FRANKLIN COUNTY, CANON, CARNESVILLE, FRANKLIN SPRINGS, LAVONIA, MARTIN AND ROYSTON FIRE PROTECTION SERVICE DELIVERY STRATEGY

Fire protection is conducted and funded by Franklin County in the unincorporated area of this community. All cities except Martin fund and operate a fire protection component. The Franklin County Fireman's Association maintains and regularly updates a Fire Service District Map, delineating the parts of the county for which each station is primarily responsible. The Fire Service District Map will serve as the map for allocating fire protection services as required with this Service Delivery Agreement, and may be updated as needed by the Association. The county pays a yearly pro-rata fee to each municipality for providing fire protection to county residents outside their corporate boundaries.

Whenever a serious emergency arises regarding a fire or other emergency circumstance, the fire departments will support and cooperate with one another to reduce the danger and bring the critical circumstance to a successful resolution.

The delivery of fire protection services within Franklin County, as they are currently being implemented, is effective and efficient and does not result in any duplication or overlapping of services. It is the interest of the elected officials of the Franklin County community to continue the existing fire protection service delivery until such time as the participants shall agree upon an enhanced service delivery.

FRANKLIN COUNTY, CANON, CARNESVILLE, FRANKLIN SPRINGS, LAVONIA, MARTIN AND ROYSTON JAIL SERVICE DELIVERY STRATEGY

Frank County operates, maintains and funds out of its general fund, the Franklin County Jail facility. The cities of Royston and Lavonia maintain temporary holding cell facilities. Prisoner confinement within the city detention facilities is usually no more than several hours before they are transported to the County Jail. Fach municipality pays, under contract, a daily fee to house their prisoners in the county jail. The county facility holds prisoners from all over the county and will typically hold prisoners who have been sentenced to state institutions.

The delivery of jails services within Franklin County, as they are currently being implemented, is effective and efficient and does not result in any duplication or overlapping of services. It is the interest of the elected officials of the Franklin County community to continue the existing jail service delivery until such time as the participants shall agree upon an enhanced service delivery.

FRANKLIN COUNTY, CANON, CARNESVILLE, FRANKLIN SPRINGS, LAVONIA, MARTIN AND ROYSTON LIBRARY SERVICES SERVICE DELIVERY STRATEGY

Library Services within Franklin County are currently provided by two facilities, the Lavonia Library and the Royston Library. These facilities are operated by the Athens Regional Library System with funds provided by Franklin County and the cities of Lavonia, Canon, Franklin Springs, Carnesville and Royston.

The delivery of library services within Franklin County, as they are being implemented, is effective and does not result in any duplication or overlapping of services. There is the recognition, however, that the projected growth throughout the county may increase demand for expansions of existing facilities or an additional facility within Franklin County. Preliminary discussions have noted that potential exists to introduce a new library within the county outside of Royston and Lavonia. Thus, at a minimum it is the interest of the elected officials of the Franklin County community to continue the existing level of library service delivery while continuing to explore options for expanding services within existing facilities or through an additional library.

FRANKLIN COUNTY, CANON, CARNESVILLE, FRANKLIN SPRINGS, LAVONIA, MARTIN AND ROYSTON PUBLIC WORKS SERVICE DELIVERY STRATEGY

Franklin County conducts and funds all public works activities which take place in the unincorporated areas of Franklin County. The municipalities of the county operate and fund their own public works components. The various departments are encouraged to, and actively do, cooperate with one another, the typically providing assistance as needed or requested.

Road maintenance and construction will continue to be managed through the Joint Road Maintenance/Construction strategy. The county will construct and maintain all roadways in the unincorporated area and, on occasion, when requested and when sufficient county road funds are available, provide similar activities to the incorporated municipalities within the county. Each municipality will administer and finance its respective road construction and maintenance program. The possibility exists for future consideration for consolidation of this service. The cities have finalized discussions with Franklin County on an amount of SPLOST funds to be dedicated to city road activities. Where possible, the governments also agree to explore and consider cooperative projects between jurisdictions.

The delivery of public works services within Franklin County, as they are currently being implemented, is effective and efficient and does not result in any duplication or overlapping of services. It is the interest of the elected officials of the Franklin County community to continue the existing public works service delivery until such time as the participants shall agree upon an enhanced service delivery.

FRANKLIN COUNTY, CANON, CARNESVILLE, FRANKLIN SPRINGS, LAVONIA, MARTIN AND ROYSTON RECREATION SERVICE DELIVERY STRATEGY

The Franklin County government operates a county-wide recreation department that provides programs and facilities to all residents of Franklin County. This is funded exclusively with county tax funds.

Each municipality provides additional parks and recreation facilities as needed, and all governments have agreed to work with each other to maximize the access to recreation facilities throughout the county.

The delivery of recreation services within Franklin County, as they are currently being implemented, is effective and efficient and does not result in any duplication or overlapping of services. However, as the county experiences growth it is recognized that there may be need for additional facilities throughout the county. Thus, at a minimum it is the interest of the elected officials of the Franklin County community to continue the existing level of recreation service delivery while continuing to explore options for expanding services within existing facilities or through additional facilities.

FRANKLIN COUNTY, CANON, CARNESVILLE, FRANKLIN SPRINGS, LAVONIA, MARTIN AND ROYSTON SEWER SERVICE SERVICE DELIVERY STRATEGY

The Cities of Canon and Martin do not have their own sewer systems and will contract with outside parties for any sewer service to be provided within their city limits. The Cities of Carnesville, Franklin Springs, Lavonia, and Royston provide sewage collection and treatment within their city limits and in identified areas in unincorporated parts of the county in accordance with the service delivery map. The remainder of the unincorporated county is to be provided sewer service by Franklin County or a designee thereof.

Service areas are based primarily on system distribution along roadways and along topographic conditions. The service area map will be the primary guide for delineating sewer service, with the condition that exact boundaries may be adjusted for purposes of topography and maximization of slopes to provide gravity flow of collected wastewater. Further, the governments are willing and permitted to cooperate and pursue adjustments to these boundaries via direct contracts with one another as needed.

The delivery of sower services within Frankfin County, as they are currently being implemented, is effective and efficient and does not result in any duplication or overlapping of services. It is the interest of the elected officials of the Frankfin County community to continue the existing sewer service delivery until such time as the participants shall agree upon an enhanced service delivery.
