RESOLUTION ESTABLISHING A PROCESS TO RESOLVE INTER-GOVERNMENTAL LAND USE CLASSIFICATION DISPUTES PURSUANT TO PROPERTY ANNEXATIONS AND LAND USE PLANS

19.11

Whereas, Evans County, by and through its Board of Commissioners, and the Cities of Claxton, Hagan, Bellville and Daisy, by and through its Mayors and Councils, have found it necessary, desirable and in the public interest to establish a formal process to resolve land use disputes as the same relate to property annexations and land use plans after annexation; and

Whereas, the governing bodies of said county and cities have jointly developed a cooperative plan to resolve said issues;

Now Therefore, Be It Resolved, and it hereby is, that Evans County, City of Claxton, City of Hagan, City of Bellville and City of Daisy do hereby agree and resolve as follows:

<u>Section 1</u>. Effective immediately upon the adoption of this Resolution by the respective governments, the following process for resolving land use disputes shall be implemented:

1. Prior to initiating any formal annexation activities, the annexing city will notify the county of a proposed annexation and shall provide information as to location of property, size of area, and the proposed land use or zoning classification for said property.

2 Within 30 days following receipt of the above information, the county will forward to the city a statement either (a) indicating that the county has no objection to the proposed land use for the property; or (b) describing its bona fide objections which it has to the proposed land use classification, and provide supporting evidence, including listing any possible stipulations or conditions that would alleviate any objections which the county may have to said proposed land use classification.

3. If the county has no objection to the city's proposed land use or zoning classification, the city shall be free to proceed with the annexation. If the county fails to respond to the city's notice in writing within the deadline, the city is free to proceed with the annexation and the county loses its right to invoke the dispute resolution process, or object to the land use changes after the annexation.

4. If the county notifies the city that it has a bona fide objection to the proposed land use classification, the city will respond to the county in writing within 30 days of receiving the county's objections by either: (a) agreeing to implement the county's stipulations and conditions and thereby resolve the county's objections; (b) agreeing with the county and stopping action on the proposed annexation; (c) disagreeing that the county's objections are bona fide, the city will initiate a joint meeting of the respective governments to resolve the issues. 5. If the city initiates mediation, the city and county will agree on a mediator, a mediation schedule and each shall determine the participants to be involved in the mediation. The city and county shall share equally any costs associated with the mediation.

6. No annexation proposal shall be effective until any bona fide land use classification objections raised by the county are resolved pursuant to the dispute resolution process.

7. The final resolution of any recommendation of a land use classification will be accorded to the governing body considering the annexation. In cases of land use disputes not related to annexation proposals, the final resolution of a land use dispute will be accorded to the jurisdiction in which the subject property is located. Notwithstanding this Resolution, a government may seek a declaratory judgment in a court of proper jurisdiction pursuant to a land use decision.

<u>Section 2</u>. All ordinances and resolutions in conflict herewith are hereby repealed.
