1. What incompatibilities or conflicts between the land use plans of local governments were identified in the process of developing the service delivery strategy?

All local governments worked on a Joint Comprehensive Plan in conjunction with the Service Delivery Strategy. This process of working together helped eliminate conflicts and incompatibilities in our land use plans.

2. Check the boxes indicating how these incompatibilities or conflicts were addressed:

- Amendments to existing comprehensive plans
- Adoption of a joint comprehensive plan
- Other measures (amend zoning ordinances, add environmental regulations, etc.)

If "other measures" was checked, describe these measures:
 Describe "Other" Measures Here

NOTE:
 If the necessary plan amendments, regulations, ordinances, etc. have not yet been formally adopted, indicate when each of the affected local governments will adopt them.

3. What policies, procedures and/or processes have been established by local governments (and water and sewer authorities) to ensure that new extraterritorial water and sewer service will be consistent with all applicable land use plans and ordinances? The Meriwether County Water and Sewer Authority is currently developing a water and sewer masterplan that will outline the planned growth of water and sewer services into areas of unincorporated Meriwether County, currently not being served. This masterplan will be consistent with our approved Joint Comprehensive Plan, and will support planned expansion of water and sewer services into unincorporated Meriwether County and planned industrial areas. The Joint Comprehensive Plan was developed in conjunction with all of the Municipalities and Meriwether County Water and Sewer Authority to ensure consistency in zoning, planning, and delivery of services. The Cities do not have plans to expand water and sewer services beyond their existing service area at this time, but do plan to sell available excess water capacities to the Meriwether County Water and Sewer Authority for expansion into unserved areas of unincorporated Meriwether County. In no event will any of the Cities expand services beyond the current service areas until adoption of the Water and Sewer Masterplan.
