by the State of Georgia
- Utilize the Future Development Map, Character Area Map and/or Future Land Use Map to guide development decisions, including steering new development to appropriate areas of the community
- Has a memorandum of understanding or similar with Fort Gordon that promotes communication and coordination of land use decisions
- Has a local representative at meetings between Fort Gordon and its bordering counties
- Holds occasional joint meetings of the planning commission and elected officials
- Has intergovernmental or mutual aid agreements for emergency response and assistance as needed
- Staff or elected officials participate in DCA's Community Planning Institute or in training hosted by the CSRA Regional Commission or other agencies on various topics covered in the regional plan or local comprehensive plan
- Identifies locally designated historic districts and National Register historic districts in the local comprehensive plan
- Addresses retention, expansion and creation of businesses in the economic development section and/or policies of the local comprehensive plan
- Addresses investment in the upkeep and expansion of public infrastructure in the community facilities section and/or policies of the local comprehensive plan
- Updates the Service Delivery Strategy (SDS) as required by the State of Georgia
- Periodically reviews zoning and subdivision ordinances to ensure that they fit with desired development patterns (setbacks, density maximums/minimums, mixed uses)
- Ordinances and resolutions that have the effect of law are contained in one document
- Staff can be reached via email and have the ability to send and receive attachments
- Has some form of land development regulations (subdivisions, mobile homes, signs, telecommunications towers, environmental protection ordinances)
- Land use regulations allow for a range of housing options (single-family detached, townhouses, duplexes, apartments, etc.) and a mix of uses (such as allowing residential and commercial together in the same district)
- Maintains compliance with the Georgia Department of Natural Resources' (DNR) Rules for Environmental Planning Criteria by adopting appropriate ordinances for Groundwater Recharge Areas, Wetlands Protection, and River Corridor Protection, where applicable
- Participates in the federal government's E-verify program and provides current documentation to Georgia Department of Audits
- Coordinates with neighboring communities and the region in promoting economic development and tourism initiatives (e.g. Joint Development Authorities, tourism product development surveys, expansion of broadband access)
- Periodically reviews and updates zoning and other land development regulations (including text and map as appropriate) to match current planning efforts and documents
- Participates in annual U.S. Census' Boundary Annexation Survey and submits boundary changes/annexations to DCA
- Shares updated Tax Assessor's data tables and land parcel shapefiles with the RC annually, where applicable
- Updates the local pre-disaster mitigation plan per the standards established by the Federal Emergency Management Agency (FEMA)

FY2020 Report Of Accomplishments

The CSRA's Regional Work Program, adopted in 2019, identified specific actions the Regional Commission, in partnership with its member jurisdictions and other agencies, planned to undertake during the years 2019-2023 to address priority needs and opportunities.

This *Report of Accomplishments* provides a status update on action items from the Regional Work Program.
