I. Chapter 110-12-1. Minimum Standards and Procedures for Local Comprehensive Planning

1. Introduction

The 2021 Comprehensive Plan Update for Brantley County and the Cities of Hoboken and Nahunta was prepared in accordance with the Rules of the Georgia Department of Community Affairs Chapter 110-12-1, Minimum Standards and Procedures for Local Comprehensive Planning, effective October 1, 2018.

As required by the Local Comprehensive Planning Standards, the 2021 Comprehensive Plan Update for Brantley County and the Cities of Hoboken and Nahunta consists of the following elements:

1. Community Goals
2. Needs and Opportunities
3. Broadband Services Element
4. Community Work Program
5. Economic Development Element (*As a community included in the Georgia Job Tax Credit Tier 1 category*) Although a separate summarized economic development element is included in this Comprehensive Plan, which by reference adopts the current regional Comprehensive Economic Development Strategy (CEDS), any economic development goals, policies, needs, opportunities, and objectives pertaining to Brantley County and the Cities of Hoboken and Nahunta have also been integrated directly into their parallel components in this Comprehensive Plan.
6. Land Use Element - (*As communities with zoning or equivalent land development regulations subject to the Zoning Procedures Law*) Brantley County has adopted a zoning ordinance while the City of Hoboken and the City of Nahunta have not yet done so.

2. Community Involvement

All of the required elements have been developed with multiple opportunities for involvement and input from stakeholders throughout the Comprehensive Plan Update for Brantley County and the Cities of Hoboken and Nahunta. The following steps were taken to ensure the plan reflects the full range of needs and opportunities from the many stakeholders and residents in Brantley County and the Cities of Hoboken and Nahunta:

- a) Stakeholders were identified. These included:
 - The local governments' elected officials and staff
 - Local educational institutions (Brantley County Board of Education)
 - Public Safety departments
 - Local businesses and industries
 - Watershed groups, specifically the Satilla Riverkeeper
 - The general public
- b) Participation techniques were identified. Techniques used included a kick-off public information meeting, printed public information in local newspapers, and information on the Southern Georgia Regional Commission's website and local government websites. Below is an example of the local government announcements on the Brantley County website:

The screenshot shows the Brantley County Georgia website. At the top, there is a navigation bar with 'CURRENT BIDS', 'EMPLOYMENT', and 'CONTACT US'. Below that, 'HOME', 'County Directory', 'Brantley County', and 'PSA' are visible. The main content area features a 'County Office announcements' section with a 'Joint Public Hearing' announcement dated 'Mar 12, 2021'. The announcement text states: 'For Brantley County and Cities of Hoboken and Nahunta Comprehensive Plan Update A public hearing will be held at 5:00 PM on Thursday, April 8, 2021, in the Brantley County Commissioners Meeting Room, located at 33 Allen Road, Nahunta, Georgia. This Public hearing is to...' followed by a 'READ MORE' link. Below this is a 'Public Notice' dated 'Mar 10, 2021' regarding a regular meeting of the Board of Elections on Thursday, March 18th, 2021 at 10:00 A.M. at the Elections Office, 10305 N. Main St, Ste. 400, Nahunta, Ga., with another 'READ MORE' link. On the left side of the screenshot, there are social media posts from the Brantley County Emergency Management Agency. One post asks 'ARE YOU REPAIRED?' and another provides a warning about 'AREAS OF DENSE FOG' with a map of foggy areas and a visibility warning of less than 1/4 mile. The fog warning text includes: 'Visibility may reduce rapidly at times!', 'Inland Fog Clearing 8-9 am', and 'Sea Fog through Midday'.

- c) A participation program was conducted. Identified stakeholders were invited and attended, yielding specific input in plan content. Stakeholders participated in the three workshops and via email and telephone conversation to provide input and feedback.
- d) Public participation activities were documented with workshop and public meeting photographs, sign-in sheets, and published advertisements in the plan and plan appendix.

1st Public Hearing – “Kick-Off”

The public hearing kicking off the comprehensive planning process was held on September 3, 2020 in the Brantley County Commissioners Meeting Room. It was held for the purpose of making any potential stakeholders and residents aware of the comprehensive plan update and review; to explain the purpose of the update; and to encourage residents and other stakeholders to actively participate in the plan update.

3. Identification of Participation Techniques

The following participation techniques were utilized during the update process:

- Public Hearings
- Workshops
- E-mail and telephone correspondence with stakeholders
- Special Webpage on SGRC website
- Dissemination of information in the newspaper and on local government websites

As the Covid-19 pandemic was underway during the development of this plan, social distancing measures and mask wearing were encouraged during in-person workshops and hearings.

4. Participation Program

A foundational principle utilized by the Southern Georgia Regional Commission in all of its planning projects is public and stakeholder participation from, and coordination with, multiple and diverse interest groups. Outreach to the public, local governments and other stakeholders and interested parties was accomplished by e-mail correspondence, direct communication, the project website, and updates provided at workshops and at other group meetings. Opportunity for public comment was provided during the public hearings.

In addition to the two required public hearings, SGRC held a series of three workshops to discuss several elements of the plan. The first workshop, held on November 9, 2020 was used to review the existing goals, needs, and opportunities. Attendees participated in a SWOT (Strengths, Weaknesses, Opportunities, and Threats) analysis (a summary is provided in the Appendix) and updated the list of goals, needs, and opportunities. Copies of the sign-in sheets are provided in the appendix along with public hearing notices.

1st Workshop (SWOT ANALYSIS)

2nd Workshop Policies & Work Program Accomplishments

The Policies and Report of Accomplishments were developed in the second workshop, held on December 14, 2020, along with the draft of the updated Community Work Program. The Community Work Program was developed by the participants to include specific action items and projects that would be feasible for the County and the individual communities to implement should funding become available.

3rd Workshop Land Use Element/Character Area

The third workshop, held on March 22, 2021 was utilized to discuss the new Broadband Element and to update the Land Use Element and Maps as desired by the local governments.

Following the third workshop, staff spoke individually with each community to review the applicable Community Work Plans and Land Use maps/Character Area descriptions and designations.

Final Public Hearing

A final public hearing was held on April 8, 2021. The final draft of the plan was reviewed and public comment was sought. As a result of this hearing, the draft plan was transmitted to the Department of Community Affairs for review.

Adoption

Brantley County adopted the plan on June 3, 2021; Hoboken and Nahunta adopted it on June 1 and June 7, 2021, respectively.

5. Consideration of Regional Water Plan and Environmental Planning Criteria

During the preparation of the Comprehensive Plan, the local governments must review both the Regional Water Plan covering its area and the Georgia Department of Natural Resources Rules for Environmental Planning Criteria, as laid out in Chapter 391-3-16, to determine whether any local implementation practices or development regulations need to be adapted to be consistent with both.

Suwannee-Satilla Regional Water Plan

Brantley County and the Cities of Hoboken and Nahunta are within the area of the Suwannee-Satilla Regional Water Plan, which was adopted in September 2017.

Source: Suwannee-Satilla Regional Water Plan

The Suwannee-Satilla Regional Water Plan has identified 13 goals, listed below, to implement its vision of managing water resources in a sustainable manner under Georgia's regulated riparian and reasonable use laws in order to support the state's and region's economy, protect public health and natural resources, and enhance the quality of life for all citizens; while preserving the private property rights of Georgia's landowners, and in consideration of the need to enhance resource augmentation and efficiency opportunities.

Suwannee-Satilla Regional Water Plan Goals:

1. Manage and develop water resources to sustainably and reliably meet domestic, commercial, industrial water needs, and agricultural water needs including all agricultural sectors (this includes the agricultural/ forestry economy of the region).
2. Manage groundwater and surface water to encourage sustainable economic and population growth in the region.
3. Manage the region's and state's water resources in a manner that preserves and protects private property rights.
4. Ensure an adequate water supply of suitable quality to meet current and future human needs, while protecting environmental resources.
5. Identify opportunities to optimize existing and future supplies, and water and wastewater infrastructure.
6. Promote efficient use and management of surface and groundwater resources to allow for sufficient supplies for current and future generations.
7. Protect and manage surface and groundwater recharge areas to ensure sufficient long term water supplies for the region.
8. Protect, maintain, and where appropriate and practicable, identify opportunities to enhance water quality and river base flows.
9. Protect and maintain regional water-dependent recreational opportunities.
10. Identify opportunities to manage stormwater to improve water quantity and quality.
11. Identify and implement cost-effective water management strategies.
12. Seek to provide economically affordable power and water resource service to all citizens of the region.
13. Identify and implement actions to better measure and share water use data and information.

In addition, the Regional Water Plan has adopted several Short-Term Water Quantity and Water Quality Management Practices, which the local comprehensive plan should include in order to manage water resources in a sustainable manner through the planning period and beyond. The most significant issues in the Suwannee-Satilla Region are surface water availability gaps driven by agricultural usage. As such, the majority of water supply management practices are intended to address agricultural surface water use.

Future work program activities in this plan related to water quality management practices mentioned in the Regional Water Plan are highlighted in italics following the practices below.

Short Term Water Quantity Management Practices (0-10 Years)

1. Utilize surface water and groundwater sources within the available resource capacities.
2. Water conservation.

3. Data collection and research to confirm the frequency, duration, severity, and drivers of surface water gaps (forecast methodology assumptions and Resource Assessment modeling).
4. Evaluate and ensure that current and future surface water permit conditions do not contribute to 7Q10 low flow concerns.
5. Encourage sustainable groundwater use as a preferred supply in regions with surface water 7Q10 low flow concerns and adequate groundwater supply.
6. Identify incentives and a process to sustainably replace a portion of existing agricultural surface water use with groundwater use to address 7Q10 low flow concerns.
7. Evaluate the potential to use existing storage to address 7Q10 low flow concerns.
8. Education to reduce surficial aquifer groundwater use impacts to 7Q10 low flow Concerns.

Short-Term Water Quality Management Practices (0 – 10 Years):

1. Point Sources:

- Support and fund current permitting and waste load allocation process to improve the treatment of wastewater and increase treatment capacity.
- Data collection and research to confirm discharge volumes and waste concentrations as well as receiving stream flows and chemistry

2. Non-Point Sources:

- Data collection to confirm the source of pollutants and causes; encourage stormwater ordinances, septic system maintenance, and coordinated planning
- Ensure funding and support for local and state Best Management Practices programs, including urban/suburban, rural, forestry, and agricultural Best Management Practices

3. Non-point Source Existing Impairments:

- Total maximum daily load listed streams: Improve data on the source of pollutant and length of impairment; identify opportunities to leverage funds, and implement non-point source Best Management Practices

Longer Term (20 – 40 years) water quantity and quality management practices include:

- Improve the infiltration and management of wetlands
- Evaluate incentive-based programs to manage, increase, and restore wastewater and stormwater returns
- Identify potential/feasibility of a multi-purpose reservoir
- Identify the feasibility of regional inter-basin transfer
- Continue wastewater and stormwater master planning

Chapter 391-3-16, Rules for Environmental Planning Criteria

The Environmental Planning Criteria that are part of the Minimum Planning Standards deal specifically with the protection of water supply watersheds, groundwater recharge areas, wetlands, river corridors, and mountains, the last of which is not applicable in this region. These criteria were developed by the Georgia Department of Natural Resources (GDNR) as mandated in Part V of the Georgia Planning Act and in the Mountains and River Corridor Protection Act.

The criteria require that local governments shall identify existing and future water supply watersheds and adopt a water supply watershed protection plan for their jurisdiction. Some uses may be grandfathered, such as land uses existing prior to the adoption of a watershed plan, mining activities permitted by GDNR, certain utility placements, special forestry, or agricultural services.

The environmental guidelines also spell out criteria for the delineation of small and large water supply watersheds, for the protection of groundwater recharge areas, for the protection of wetlands, and for the protection of river corridors. These criteria shall be incorporated into this comprehensive plan and addressed specifically and in more detail through local ordinances and land development code regulations.

Brantley County Work Program Items Related to Regional Water Plan
<i>Create a clean-up program targeting illicit discharge and littering.</i>
<i>Conduct a Natural Resource Conservation education program for citizens, developers and local officials.</i>
<i>Develop a plan for preserving and marketing resources for eco-tourism.</i>
<i>Repair boat ramps along the Satilla River.</i>

II. Plan Elements

1. Community Goals and Vision

Vision

Brantley County and the Cities of Hoboken and Nahunta endeavor to be a thriving and vibrant community. The County and Cities seek to supply quality education for all citizens, offer various housing options, create a thriving diverse economy, and find creative ways to capitalize upon the County's strategic location and unique natural resources.

Community Goals

1. Minimize impacts of development on natural and cultural resources.
2. Consider the impacts of development on the local economy, particularly the agricultural industry.
3. Ensure that all residents within Brantley County have access to affordable housing.
4. Consider the impact of development to the functionality of the floodplain, and ensure that new development is protected from flooding.
5. Consider the suitability of soils for septic systems and proposed development.
6. Ensure that future development is coordinated appropriately with water and sanitary sewer service areas.
7. Enhance the availability of energy sources, including natural gas to increase cost effectiveness for residents and business owners.
8. Understand and manage expectations for growth.
9. Maintain communication between each jurisdiction and surrounding counties in an effort to better serve the residents of Brantley County.
10. Increase educational and recreational opportunities.
11. Ensure all community residents have access to critical goods, community services, and safe, clean neighborhoods.
12. Maintain broadband infrastructure to support educational opportunities and economic development.
13. Consider the impact of development to the transportation system as well as local transportation plans and projects. Provide a safe and efficient integrated multi-modal transportation system including Greenways, Bikeways, and Blueways addressing the future needs of Brantley County businesses, residents, and visitors.

2. Needs and Opportunities

The Needs and Opportunities listed in this section were developed through discussions with stakeholders; from the experiences of stakeholders; through analysis of statistical data and information; and through review and revision as applicable of the needs and opportunities identified in the 2016 Joint Comprehensive Plan Update for Brantley County and the Cities of Hoboken and Nahunta. Each of the following needs and opportunities is addressed by corresponding policies in the “Community Policies” section.

Natural Resources

Needs

- Open spaces are not under long-term protection and/or do not have long-term plans for programming.
- There is a lack of conservation of resources and organized efforts to minimize waste, such as a recycling program.
- Existing dirt roads adjacent to the Satilla River experience heavy flooding during rain events.

Opportunities

- The County and Cities can work together to preserve prime agricultural land and existing open space.
- Identify the county’s natural resources and develop ways to protect and market them.
- Develop natural resource conservation and protection education for citizens, local officials, and developers.
- Incorporate walking trails, bike trails, and riding trails in greenspace.
- Creative methods to address wastewater needs adjacent to the Satilla River need to be developed in coordination with the Health Dept.
- A recycling effort could be initiated between the county and cities in coordination with non-profits and the private sector.
- A conservation corridor could be designated along the Satilla River to prevent future development on the river, in wetland areas, and in the floodplain.

Cultural Resources

Needs

- The County and Cities do not have an ordinance to preserve historic homes and other historic sites.

Opportunities

- Develop a list of the historic sites in the community.

Economic Development

Needs

- There is a lack of employment opportunities.
- There is a lack of name recognition; Brantley County and the Cities of Hoboken and Nahunta need to become better known outside of the local area in order to attract businesses and tourism.

Opportunities

- The local economy could be stimulated through downtown revitalization and infill development in the Cities of Hoboken and Nahunta.
- Promote local eco-tourism (especially the Satilla River Water Trail for canoeing, boating, fishing, and educational opportunities) and historic-based tourism with marketing, festivals, and events.
- The Brantley County Development Authority is a good resource for businesses.

- The provision of natural gas service would make the county more marketable to businesses.
- Capitalize on proximity to major ports (the Ports of Brunswick, Jacksonville, and Savannah), and on proximity to I-95 and other major highways such as US-1, US-82, and US-301.
- The community should be marketed on major transportation corridors in the region, for example by exit signage on I-95.
- Updated county and city websites would enable more public engagement and involvement in the community.

Housing

Needs

- There is a lack of special needs housing (for the elderly, handicapped, etc.).
- There is a lack of clean, safe affordable housing.
- There are code enforcement issues with existing housing.

Opportunities

- Create rehabilitation programs and incentive programs for affordable infill housing, and offer homebuyer education programs.

Community Facilities and Services

Needs

- The County and Cities face limitations in meeting the future demands of a growing population.
- The County needs improvements in storm water management due to the great deal of flooding that occurs with heavy rains.
- There is a need for a community meeting facility that will also double as an Emergency Operations Center (EOP) and Joint Training Facility.
- Some dirt roads still lack adequate drainage because of problems created by erosion, sedimentation, and storm water runoff.
- Natural gas service could be a more cost affordable energy source than options currently available.

Opportunities

- Vacant buildings in downtown Nahunta could be redeveloped.
- LMIG funds could be utilized to pave dirt roads on a regular schedule.

Land Use

Needs

- Population growth is expected in upcoming years, which may present several issues for Brantley County's provision of services, environment, and quality of life.

Opportunities

- The City of Hoboken and the City of Nahunta have the opportunity to develop land development regulations.
- Preserve open space to be used as parks and greenspace.
- Encourage traditional neighborhood development.
- Create mixed-use neighborhoods by locating small stores, such as local markets, within easy walking distance of residences.

Intergovernmental Coordination

Needs

- Improve communication and inclusion between government, agencies, authorities, business, and citizens in the crafting of and implementation of plans.

Opportunities

- The county and the cities could collaborate and share resources for the provision of information to residents.

Education

Needs

- Employer needs are not being met for employee training.
- Workforce development needs to be prioritized – employers have a difficult time finding qualified personnel who will stay on the job.

Opportunities

- Training and workforce partnerships could be developed between the Board of Education and local colleges to better prepare the workforce for career opportunities and employer needs.
- Partner with local community colleges and technical colleges to provide satellite classes and courses for community residents.

Health

Needs

- The community needs a Critical Care Facility for stabilizing patients.
- There is a lack of recreational opportunities.

Opportunities

- Grant opportunities could be explored to determine if state and/or private funds are available to increase recreational opportunities.

Broadband Services

Needs

- More affordable broadband access is needed throughout all of Brantley County and the Cities of Hoboken and Nahunta.

Opportunities

- More affordable broadband services may enable greater opportunity for citizens and businesses.
- Public/Private Partnerships could be developed to provide broadband coverage for low income populations.

Transportation

Needs

- There is a lack of local and state funding to support resurfacing and maintenance of local roads.
- There is a lack of state funds and maintenance on existing state roads.

- There is a lack of a safe pedestrian, bicyclist, and golf cart transportation environment.

Opportunities

- Seek the development of additional bicycle and/or multi-use trails.
- Seek the development of additional sidewalk infrastructure.
- Seek the development of additional blueways and water trails.

3. Analysis of Data and Information

Brantley County

The estimated 2019 population of Brantley County is 19,109¹. This is an estimated increase of 698 residents since the 2010 Census; indicating a slightly increasing population². Brantley County is part of the Brunswick, Georgia Metropolitan Statistical Area. There are an estimated 8,119 housing units in Brantley County, with approximately 54.8% of these as mobile homes³. 93.7% of the population are White and 3.5% are Black or African American⁴. 2.1% of the population are Hispanic or Latino⁵.

The median age in Brantley County is 40.9, compared with a median US age of 37.8⁶. The median household income is \$37,031⁷. The median home value is \$68,200 for owner occupied units⁸. The homeowner vacancy rate is 0.8% while the rental vacancy rate is 4%⁹. The percentage of occupied housing units with no vehicle available is 3.7%¹⁰.

¹⁰ U.S. Census Bureau, American Community Survey (ACS), 5-Year Estimates, Vehicles Available, 2014-2018

City of Hoboken

The estimated 2018 population of the City of Hoboken is 762¹¹. This is an increase of approximately 234 residents since the 2010 Census; an increase of 31%¹². There are an estimated 241 housing units in the City of Hoboken¹³. 73.8% of the population are White and 26.2% are Black or African American¹⁴.

The median age in the City of Hoboken is 33.1. The median household income is not available¹⁵. The median home value is \$176,200¹⁶. The vacant housing unit rate is 7.1%¹⁷. The percentage of occupied housing units with no vehicle available is 9.4%¹⁸.

City of Nahunta

The estimated 2018 population of the City of Nahunta is 775¹⁹. This is an estimated decrease of approximately 278 residents since the 2010 Census; indicating a declining population²⁰. There are an estimated 403 housing units in the City of Nahunta²¹. 80.3% of the population are White and 14.8% are Black or African American²².

²² U.S. Census Bureau, American Community Survey (ACS), 5-Year Estimates, Race, 2013-2017

The median age in the City of Nahunta is 38²³. The median household income is \$19,565²⁴. The median home value is \$67,000²⁵. The percentage of occupied housing units with no vehicle available is 13.7%²⁶.

4. Broadband Element

The Georgia legislature, in recognition of the importance of broadband infrastructure to the vitality of communities passed the Achieving Connectivity Everywhere (ACE) Act (SB 402) in 2018. The Act provides for broadband services²⁷ planning, deployment, and incentives, along with other purposes. It also requires comprehensive plans to include the promotion of the deployment of broadband services. Brantley County and the Cities of Hoboken and Nahunta recognize the importance of broadband expansion to economic development and quality of life for residents.

Provision of broadband services enables access by residents to a number of vital services such as healthcare, economic opportunity, and education. Expansion of rural broadband along with improvement in the provision of broadband services can address concerns of resident out-migration. Effective and efficient broadband enables internet-based businesses to succeed in the global economy. It is difficult to educate upcoming generations of students in web literacy and digital skills training without adequate broadband speed and connectivity. The Covid-19 pandemic has highlighted the importance of home broadband availability, affordability, and quality as all students and many workers studied and worked remotely.

²⁴ U.S. Census Bureau, American Community Survey (ACS), 5-Year Estimates, Income and Benefits, 2013-2017

²⁵ U.S. Census Bureau, American Community Survey (ACS), 5-Year Estimates, Median Value (Dollars), 2013-2017

²⁶ U.S. Census Bureau, American Community Survey (ACS), 5-Year Estimates, Vehicles Available, 2013-2017

²⁷ As defined in O.C.G.A. §50-40-1. Definitions. "Broadband services" means a wired or wireless terrestrial service that consists of the capability to transmit at a rate of not less than 25 megabits per second in the downstream direction and at least 3 megabits per second in the upstream direction to end users and in combination with such service provides:

- (A) Access to the Internet; or
- (B) Computer processing, information storage, or protocol conversion.

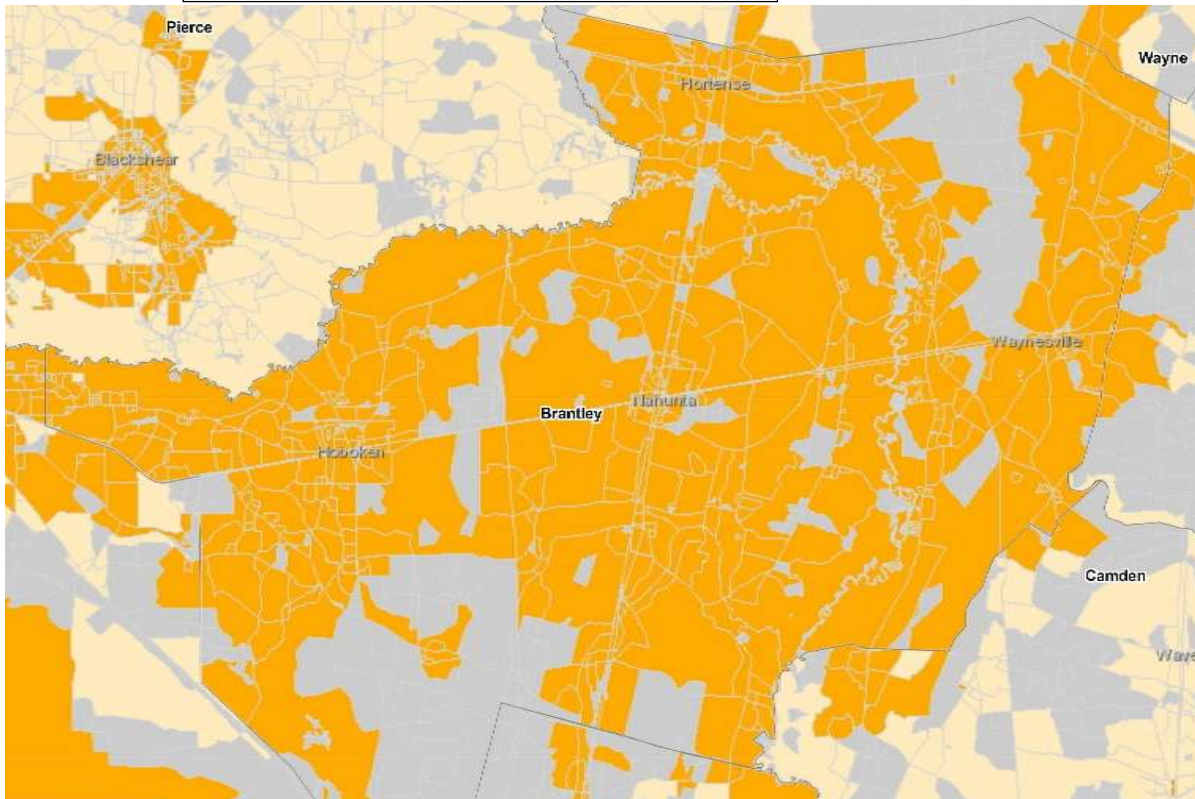

The latest data shown in Map 1 below identifies less than 1% of the locations in Brantley County as unserved. This analysis is based on a broadband availability map made available in June, 2020. The new map utilizes more granular data than the previously utilized FCC map.

Percent Unserved Locations: <1%
Unserved Locations: 28
Served Locations: 8,503

Sources: Esri, HERE, NPS | Federal Communications Commission (FCC), Georgia Broadband Center | Georgia Broadband Center
 [https://broadband.georgia.gov/maps/gbdi-unserved-county]

Served & Unserved Areas

- Served
- Unserved
- No Locations

Map 1: Served & Unserved Areas in Brantley County and the Cities of Hoboken and Nahunta

County statistics are based on a fixed, terrestrial broadband definition of 25 megabits per second down and 3 megabits per second up. Populated areas that did not meet this definition are delineated in Map 1 (above) as 'Unserved'. There is very little area in Brantley County that is considered unserved.

80.9% of households in Brantley County are estimated to have a computer, compared to 88.6% of households statewide.²⁸ Broadband internet subscriptions in the County are held by 62.3% of households, compared to 79.4% within the state.²⁹

²⁸ U.S. Census Bureau, 2018 American Community Survey (ACS), 5-Year Estimates, Households with a computer, percent

²⁹ U.S. Census Bureau, American Community Survey (ACS), 5-Year Estimates, Households with a broadband Internet subscription, percent, 2014-2018

Brantley County and the Cities of Hoboken and Nahunta recognize there are many barriers for private broadband services providers to effectively roll-out necessary broadband infrastructure in rural areas of the State. City and County leaders recognize the importance of broadband quality for industry retention and recruitment within this small, rural community. Community leaders continuously seek improvement in the quality of life for the rural residents of the Cities and County. Industry relocation and business creation are dependent on the necessary infrastructure being in place and being affordable. The lack of affordable broadband infrastructure is a major impediment to not only recruitment but also for the expansion of established local industry. The Broadband Ready Community and Site designation has been established to incentivize private investment in the provision of rural broadband services. Brantley County and the Cities of Hoboken and Nahunta plan to apply for these designations and signal to the State and to private Internet Service Providers their prioritization of rural broadband improvement, increase in affordability, and expansion in the community.

Broadband Action Plan

Brantley County is located within rural South Georgia. The County has a level of broadband penetration not seen in the majority of the region. However, the provision of education, access to vital information, and health services demands a certain level of affordable broadband infrastructure. While the large majority of the county enjoys service by broadband infrastructure, a more in-depth analysis could show that this minimal level of 25 megabits per second down and 3 megabits per second up is not sufficient for the higher-speed uses of broadband technology such as for business, education, health, and entertainment. Goal 12 of this Comprehensive Plan seeks the maintenance of broadband infrastructure to support educational opportunities and economic development. This plan identifies the following Needs and Opportunities related to the provision of broadband infrastructure (also see Section 2):

Needs

- More affordable broadband access is needed throughout all of Brantley County and the Cities of Hoboken and Nahunta.

Opportunities

- More affordable broadband services may enable greater opportunity for citizens and businesses.
- Public/Private Partnerships could be developed to provide broadband coverage for low income populations.

The following needs and community policies in this plan relate to the provision of broadband infrastructure:

Need #1. More affordable broadband access is needed throughout all of Brantley County and the Cities of Hoboken and Nahunta.

Policy 12.1 Enable public/private partnerships to reduce the cost of broadband service in Brantley County.

The above need and policy has been used to inform an action plan to support the deployment of broadband services into unserved and underserved areas of Brantley County and the Cities of Hoboken and Nahunta. The specific action items in the action plan are listed below and are cross-listed in the Community Work Programs of the appropriate jurisdictions (see Section 7).

Broadband Action Steps

Activity	FY2 2	FY2 3	FY2 4	FY2 5	FY2 6	Responsible Party	Estimated Cost	Funding Source
Provide adequate high speed broadband access for local industries, commercial businesses, residences, and community facilities.	x	x	x	x	x	Brantley County, Cities of Hoboken and Nahunta, Public/Private Partnership	\$1,000,000 - \$10,000,000	General Fund, SPLOST, grants, private funding

Activity	FY2 2	FY2 3	FY2 4	FY2 5	FY2 6	Responsible Party	Estimated Cost	Funding Source
Adopt a Broadband Ordinance.	x	x	x	x	x	Brantley County, Cities of Hoboken and Nahunta, Public/Private Partnership	Staff time	General Fund
Apply for Broadband Ready Certification.	x	x	x	x	x	Brantley County, Cities of Hoboken and Nahunta, Public/Private Partnership	Staff time	General Fund
Review and reduce any obstacles to roll-out or development of broadband infrastructure.	x	x	x	x	x	Brantley County, Cities of Hoboken and Nahunta, Public/Private Partnership	Staff time	General Fund

5. Consideration of DCA Community Quality Objectives

The Department of Community Affairs (DCA) has crafted a series of objectives dealing with a broad range of issues that concern local governments. The objectives, which are listed below, are only recommendations, but provide local governments with a tool to guide them in the assessment of their needs and opportunities and in the development of their implementation activities. If they are used as such a tool by many of the local governments in their planning efforts, these objectives also have the potential to result in consistent planning projects and goals, which may translate into greater efficiency and a better quality of life for the residents.

1. Economic Prosperity

Encourage development or expansion of businesses and industries that are suitable for the community. Factors to consider when determining suitability include: job skills required; long-term sustainability; linkages to other economic activities in the region; impact on the resources of the area; and prospects for creating job opportunities that meet the needs of a diverse local workforce.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

Economic development activities, which are coordinated between the County and the Cities of Hoboken and Nahunta, are consistent with the Economic Prosperity objective. Applicable best practices include: workforce training, corridor study, tracking business needs, business incubator, evaluating business formation in the community, and economic development strategy for diversifying the local economy.

2. Resource Management

Promote the efficient use of natural resources and identify and protect environmentally sensitive areas of the community. This may be achieved by promoting energy efficiency and renewable energy generation; encouraging green building construction and renovation; utilizing appropriate waste management techniques; fostering water conservation and reuse; or setting environmentally sensitive areas aside as green space or conservation reserves.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

Natural Resource and Land Use goals and policies are consistent with the Resource Management objective. Applicable best practices include: water resource protection, stormwater management, conservation easements to include the setting aside of flood-prone land and preservation of regionally important resources.

3. Efficient Land Use

Maximize the use of existing infrastructure and minimize the costly conversion of undeveloped land at the periphery of the community. This may be achieved by encouraging development or redevelopment of sites closer to the traditional core of the community; designing new development to minimize the amount of land consumed; carefully planning expansion of public infrastructure; or maintaining open space in agricultural, forestry, or conservation uses.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

The development pattern of the County is consistent with the Efficient Land Use objective. Applicable best practices include: infill development program, adaptive reuse, and preservation of agricultural land.

4. Local Preparedness

Identify and put in place the prerequisites for the type of future the community seeks to achieve. These prerequisites might include infrastructure (roads, water, and sewer) to support or direct new growth; ordinances and regulations to manage growth as desired; leadership and staff capable of responding to opportunities and managing new challenges; or undertaking an all-hazards approach to disaster preparedness and response.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

Preparedness actions within the County are consistent with the Local Preparedness objective. Applicable best practices include: staff professional development, coordination with federal and state partners, all hazards strategy, and effective and reliable communications strategy.

5. Sense of Place

Protect and enhance the community's unique qualities. This may be achieved by maintaining the downtown as focal point of the community; fostering compact, walkable, mixed-use development; protecting and revitalizing historic areas of the community; encouraging new development that is compatible with the traditional features of the community; or protecting scenic and natural features that are important to defining the community's character.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

The downtown character of the main streets in the Cities of Hoboken and Nahunta is consistent with the Sense of Place objective. Applicable best practices include: protection of natural features such as the Satilla River, prioritizing growth in areas currently served by public infrastructure (infill development), environmental resource inventory, landscaping ordinance, and code enforcement.

6. Regional Cooperation

Cooperate with neighboring jurisdictions to address shared needs. This may be achieved by actively participating in regional organizations; identifying joint projects that will result in greater efficiency and less cost to the taxpayer; or developing collaborative solutions for regional issues such as protection of shared natural resources, development of the transportation network, or creation of a tourism plan.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

The amount and level of collaboration between the County, Cities, and the region is consistent with the Regional Cooperation objective. Applicable best practices include: service delivery strategy, regional roundtable, communication strategy, environmental resource inventory, regional economic development efforts, and joint economic development strategy.

7. Housing Options

Promote an adequate range of safe, affordable, inclusive, and resource-efficient housing in the community. This may be achieved by encouraging development of a variety of housing types, sizes, costs, and densities in each neighborhood; promoting programs to provide housing for residents of all socioeconomic backgrounds, including affordable mortgage finance options; instituting programs to address homelessness issues in the community; or coordinating with local economic development programs to ensure availability of adequate workforce housing in the community.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

The Housing goals and policies of this plan are consistent with the Housing Options objective. Applicable best practices include: Georgia Initiative for Community Housing (GICH), affordable housing, creative design for higher density, cottage zoning, cluster development, accessory housing units, and workforce housing.

8. Transportation Options

Address the transportation needs, challenges, and opportunities of all community residents. This may be achieved by fostering alternatives to transportation by automobile, including walking, cycling, and transit; employing traffic calming measures throughout the community; requiring adequate connectivity between adjoining developments; or coordinating transportation and land use decision-making within the community.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

Transportation goals, policies, and objectives are consistent with the Transportation Options objective. Applicable best practices include: safe routes to school, complete streets, scenic byway designation, sidewalk/trail network, right of way improvements, and access control measures and management.

9. Educational Opportunities

Make educational and training opportunities readily available to enable all community residents to improve their job skills, adapt to technological advances, manage their finances, or pursue life ambitions. This can be achieved by expanding and improving local educational institutions or programs; providing access to other institutions in the region; instituting programs to improve local graduation rates; expanding vocational education programs; or coordinating with local economic development programs to ensure an adequately trained and skilled workforce.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

Goals, policies, and objectives of this plan are consistent with the Educational Opportunities objective. Applicable best practices include: workforce training, inmate educational opportunities, and affordable internet access for education, employment, and health needs.

10. Community Health

Ensure that all community residents, regardless of age, ability, or income, have access to critical goods and services, safe and clean neighborhoods, and good work opportunities. This may be achieved by providing services to support the basic needs of disadvantaged residents, including the disabled; instituting programs to improve public safety; promoting programs that foster better health and fitness; or otherwise providing all residents the opportunity to improve their circumstances in life and to fully participate in the community.

Notes on Consistency with Brantley County and the Cities of Hoboken and Nahunta Comprehensive Plan

Goals, policies, and objectives are consistent with the Community Health objective. Applicable best practices include: access to public services, parks and recreation resources, and development of trails/outdoor activity amenities.

6. Community Policies

The following policies, numbered to align with the Community Goals, were developed in conjunction with all stakeholders and are intended to provide a qualitative guidance to address the Needs and Opportunities identified in this Plan, and to provide a framework for the development of the Community Work Program. The Community Work Program then addresses the Needs and Opportunities through specific projects, for each of which the participants, anticipated cost, and time frame are identified.

Development Patterns

Natural & Cultural Resources

Goal: Minimize impacts of development on natural and cultural resources.

Goal: Consider the impact of development to the functionality of the floodplain, and ensure that new development is protected from flooding.

Needs & Policies

The County and Cities do not have an ordinance to preserve historic homes and other historic sites.

Policy 1.1: Pursue opportunities to fund a countywide survey that will identify and record historic resources.

Policy 1.2: Encourage the development of a Historic Preservation Ordinance for the protection of locally designated historic properties.

Needs & Policies

Open spaces are not under long-term protection and/or do not have long-term plans for programming.

Policy 1.3: Encourage new development in suitable locations in order to protect natural resources.

Policy 1.4: Encourage more compact and efficient urban development and preservation of open spaces.

Policy 1.5: Ensure that the protection and conservation of the community's resources plays an important role in the decision-making process.

Policy 1.6: Pursue the establishment of bikeways and trails in and around the Satilla River area.

Policy 1.7: Encourage conservation easements to keep productive farmland in agricultural use.

There is a lack of conservation of resources and organized efforts to minimize waste, such as a recycling program.

Policy 1.8: Pursue the development of a recycling program.

Policy 1.9: Continue fiscally responsible operation of solid waste collection and disposal.

Policy 1.10: Encourage participation in annual Satilla River cleanup events.

Existing dirt roads adjacent to the Satilla River experience heavy flooding during rain events.

Policy 1.11: Encourage stewardship of the Satilla River and all natural resources within Brantley County through behavior change and outreach programs.

Economic Development

Goal: **Consider the impacts of development on the local economy, particularly the agricultural industry.**

Needs & Policies

There is a lack of employment opportunities.

- Policy 2.1:** Encourage economic development and redevelopment, to include the acquisition and development of land.
- Policy 2.2:** Encourage the development of the downtowns of the two cities as vibrant centers for culture, government, dining, residential use, and retail diversity.
- Policy 2.3:** Encourage adoption of landscaping guidelines to create a unified and pleasing visual environment.
- Policy 2.4:** Support programs for retention, expansion and creation of businesses that enhance the community's economic well-being.
- Policy 2.5:** Establish an atmosphere in which entrepreneurial enterprise is nurtured in the community.
- Policy 2.6:** Support and work with the Development Authority to attract new business and industry to the community.

There is a lack of name recognition; Brantley County and the Cities of Hoboken and Nahunta need to become better known outside of the local area in order to attract businesses and tourism.

- Policy 2.7:** Pursue a marketing campaign to increase name recognition of the community.
- Policy 2.8:** Encourage niche marketing of local artists and craftsmen.
- Policy 2.9:** Encourage promotion of sustainable local eco-tourism, canoeing (including the Satilla River Water Trail), hiking, nature trails, bird watching, hunting, fishing, swimming, and environmental education as viable economic opportunities.
- Policy 2.10:** Participate in the 121, 301, and Woodpecker Trail Associations to promote US 301 as a scenic and economic development highway.
- Policy 2.11:** Promote the Christmas Parade, Satilla Celebration, and Sacred Harp Singing Festival to generate tourism dollars.

Housing

Goal: Ensure that all residents within Brantley County have access to affordable housing.

Needs & Policies

There is a lack of special needs housing (for the elderly, handicapped, etc.).

- Policy 3.1:** Accommodate the community's diverse population by encouraging a harmonious mixture of housing types and uses.
- Policy 3.2:** Encourage developers to include affordable homes when building a particular number of market rate homes.

Policy 3.3: Promote availability of vacant and developable land available for multifamily housing.

Policy 3.4: Encourage housing policies, choices and patterns that move people upward on the housing ladder from dependence to independence.

Policy 3.5: Encourage creation of affordable housing opportunities to ensure that all those who work in the community have a viable choice or option to live in the community.

There is a lack of clean, safe affordable housing.

Policy 3.6: Ensure new affordable housing is built to quality standards.

There are code enforcement issues with existing housing.

Policy 3.7: Explore a collaborative effort between the county and the cities in regards to code enforcement.

Community Facilities and Services

Goal: **Consider the suitability of soils for septic systems and proposed development.**

Goal: **Ensure that future development is coordinated appropriately with water and sanitary sewer service areas.**

Goal: **Enhance the availability of energy sources, including natural gas to increase cost effectiveness for residents and business owners.**

Needs & Policies

The County and Cities face limitations in meeting the future demands of a growing population.

Policy 4.1: Promote strategies to ensure that new development does not cause a decline in locally adopted level of service for and that capital improvements or other strategies needed to accommodate the impacts of development are made or provided for concurrent with new development.

Policy 4.2: Maintain regulations for shared/combined septic and water systems for new residential, commercial, and industrial developments.

The County needs improvements in storm water management due to the great deal of flooding that occurs with heavy rains.

Policy 4.3: Pursue opportunities to conduct a sedimentation, erosion and storm water runoff survey and pursue the creation of a plan to address those issues.

There is a need for a community meeting facility that will also double as an Emergency Operations Center (EOP) and Joint Training Facility.

Policy 4.4: Pursue funding to construct a community meeting facility adequate to serve the community's needs.

Some dirt roads still lack adequate drainage because of problems created by erosion, sedimentation, and storm water runoff.

Policy 4.5: Continue to encourage paving or grading/stabilizing and best management practices for existing dirt roads.

Policy 4.6: Continue implementing the plan to address sedimentation, erosion and storm water runoff issues.

Natural gas service could be a more cost affordable energy source than options currently available.

Policy 4.7: Explore options for encouraging the expansion of a natural gas pipeline to Brantley County.

Land Use

Goal: **Understand and manage expectations for growth.**

Needs & Policies

Population growth is expected in upcoming years, which may present several issues for Brantley County's provision of services, environment, and quality of life.

Policy 5.1: Review population projections on a regular basis to ensure community leaders are aware of what levels of growth are expected.

Policy 5.2: Ensure that necessary services are provided concurrent with growth and are planned for in keeping with future growth.

Policy 5.3: Continually analyze the financial impact of new subdivision growth in Brantley County.

Intergovernmental Coordination

Goal: **Maintain communication between each jurisdiction and surrounding counties in an effort to better serve the residents of Brantley County.**

Needs & Policies

Improve communication and inclusion between government, agencies, authorities, business, and citizens in the crafting of and implementation of plans.

Policy 6.1: Encourage coordination between the County and Cities with regard to the development of plans.

Policy 6.2: Pursue joint processes for collaborative planning and decision-making.

Education

Goal: **Increase educational and recreational opportunities.**

Needs & Policies

Employer needs are not being met for employee training.

Policy 7.1: Strive for partnerships and alliances with other educational institutions serving Brantley County.

Policy 7.2: Strive for partnerships with local businesses and industries for increased career related student internships.

Workforce development needs to be prioritized – employers have a difficult time finding qualified personnel who will stay on the job.

Policy 7.3: Pursue expansion of educational opportunities.

Policy 7.4: Pursue partnerships with local community colleges and technical colleges to provide satellite classes and courses for community residents.

- Policy 7.5:** Explore methods to offer financial literacy programs within the school system and/or through public/private partnerships with local banks and/or financial planning companies.
- Policy 7.6:** Determine how to best be responsive to the demands of new employers.
- Policy 7.7** Perform a gap analysis to determine which education programs best meet the needs of employers.
- Policy 7.8** Explore the creation of an educational program to meet needs of employers.

Health

Goal: Ensure all community residents have access to critical goods, community services, and safe, clean neighborhoods.

Needs & Policies

The community needs a Critical Care Facility for stabilizing patients.

Policy 8.1: Encourage development of health care services that meet the current and future needs of the community.

There is a lack of recreational opportunities.

Policy 8.2: Encourage parks and community facilities to be located as focal points in neighborhoods.

Policy 8.3: Encourage increased investment in existing neighborhoods.

Policy 8.4: Continue to develop existing and new recreational facilities and community centers throughout the County and Cities. Aggressively pursue grant opportunities to support the creation of a new regional park.

Broadband Services

Goal: Maintain broadband infrastructure to support educational opportunities and economic development.

Needs & Policies

More affordable broadband access is needed throughout all of Brantley County and the Cities of Hoboken and Nahunta.

Policy 9.1: Enable public/private partnerships to reduce the cost of broadband service in Brantley County.

Transportation

Goal: Consider the impact of development to the transportation system as well as local transportation plans and projects. Provide a safe and efficient integrated multi-modal transportation system including Greenways, Bikeways, and Blueways addressing the future needs of Brantley County businesses, residents, and visitors.

Needs & Policies

There is a lack of local and state funding to support resurfacing and maintenance of local roads.

Policy 10.1: Pursue and lobby for additional funding to improve local roads, including CDBG and SPLOST funds.

Policy 10.2 Research and implement measures to develop multi-modal systems including bicycle and pedestrian safety initiatives.

There is a lack of state funds and maintenance on existing state roads.

Policy 10.3: Raise awareness of maintenance issues on existing state roads among local and State elected officials and staff.

Policy 10.4: Support the Transportation Infrastructure Act (TIA) which has enabled the regional TSPLOST.

There is a lack of a safe pedestrian, bicyclist, and golf cart transportation environment.

Policy 10.5: Promote safe, walkable neighborhoods.

Policy 10.6: Encourage neighborhoods to develop as interactive communities where people have easy access to schools, parks, residences and businesses through walkways, bike paths, roads and public transportation.

7. Community Work Program

Brantley County 5-Year Short-Term Work Program Update Report of Accomplishments
(2017 - 2021)

PROJECTS	STATUS	FY 17	FY 18	FY 19	FY 20	FY 21	COMMENTS
CULTURAL RESOURCES							
Develop a historic preservation ordinance for protection of locally designated historic properties	Ongoing				X		Expected completion FY26.
ECONOMIC DEVELOPMENT							
Acquire 200 – 300 acres of land for future construction of an Industrial Park	Ongoing	X	X				Expected completion FY26.
NATURAL RESOURCES							
Conduct a Natural Resource Conservation education program for citizens, developers and local officials	Ongoing		X	X			Expected completion FY26.
Develop a plan for preserving and marketing resources for eco-tourism	Ongoing		X	X			Expected completion FY26.
Purchase and improve land for Satilla River Recreational Facilities, including public restrooms, beach, and campsite	Cancelled			X	X	X	Decision was made to invest in upgrading boat ramps instead.
Enhance three existing public boat ramps along the Satilla River, with concrete repairs, picnic tables, and other improvements	Complete	X	X				

PROJECTS	STATUS	FY 17	FY 18	FY 19	FY 20	FY 21	COMMENTS
Construct 2 – 3 miles of bikeways and trails in and around the Satilla River area	Ongoing			X	X	X	Expected completion FY26.
Install signage, kiosk, and make maps available along the Satilla River Water Trail	Ongoing	X					Expected completion FY26.
LAND USE							
Develop land use development codes and/or zoning codes for the County and Cities	Complete	X	X	X			
COMMUNITY FACILITIES & SERVICES							
Expand and improve recreation facilities at the Nahunta, Schlatterville, and Waynesville parks, including 4 ballfields, gymnasium, walking track, playground equipment, dock, public restrooms, lighting, and paved driveways	Ongoing	X	X	X	X	X	Partially complete.
Construct a 1-mile walking trail at the Recreation Park	Ongoing			X	X		Expected completion FY26.
Pave approximately 22 miles of dirt roads, including CR 163, CR 63, CR 90, CR 92, CR 528, and CR 42	Ongoing	X	X	X	X	X	Partially complete.
Resurface approximately 15 miles of roads, including Caney Bay Rd., Riverside Rd., West Raybon Rd., Hwy 259, and Cumberland Rd.	Ongoing	X	X	X	X	X	Partially complete.
Replace Humpback Bridge	Ongoing		X				Expected completion FY26.

PROJECTS	STATUS	FY 17	FY 18	FY 19	FY 20	FY 21	COMMENTS
Purchase 5 dump trucks, 1 track hoe, 1 bulldozer, 6 motor graders, and fueling system upgrade	Complete	X	X	X	X	X	
Purchase 3 new ambulances, 3 stretchers, and 3 cardio units	Complete	X	X	X			
Construct 3 new fire stations	Ongoing		X	X	X		Partially complete.
Purchase 80 SCBA units for firefighters	Ongoing	X	X	X	X	X	Partially complete.
Purchase 80 air tanks for firefighters	Ongoing	X	X	X	X	X	Partially complete.
Purchase 80 turnout gear sets for firefighters	Ongoing	X	X	X	X	X	Partially complete.
Purchase 50-foot fire hose	Complete	X					
Purchase 2 cascade systems	Complete		X	X			
Purchase 1 brush truck for fire dept.	Complete	X					
Purchase 1 tanker/pumper for fire dept.	Complete		X				
Purchase 1 rescue truck for fire dept.	Complete			X			
Purchase 1 air truck/compressor	Complete				X		
Construct firefighter training facility	Ongoing			X	X		Expected completion FY26.
Purchase 20 new police cars	Ongoing	X	X	X	X	X	Expected completion FY26.
Renovate the Brantley County courthouse for improved accessibility and additional parking, and retrofit other existing public buildings to comply with the Americans with Disabilities Act	Ongoing			X			Expected completion FY26.

PROJECTS	STATUS	FY 17	FY 18	FY 19	FY 20	FY 21	COMMENTS
Renovate existing building to house the County Commissioners, County Tax Assessor, and Tax Commissioner offices	Ongoing		X	X			Expected completion FY26.
Install taxiways, fueling system, and restroom/terminal facilities at the County Airport	Ongoing			X	X		Expected completion FY26.
Construct new hangars at the County Airport	Ongoing		X	X	X		Expected completion FY26.

8. Economic Development Element

The 2018-2022 Comprehensive Economic Development Strategy (CEDS), as developed by the Southern Georgia Regional Commission under a grant from the US Department of Commerce Economic Development Administration, is hereby incorporated by reference into this Comprehensive Plan to serve as the Economic Development Element for Brantley County and the Cities of Hoboken, Nahunta.

The Southern Georgia Regional Commission's (SGRC) Comprehensive Economic Development Strategy (CEDS) was designed to bring together the public and private sectors in the creation of an economic roadmap to diversify and strengthen the regional economy. The SGRC CEDS analyzed the regional economy and serve as a guide for establishing regional goals and objectives, a regional plan of action, and investment priorities and funding sources.

As a performance-based plan, this CEDS plays a critical role in adapting to global economic conditions by fully utilizing the region's unique advantages to maximize the economic opportunity for its residents by attracting private investment that creates jobs. The SGRC CEDS is a regionally owned strategy that is the result of a continuing economic development planning process developed with the regional public- and private-sector participation. This plan sets forth the goals and objectives necessary to solve the economic development problems of the Southern Georgia region and clearly defines the measures of success.

The Southern Georgia CEDS gives an overview of the region, briefly describing the geography, population, economy, labor and workforce development and use, education, transportation access, environment, and regional resources. It reviews the state of the regional economy and provides a list of achievable Goals and Objectives for the region, a Plan of Action to ensure success, and Performance Measures used to evaluate the Southern Georgia Regional Commission's successful development and implementation of the 2018-2022 CEDS. Implementation of the goals identified in this plan is significant to the economic future of the SGRC District.

Policies, issues, and opportunities, and Short-term Work Program implementation strategies located in the current Comprehensive Plans for each jurisdiction in our 18-county region were used extensively to develop the CEDS Goals and Objectives, Vital Projects, and Problems and Opportunities.

Included below are goals and objectives from the CEDS which are aligned with the current economic development goals of Brantley County and the Cities of Hoboken and Nahunta.

Goal 1: Promote economic development strategies that encourage entrepreneurship, support existing industries, attract new employers, and stimulate tourism.

Strategy:

Coordinate economic development initiatives with a variety of economic development entities.

Objectives:

- Promote coordination among all economic development entities in the region.
- Promote coordination between the local governments and area businesses and agencies to identify ways to attract and retain more young, workforce age population to the region.

Goal 2: Protect, expand, and enhance critical infrastructure and connectivity for existing and future community growth.

Strategy:

Improve broadband access in rural communities.

Objectives:

- Identify locations where additional bandwidth is needed.
- Provide incentives for broadband; i.e. Electric Membership Cooperatives

Goal 3: Facilitate growth and development of an educated, skilled, prepared workforce by utilizing available programs and resources.

Strategy:

Create and maintain long-term, meaningful employment opportunities sufficient to establish a sound and balanced economic base in which average per capita income and employment levels are consistently comparable to those of the State and Nation.

Objectives:

- Encourage private/public partnerships between counties, cities, local businesses, and schools for the development of work programs and career education programs such as career academies for young adults.
- Support educational institutions to provide learning/skill development opportunities.

Goal 4: Create an inviting sense of place through rural renewal and other strategies in order to retain population and to attract new members to our community.

Strategy:

Facilitate vibrant, attractive communities.

Objectives:

- Create a welcoming, functional neighborhood with “work, play, live” atmospheres to invite younger families to the region.
- Encourage local governments to participate in CHIP, CDBG, and USDA housing programs.

9. Land Use Element

Background

Brantley County was created in 1920 from portions of Charlton, Pierce, and Wayne counties. The first county seat for Brantley County was located in Hoboken, incorporated in 1920. The City of Nahunta was founded around 1870 and was incorporated in 1925. The county seat was transferred from Hoboken to Nahunta in 1923.

State Highway Map, 1929

As can be seen on the above map of State Highways from 1929, Brantley County was and still is connected by roadway to Waycross and Brunswick. This map predates the construction of Interstate-95 (construction began in 1966 to the east in Camden County).

Character Areas

In keeping with State Minimum Planning Standards, every part of the Greater Brantley Community was delineated into specific Character Areas. Character areas are intended to serve as guidance for future land use and land development. Each of the following character area narratives was developed based on stakeholder input, existing land uses, anticipated development, planned infrastructure improvements and expansions, and guidance found in the *State Planning Recommendations*. As with the Plan in general, these character area descriptions and goals should not be considered final. As the community gains a greater understanding of the role and value of character areas, their descriptions should be fine-tuned. Additionally, as the community continues to grow, specific character area depictions may need adjusting.

Each Character Area narrative has a unique **Description** stating either the existing or desired qualities for that area. **Predominant Land Uses** are then described.

The listing of **Permitted Zonings** (for Brantley County only as the cities do not have zoning) provides guidance as to the type of land uses encouraged within each Character Area. While many of the differences between uses can be mitigated through site design and development standards, there are certain uses which are incompatible with surrounding uses and should not be permitted.

The stated **Development Strategy** should serve as a guide for all development and redevelopment taking place in the Character Area. Adherence to these development strategies will ensure consistent and complimentary development, which promotes a greater sense of place and overall improved quality of life.

As required by the State, the **Quality Community Objectives** demonstrate the unique ideals established for each Character Area (also see Section II, subsection 5 of this plan for descriptions of the Quality Community Objectives). While there is certainly a value to regional planning, planning on the neighborhood (or character area) level allows for greater implementation of specific objectives, which ultimately promotes an improved quality of life.

The **Implementation Measures** are the specific activities or programs which could take place within each of the Character Areas. While the suggested list of measures may or may not currently exist in Greater Brantley County, their implementation in appropriate areas would help achieve the established objectives and overall development strategy for each Character Area. In most cases, these measures should be considered joint efforts between the local government, development community, and citizens alike.

Character Area maps are provided in the Maps section prior to the Appendix.

Satilla River Character Area (Brantley County)

Description

The Satilla River offers Brantley County an opportunity to encourage economic growth through the preservation of natural resources, developing eco-tourism and recreation. Brantley County lies in the Satilla Watershed with a major portion of the county consisting of wetlands (16%) and lowlands with poorly drained soils, 5 significant groundwater recharge areas, and approximately 90 miles of river corridor. The Satilla River was nominated in 1992 as a Regionally Important Resource. Brantley County contains two Wildlife Management Areas. Science, natural disasters, and increasing demand for water have shown us that these valuable resources are vital to the community's wellbeing and must be conserved, restored, and increased in future planning. Currently this area is being impacted by residential development encroaching from Glynn County.

Predominant Land Uses

Sustainable eco-tourism, canoeing, hiking, nature trails, bird watching, hunting, fishing, swimming, and environmental education

Permitted Zoning:

- A-G Agricultural Use
- PD – Planned Development

Development Strategy

Protect water quality and preserve natural resources and habitat areas.

Quality Community Objectives:

- Resource Management
- Sense of Place
- Regional Cooperation

Implementation Measures:

- Encourage promotion of sustainable local eco-tourism, canoeing (including the Satilla River Water Trail), hiking, nature trails, bird watching, hunting, fishing, swimming, and environmental education as viable economic opportunities (Policy 2.9).
- Encourage new development in suitable locations in order to protect natural resources (Policy 1.3).

- Encourage participation in annual Satilla River cleanup events (Policy 1.10).

Residents of Brantley County donating their time to help keep the Satilla River pristine for all to enjoy.

Agriculture and Forestry Character Area (Brantley County, City of Hoboken, City of Nahunta)

Description

The Agricultural and Forestry Area will emphasize the rural lifestyle and offer an economic boost through the promotion of agri-tourism. Prime agricultural and forestland are located between the convergence of the Satilla and the Little Satilla Rivers, along the southern side of the Satilla River border with Pierce County, north and southeast of Hickox, and running parallel to the Satilla River at Lulaton. Part of the Waycross State Forest is located along the east-southeast border of Ware and Brantley Counties at Schlatterville. Most of this area is surrounded by timberland, although there is some residential development along the fringe areas of the forest. Sandy, poorly drained soils are well suited for timber, but the land has suffered from ditching, monoculture, pesticides, and loss of native hardwood trees.

Predominant Land Uses

Forestry, with some farmland

Permitted Zoning: *(in Brantley County only as the cities do not have zoning)*

- A-G Agricultural Use
- M-H-P Manufactured Housing Park
- PD – Planned Development

Development Strategy

Preserve farming and conservation options as vital components of the rural economy and quality of life for Brantley County.

Quality Community Objectives:

- Resource Management
- Sense of Place

Implementation Measures:

- Ensure that the protection and conservation of the community's resources plans an important role in the decision-making process (Policy 1.5).
- Encourage conservation easements to keep productive farmland in agricultural use (Policy 1.7).

Conservation Character Area (*Brantley County*)

Description

The Conservation Character Area is intended to identify those areas in Brantley County which exhibit unique or special environmental characteristics. These areas may be held either publicly or privately. The vision for the future of this character area is to protect natural habitats and other significant natural resources, such as pristine wetland habitat and wildlife, while utilizing the natural resources' attraction to visitors to build a sustainable economy based on eco-tourism.

Predominant Land Uses

Conservation – both passive and active, including private land and public park and/or preserve lands

Permitted Zoning:

- A-G Agricultural Use

Development Strategy

Preserve conservation options for the long-term recreational and natural habitat goals of the community.

Quality Community Objectives:

- Resource Management
- Efficient Land Use

Implementation Measures:

- Encourage more compact and efficient urban development and preservation of open spaces (Policy 1.4).
- Ensure that the protection and conservation of the community's resources plans an important role in the decision-making process (Policy 1.5).
- Pursue the establishment of bikeways and trails in and around the Satilla River area (Policy 1.6).

Residential Character Area (Brantley County, City of Hoboken, City of Nahunta)

Description

This character area contains the established residential areas of Brantley County and the Cities of Hoboken and Nahunta. These residential areas typically include single-family residential, with the density ranging from low to medium. The vision of the future of this character area is to preserve the rural and small-town character and lifestyle of residential areas while reinforcing the stability of neighborhoods, encouraging higher rates of homeownership, and encouraging a mix of uses that is mostly residential with some limited neighborhood amenities.

Predominant Land Uses

Residential with limited neighborhood amenities such as schools, churches, and minimal neighborhood serving commercial uses

Permitted Zoning: *(in Brantley County only as the cities do not have zoning)*

- R-R Rural Residential
- R-1 Single Family Residential
- R-22 Single Family Residential
- M-R Multiple Residential
- DR-22-M Residential
- B-R Business Retail
- PD – Planned Development

Development Strategy

Reinforce the stability of the neighborhoods through encouragement of homeownership and by supporting code enforcement efforts.

Quality Community Objectives:

- Sense of Place
- Efficient Land Use
- Housing Options

Implementation Measures:

- Accommodate the community's diverse population by encouraging a harmonious mixture of housing types and uses (Policy 3.1).
- Promote availability of vacant and developable land available for multifamily housing (Policy 3.3).
- Encourage housing policies, choices and patterns that move people upward on the housing ladder from dependence to independence (Policy 3.4).
- Encourage creation of affordable housing opportunities to ensure that all those who work in the community have a viable choice or option to live in the community (Policy 3.5).
- Ensure new affordable housing is built to quality standards (Policy 3.6).
- Explore a collaborative effort between the county and the cities in regards to code enforcement (Policy 3.7).

Developing Subdivisions in East Brantley County Character Area (*Brantley County*)

Description

Numerous subdivisions began developing in East Brantley County during the previous update of the comprehensive plan. Some of the lots have been developed, while others remain vacant. This area has an opportunity to contribute to the economy of the County. Local business owners and entrepreneurs may have the opportunity to locate specialty locally-owned restaurants and entertainment in this area. This would have the beneficial result in homeowners and residents spending money within Brantley County instead of neighboring areas.

Predominant Land Uses

Medium to large lot single family residential uses

Permitted Zoning:

- R-R Rural Residential
- PD – Planned Development

Development Strategy

Ensure that sufficient infrastructure is available in conjunction with development and minimize unintended consequences through proactive planning efforts.

Quality Community Objectives:

- Sense of Place
- Resource Management
- Housing Options

Implementation Measures:

- Accommodate the community's diverse population by encouraging a harmonious mixture of housing types and uses (Policy 3.1).
- Explore a collaborative effort between the county and the cities in regards to code enforcement (Policy 3.7).
- Ensure that necessary services are provided concurrent with growth and are planned for in keeping with future growth (Policy 5.2).

Major Highway Corridor Character Area (Cities of Hoboken and Nahunta)

Description

US Highways 82 and 301 intersect Brantley County. Development such as local specialty shops and restaurants along these major highways will encourage travelers to contribute to the local economy. Highway 82 runs the width of the county, as does the railroad. Buffers should be maintained on either side of the highway for wildlife, aesthetics, fly zones, safety, and erosion control. CSX Transportation operates an east-west railroad line parallel to US 82 that bisects the County and the Cities of Hoboken and Nahunta, as well as the communities of Lulaton, Atkinson, and Waynesville. CSX also operates a north-south railroad line parallel to US 301, which runs through the City of Nahunta and the Hortense and Hickox communities.

Predominant Land Uses

Mixed residential, commercial, and industrial uses.

Development Strategy

Enhance and uphold visual and property maintenance standards.

Quality Community Objectives:

- Sense of Place
- Resource Management
- Transportation Options
- Local Preparedness

Implementation Measures:

- Encourage economic development and redevelopment, to include the acquisition and development of land (Policy 2.1).
- Participate in the 121, 301, and Woodpecker Trail Associations to promote US 301 as a scenic and economic development highway (Policy 2.10).

- Encourage neighborhoods to develop as interactive communities where people have easy access to schools, parks, residences and businesses through walkways, bike paths, roads and public transportation (Policy 10.6).

Commercial Character Area (Brantley County)

Description

This character area consists of developing or developed commercial areas including office, retail, and service uses abutting major commercial corridors.

Predominant Land Uses

Developed or developing commercial uses.

Permitted Zoning:

- C-H - Commercial Highway
- B-R Business Retail
- PD – Planned Development

Development Strategy

Enhance and uphold visual and property maintenance standards.

Quality Community Objectives:

- Sense of Place
- Economic Prosperity
- Transportation Options
- Local Preparedness

Implementation Measures:

- Encourage economic development and redevelopment, to include the acquisition and development of land (Policy 2.1).
- Encourage neighborhoods to develop as interactive communities where people have easy access to schools, parks, residences and businesses through walkways, bike paths, roads and public transportation (Policy 10.6).

Brantley County Courthouse Character Area (City of Nahunta)

Description

This character area consists of the Brantley County Courthouse and the area directly surrounding it. The vision for the future is for this area to be used for the governmental functions of the County, while continuing to provide a convenient downtown location for residents to access governmental services.

Predominant Land Uses

Professional, government offices.

Development Strategy

Preserve the historical character of this small area while also enabling the property to serve the functions of local government, meeting resident's needs.

Quality Community Objectives:

- Sense of Place
- Local Preparedness

Implementation Measures:

- Encourage the development of the downtowns of the two cities as vibrant centers for culture, government, dining, residential use, and retail diversity (Policy 2.2).

Hoboken Downtown Character Area (City of Hoboken)

Description

Downtown Hoboken has vacant buildings, such as a convenience store. This building could be converted for uses such as a local specialty shop or office space. Such a property represents an opportunity not only for local entrepreneurs, but also for those relocating from outside the County. The Hoboken Downtown area, being located on Highway 82, has the potential to bring in large volumes of potential customers. Currently the downtown area consists of commercial, retail, and scattered residential. There are no zoning codes or land use development regulations in Hoboken to guide growth.

Predominant Land Uses

Commercial, Residential

Development Strategy

Enhance the economy and maintain the rural character of this small town setting.

Quality Community Objectives:

- Sense of Place
- Local Preparedness
- Efficient Land Use
- Transportation Options

Implementation Measures:

- Encourage the development of the downtowns of the two cities as vibrant centers for culture, government, dining, residential use, and retail diversity (Policy 2.2).
- Encourage adoption of landscaping guidelines to create a unified and pleasing visual environment (Policy 2.3).
- Support programs for retention, expansion and creation of businesses that enhance the community's economic well-being (Policy 2.4).
- Establish an atmosphere in which entrepreneurial enterprise is nurtured in the community (Policy 2.5).
- Encourage niche marketing of local artists and craftsmen (Policy 2.8).

Nahunta Downtown Character Area (City of Nahunta)

Description

This area contains the traditional downtown in the City of Nahunta and its historical buildings.

Predominant Land Uses

Commercial, Residential, City Services

Development Strategy

Maintain the rural Main Street character while enhancing retail options and maintaining historic buildings.

Quality Community Objectives:

- Sense of Place
- Local Preparedness
- Efficient Land Use
- Transportation Options

Implementation Measures:

- Encourage the development of the downtowns of the two cities as vibrant centers for culture, government, dining, residential use, and retail diversity (Policy 2.2).
- Encourage adoption of landscaping guidelines to create a unified and pleasing visual environment (Policy 2.3).
- Support programs for retention, expansion and creation of businesses that enhance the community's economic well-being (Policy 2.4).
- Establish an atmosphere in which entrepreneurial enterprise is nurtured in the community (Policy 2.5).
- Encourage niche marketing of local artists and craftsmen (Policy 2.8).

Brantley County Industrial Park Character Area (Brantley County and the City of Hoboken)

Description

The location and availability of land in the Brantley County Industrial Park offers the community a chance to recruit diverse industry. These industries will provide jobs to local citizens and will stimulate the local economy.

The Brantley County Industrial Park has access to the CSX rail line and is fronted by US 82. The Industrial Park is 1 mile east of US 301 and less than 2 miles from the County Airport. With its close proximity to major highways, access to a railway, and location within 25 miles of Interstate 95, future development should be attractive to many industries looking for sites.

Predominant Land Uses

Industrial uses including metal work, manufacturing, and warehousing.

Permitted Zoning: *(in Brantley County only as the City of Hoboken does not have zoning)*

- L-I Light Industrial
- PD – Planned Development

Development Strategy

Enhance the economic opportunity in the community while preserving natural areas for non-industrial uses.

Quality Community Objectives:

- Economic Prosperity

- Educational Opportunities
- Local Preparedness
- Regional Cooperation

Implementation Measures:

- Encourage new development in suitable locations in order to protect natural resources (Policy 1.3).
- Support programs for retention, expansion and creation of businesses that enhance the community's economic well-being (Policy 2.4).
- Establish an atmosphere in which entrepreneurial enterprise is nurtured in the community (Policy 2.5).
- Support and work with the Development Authority to attract new business and industry to the community (Policy 2.6).

Light Industrial Character Area (Brantley County)

Description

This area includes various industrial areas of lesser intensity within the County.

Predominant Land Uses

Industrial uses including light manufacturing and warehousing.

Permitted Zoning:

- L-I Light Industrial
- PD – Planned Development

Development Strategy

Provide an environment conducive to maintaining and attracting businesses to create quality jobs for the community. This includes the provision of up-to-date infrastructure, including broadband and natural gas, if feasible.

Quality Community Objectives:

- Economic Prosperity
- Local Preparedness

Implementation Measures:

- Encourage new development in suitable locations in order to protect natural resources (Policy 1.3).
- Support programs for retention, expansion and creation of businesses that enhance the community's economic well-being (Policy 2.4).
- Establish an atmosphere in which entrepreneurial enterprise is nurtured in the community (Policy 2.5).

SWOT Analysis Results

11/10/20

Strengths

- The County has a significant economic strength in the timber industry.
- There is an abundance of open space with areas that could be used for active or passive recreation.
- The City of Hoboken is well known for their Sacred Harp singing.
- The population appears to be increasing as land is less costly in Brantley County compared to surrounding counties.
- Code enforcement efforts have been ramping up which will result in safer living conditions for residents.
- There is a transportation option as MIDS is the third party rural transit provider.
- The County has adopted zoning.
- The County has sufficient broadband infrastructure that is considered to be very strong in comparison to neighboring jurisdictions.
- The County has made a significant financial investment in the airport.
- There is a small park adjacent to the Hoboken Elementary School and a walking track.
- The County and the Cities work together on elections, tax billing, collections, use of the community center, and for juries.
- The County and the Cities work together on grading of roads and procurement of rocks.

Weaknesses

- There are undocumented water supply wells; some are very shallow and are grandfathered in. Residents are not alerted to developments that could impact the quality of their water supply wells when there is no record that they exist.
- Water level – the County has a large proportion of land in wetlands. This impacts the ability to develop more housing for residents.
- There are code enforcement and safety issues with recreational vehicles and campers.
- As the County administers rural transit, there are administrative costs and staff time devoted to managing rural transit.

Opportunities

- If a natural gas pipeline could be added to the County, there would be an additional energy source that may be more affordable than existing sources.
- Recreational opportunities will be increased once the City of Nahunta completes a planned park project adjacent to City Hall.
- There are many open space areas including land that fronts rivers and/or wetlands that could be programmed or developed for passive or active recreational pursuits.
- Affordable housing is a need in the county.
- If rural transit is made regional, the County wouldn't have to spend time and money on administering transit.
- The County would like to further refine the commercial zoning districts into additional zoning designations.
- Use of the airport could be expanded if additional improvements are made.

Threats

- Certain uses of land (for example, landfills) have the risk of possibly polluting waterways and impairing air quality and drinking water supplies.
 - Educational options could be strengthened to encourage youth to stay in the County after graduating high school.
 - Population counts may be impacted due to the 2020 Census being performed during the Covid-19 pandemic; this could result in a reduction of resources being directed towards the County
-

RE: Comprehensive Plan Update Submittal

Brantley County has completed an update of its Comprehensive Plan and is submitting it with this letter for review by the Southern Georgia Regional Commission and the Department of Community Affairs.

I certify that we have held the required public hearings and have involved the public in development of the plan in a manner appropriate to our community's dynamics and resources. Evidence of this has been included with our submittal.

I certify that appropriate staff and decision-makers have reviewed both the Regional Water Plan(s) covering our area and the Rules for Environmental Planning Criteria (O.C.G.A. 12-2-8) and taken them into consideration in formulating our plan.

If you have any questions concerning our submittal, please contact Toby Harris, County Manager, at (912) 462-5256 or bccm@btconline.net.

Sincerely,

Chris Harris
