A THRIVING MIDDLE GEORGIA

2023 ANNUAL IMPLEMENTATION REPORT

REPORT ON PERFORMANCE STANDARDS

The Middle Georgia Regional Commission (MGRC), through the Regional Agenda process, is given the responsibility and authority to set achievement levels for local governments of the region. In doing so, MGRC recognizes that all local governments of the region are different and that some standards may be quite easily attainable for larger, well-funded governments, but more difficult to meet for other cities and counties. For this reason, MGRC has set Essential Standards, as well as Excellence Standards for the local governments of Middle Georgia. Essential Standards are differentiated from Excellence Standards, which may require increased planning, coordination, and financial commitment.

The Middle Georgia Regional Commission is dedicated to ensuring that every local government is able to meet all Essential (minimum) Standards of the Regional Agenda. Regional Commission staff will assist local governments with any tasks necessary to attain the Essential Standards at minimal or no cost. As of March 24, 2023, twenty-five of the thirty-one local governments have achieved either the Essential or Excellence Standards. Throughout FY 2024, MGRC will provide technical assistance to the remaining six local governments to achieve the Essential Standard.

RLGF: Report of Local Government Finance; GOMI: Government Management Indicators survey

MGRC Assistance to Local Governments not Currently Meeting Essential Standards:

The 2017 changes to the Regional Planning Requirements (Rules and Regulations of the State of Georgia Chapter 110-12-6) eliminated penalties associated with communities that do not reach the Essential Standards set forth in the Regional Plan. However, MGRC still recognizes a responsibility to assist local governments however possible in the attainment of these standards. MGRC is currently undertaking the following activities to assist local governments in the attainment of the Essential Standards:

- MGRC staff transmits regular messages to all local governments that are delinquent on Department of Community Affairs (DCA) reports, including the Report of Local Government Finance (RLGF) and Government Management Indicators (GOMI) survey. MGRC also serves as a liaison between local communities and the DCA Office of Research and Surveys, as necessary.
- MGRC has offered website development services to the City of Culloden.

REGIONAL IMPLEMENTATION PROGRAM REPORT OF ACCOMPLISHMENTS

The Middle Georgia Regional Implementation Program contains action items for the Middle Georgia Regional Commission and its regional partners for the purpose of promulgating the opportunities and vision developed by stakeholders for the Regional Plan. The report on the following pages details accomplishments of the Regional Implementation Program through March 9, 2023. Projects are either listed as **complete**, **underway**, **canceled**, or **ongoing** (items that represent a continuous process for MGRC rather than a one-time project). Additional comments are provided in some areas where available.

The Middle Georgia Regional Commission completed an update to its Regional Work Program in 2021, adding several additional items as new areas of work. Newly added projects are still underway, and no new programmatic additions are proposed for the Regional Work Program for 2023. As such, the Middle Georgia Regional Commission proposes to readopt the existing 2021-2025 Community Work Program without further amendments. This will be the final year of this work program, as MGRC will begin full updates to the Regional Plan in early FY 2024.
