**June 2021**

**Prepared by:**

Located in the northeast corner of Georgia, White County is heavily influenced by the rugged, steeply sloping topography. The most rugged areas of the County are generally located in the northern half of the county, with steep slopes interspersed with small rough surfaced plateaus and narrow winding valleys. The southern half of White County is composed of rolling ridgetops with deeply incised stream valleys and is interspersed with isolated plateaus. Developed areas are projected to experience continued growth and investment over the next two decades. To meet their future needs, the County and the communities of Cleveland and Helen have coordinated the efforts of citizens, elected officials, professional leaders, property owners, and major employers to create visions for their communities and a strategy to make them a reality.

This document, the White County Joint Comprehensive Plan 2021, is the result of that process. The document allows everyone to see the various objectives outlined for White County and its municipalities and understand how each of the stakeholders will work together to realize those objectives and build better, stronger communities.

### **A. Purpose & Scope**

The purpose of the Comprehensive Plan (“Plan”) is to lay out a road map for the community’s future, developed through a very public process of involving community leaders and stakeholders in making key decisions about the future of the community. The Plan includes the community’s vision for the future, key issues, and opportunities it chooses to address during the planning period, and its implementation program for achieving this vision and addressing the identified issues and opportunities. The Plan is intended to generate local pride and enthusiasm about the future of the community, thereby making citizens wish to ensure that the plan is implemented.

This Plan is multi-jurisdictional and represents the land use and community development planning for White County and the municipalities of Cleveland and Helen, to serve for the planning period 2021 through 2026. Some consideration has also been given to neighboring areas and political entities that influence conditions within the county but unless otherwise indicated all the issues, objectives and opportunities discussed herein are effective solely for White County.

### **B. Required Components**

*Material for the Required Components has been taken from the appropriate sections of Georgia Department of Community Affairs’ “Standards and Procedures for Local Comprehensive Planning.”*

This comprehensive plan serves to meet the requirements and intent of the Georgia Department of Community Affairs' *Minimum Standards and Procedures for Local Comprehensive Planning*," as updated on October 1, 2018, and the Georgia Planning Act of 1989. It is essential that the plan be prepared in compliance with these rules and guidelines for White County and the municipalities of Cleveland and Helen to maintain their Qualified Local Government (QLG) status. Further, State law requires that a government update its comprehensive plan every 5 years.

*"The purpose of Minimum Standards is to provide a framework for the development, management and implementation of local comprehensive plans at the local, regional and state government level. They reflect an important state interest: healthy and economically vibrant cities and counties are vital to the state's economic prosperity."*

**(1) Community Goals.** *The purpose of the Community Goals element is to lay out a road map for the community's future, developed through a very public process of involving community leaders and stakeholders in making key decisions about the future of the community. The Community Goals are the most important part of the plan, for they identify the community's direction for the future, and are intended to generate local pride and enthusiasm about the future of the community, thereby leading citizens, and leadership to act to ensure that the plan is implemented.*

**(2) Needs and Opportunities.** *This is the locally agreed upon list of Needs and Opportunities the community intends to address. Each of the needs or opportunities that the community identifies as high priority must be followed-up with corresponding implementation measures in the Community Work Program. The list must be developed by involving community stakeholders in carrying out a SWOT (strengths, weaknesses, opportunities, threats) or similar analysis of the community.*

**(3) Community Work Program.** *This element of the comprehensive plan lays out the specific activities the community plans to undertake during the next five years to address the priority Needs and Opportunities, identified Target Areas (if applicable), or to achieve portions of the Community Goals. This includes any activities, initiatives, programs, ordinances, administrative systems (such as site plan review, design review, etc.) to be put in place to implement the plan.*

In addition to the required core elements local comprehensive plans in Georgia must also include the following:

**An assessment of Community Broadband Technology Capacity.** *The purpose of the broadband assessment is to facilitate the "promotion of the deployment of broadband internet services" throughout each community in recognition of how vital this technology is for economic development. To provide advance compliance with this standard the County and municipalities will provide a brief analysis of their needs and objectives regarding broadband technology.*

**Consideration of the Regional Water Plan and the Environmental Planning Criteria.** *During the process of preparing its comprehensive plan, each community must review the Regional Water Plan(s) covering its area and the Rules for Environmental Planning Criteria... to determine if there is need to adapt local implementation practices or development regulations to address protection of these important natural resources. The*

*community must certify that it has considered both the Regional Water Plan and the Rules for Environmental Planning Criteria when it transmits the plan to the Regional Commission for review.*

This is to certify that as part of this planning process appropriate staff and decision-makers have reviewed the *Coosa-North Georgia Water Plan*, the *Georgie Mountains Regional Plan*, and the *Georgia State Rules for Environmental Planning Criteria* (O.C.G.A. 12-2-8) and taken them into consideration in formulating this local plan. No conflicts were identified between this document and the other documents

As a community that has adopted a form of development regulations the county and cities must also include the necessary land use element within their plan to aid in the coordination of their development policies and capital improvement projects.

***Land Use Element.*** *The Land Use Element, where required, must include at least one of the two components listed below:*

*(a) Character Areas Map and Defining Narrative. Identify and map the boundaries of existing or potential character areas (see definition in Chapter 110-12-1-.05) covering the entire community, including existing community sub-areas, districts, or neighborhoods.*

*(b) Future Land Use Map and Narrative. Prepare a Future Land Use Map that uses conventional categories or classifications to depict the location (typically parcel by parcel) of specific future land uses. If this option is chosen, prepare the Future Land Use Map using either of the land use classification schemes described below and include a narrative that explains how to interpret the map and each land use category.*

The comprehensive plan was prepared in accordance with minimum procedural requirements for local plans, which include a public hearing prior to substantive work on the plan, and a public hearing prior to transmittal of the comprehensive plan for review by Georgia Mountains Regional Commission (GMRC) and Georgia Department of Community Affairs (DCA).

### **C. Public Participation**

As a part of the planning process each local government must provide and implement opportunities to encourage public participation during the preparation of the comprehensive plan. The purpose of this is to ensure that citizens and other stakeholders are aware of the planning process, are provided opportunities to comment on the local plan elements and have adequate access to the process of defining the community's vision, values, priorities, goals, policies, and implementation strategies. At a minimum, the public participation program must provide for: adequate notice to keep the public informed of the emerging plan; opportunities for the public to provide written comments on the plan; hold the required public hearings; and provide notice to property owners through advertisements in the newspaper (legal organ) of the planning effort soliciting participation and comments. In addition, each must provide opportunities for public participation through other means and methods to help articulate a community vision and develop associated goals, policies, and implementation strategies.

White County, the City of Helen and City of Cleveland collaborated to form a stakeholders' advisory committee for the update of the Joint Comprehensive Plan. The group was made up of community leaders from the business, education, and government segments as well as geographically across the county.

Members of the committee included:

**Jason Cobb**, White County Manager; **John Sell**, White County Community and Economic Development Director; **Tom O'Bryant**, Cleveland City Administrator; **Jerry Elkins**, Helen City Manager; **Laurie Burkett**, Superintendent White County Schools; **Beth Truelove**, President White County Chamber of Commerce; **Jerry Brown**, Director of White County/Alpine Helen Convention and Visitors' Bureau; **Patrick Brennan**, Executive Director, Sautee Nacoochee Community Center; **John Yarbrough**, White County Planning Commission member and Truitt McConnell University representative; **Ward Gann**, Cleveland Business Owner; **Don Allison**, White County Development Authority member and local banker; **John Ziemer**, White County Water Authority and Development Authority member; **Rebecca Yardley**, City of Cleveland Council Member. **Joe Rothwell**, Georgia Mountain Regional Commission was the facilitator for the advisory committee.

The committee met on Jan. 26, 2021; March 23, 2021; April 13, 2021; May 4, 2021; and attended the public hearing on May 11, 2021. The February meeting was cancelled for COVID-19 precautions. Agendas and sign in sheets for each meeting are in Appendix D.

## How should our county grow?

Community survey seeks input on planning, priorities

by Wayne Hardy  
White County News

Do you have thoughts on the county's direction over the next couple of decades? White County, Cleveland and Helen officials want to hear it.

The community is being asked for feedback that could shape an ongoing update the county's joint comprehensive plan, which serves as a guide for projects and planning. A new public survey available online asks for input on future growth and assessing current needs.

They survey can be accessed directly at [www.surveymonkey.com/t/WhiteCountyCleveland-Helen](http://www.surveymonkey.com/t/WhiteCountyCleveland-Helen), downloaded from [whitecounty.net](http://whitecounty.net) or by scanning the QR code at right.

"It's a way to get public comment quickly ... and get feedback from residents in White County about what they like to see for future of White County," said John Sell, the county's community and economic development director.

Local governments and community representatives have been working on the state-mandate review and update of the joint comprehensive plan, which cover short-term and long-term goals related to issues such as infrastructure, schools, capital projects, roads, parks and recreation and more. Sell said having projects clearly outlined in the county's written plans can also be beneficial when applying for grants to fund improvements.

Scan the above QR code to take the survey, or access it at [whitecounty.net](http://whitecounty.net).

### FUTURE

from Page 1A

The survey will be open for a couple of months. Public hearings for additional comment are planned for later in the spring, with details to be announced, Sell said. The 2021 joint update will need to be submitted by June.

Among those advising officials on the update include representatives from the White County School System, Chamber of Commerce, local governments, Georgia Mountains Regional Commission, as well as others involved in community planning, development, tourism and cultural aspects.

The committee supported putting out a community survey on Survey Monkey. The survey was released on March 4, 2021. It was posted on the website of the county and both cities and the county's Facebook page. Additionally, it was on the websites of the Chamber of Commerce, Sautee Nacoochee Community Center, White County Library, WRWH Radio and the White County News. News and editorial articles were run in the White County News on March 11. John Sell appeared on local news programming for WRWH and spoke to the White County Rotary Club. The survey remained open through the end of May and had more than **493 participants provided feedback by the closure of the survey comment period on 5/28.**

The committee also held a public meeting on May 11 at the Board of Commissioners offices and had 22 people in attendance. Everyone was given an opportunity to provide comments. Minutes from the public meeting as well as the survey results are in Appendix D and F.

## Feedback sought at May 11 public hearing on comprehensive plan

Staff Report

Residents will have another chance to offer their input on planning for the community.

The White County government and cities of Cleveland and Helen will host a public hearing on the proposed Joint Comprehensive Plan on Tuesday, May 11, at 10 a.m. in the White County Board of Commissioners meeting room (1235 Helen Highway in

Cleveland). The upcoming public hearing is intended for residents to share their thoughts on the future of the county and cities.

Local governments and community representatives have been working on the state-mandate review and update of the joint comprehensive plan, which cover short-term and long-term goals related to issues such as infrastructure, schools, capital projects, roads, parks and recreation and

more.

A public survey for the comprehensive plan continues to be available directly at [www.surveymonkey.com/r/WhiteCountyClevelandHelen](http://www.surveymonkey.com/r/WhiteCountyClevelandHelen) or by visiting government websites: [www.whitecounty.net](http://www.whitecounty.net), [www.cityofclevelandga.org](http://www.cityofclevelandga.org) and [www.cityofhelen.org](http://www.cityofhelen.org).

Those with questions may contact county Community and Economic Development Director John Sell at 706-865-6867.

## Comprehensive plan survey

The Comprehensive or "growth management" plan determines how we as a community move forward with economic development over the next 10 years.

Are there things that you would like to see changed in our community? If so, make sure that you complete the survey at <https://www.surveymonkey.com/r/WhiteCountyClevelandHelen> or by scanning the QR Code above.

The current Comprehensive plans for each city within White County can be viewed at

<https://www.dca.ga.gov/node/3174>.

We invite you to attend the next comprehensive plan meeting to address any concerns or questions that you may have. The next comprehensive plan meeting is scheduled for 10AM, May 11 at the White County Board of Commissioners Office.

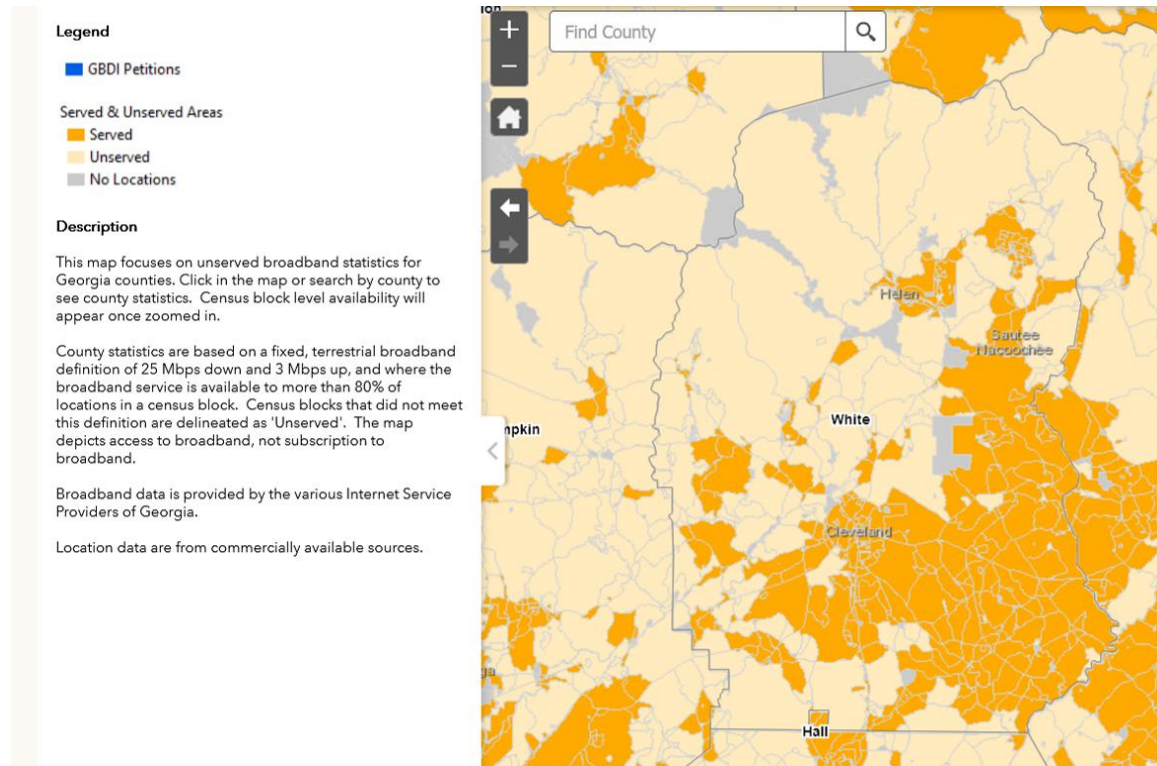

### A. Broadband

The growing importance of access to reliable and high-speed, high-capacity internet connections cannot be overestimated. Unserved and underserved areas of Georgia will not remain economically competitive without sufficient internet infrastructure, as this technology becomes the default utility for all manners of communication. To address this issue the Georgia General Assembly amended the provisions of local planning in Georgia by passing the "*Achieving Connectivity Everywhere (ACE) Act*" to facilitate the enhancement and extension of internet access in communities. The State will add future support programs and initiatives aimed at delivering the community improvement that reliable, high-speed internet access can provide to even the most difficult-to-serve citizens, schools, and businesses.

Achieving these goals at the local level begins with communities pursuing the *Broadband Ready Community Designation*, demonstrating that they have taken steps to reduce obstacles to broadband infrastructure investment by incorporating a broadband assessment into their comprehensive plan and has adopted a model ordinance. Here the ACE Act requires all local governments to incorporate the "*promotion of the deployment of broadband internet services*" into their local plan. Once these are in place the Georgia Department of Community Affairs and the Department of Economic Development will identify and promote facilities and developments that offer broadband services at a rate of not less than 1 gigabit per second in the downstream to end users that can be accessed for business, education, health care, government.

One of the first products to come out of the Georgia Broadband Initiative was an inventory of general conditions across the State regarding access to high speed/ high-capacity broadband technology. Utilizing demographic data from the US Census Bureau and cross-referencing that information with knowledge of broadband infrastructure, the Department of Community Affairs produced a series of maps depicting the state of broadband accessibility in rural areas. (See *map below*).

White County:  
Unserved Locations: 3,254  
Served Locations: 13,151  
Percent Unserved: 20

White County rates well in that they do have access to the North Georgia Network (NGN), an incorporated cooperative providing a regional fiber optic system with over 1,600 linear miles of infrastructure. The NGN was conceived as part of visions for a more prosperous rural Georgia, with the knowledge that a fiber optic network that is fast, reliable, and affordable is vital to modern economic development. The NGN provides infrastructure that loops through the northeast Georgia mountains with 100 gigabit core line and connects to almost all the schools and colleges in the region as well as reaching many government structures and prominent business parks.

**Priorities for Future Network Enhancements**

- Ability to increase “last-mile” connections
- Higher-capacity trunk lines westward from NGN
- Expansion of NGN

As an additional reference White County were included in the 2014 Georgia Mountains Digital Economy Plan (DEP), one of several such plans developed for each region across Georgia in accordance with standards defined by the Georgia Technology Authority (GTA). The DEP was designed to identify and coordinate the resources and efforts related to improving the region’s infrastructure in support of hi-tech industries and economies. As each regional plan is completed, the State and its partners can begin

directing their energy and resources with clearer focus and understanding of needs from every part of Georgia. While specific investment actions have not been identified as part of this initial process, the DEP provides a work scope that addresses key focus areas and recommendations that will help the GMRC, its member governments and regional stakeholders move forward with an understanding of the regional and state context for building network connectivity, improving educational resources and fostering technology hubs. With continued coordination and monitoring of progress, it is hoped these efforts will make the region a more effective and efficient place enabling all manners of business to realize their potential in accessing and utilizing electronic data.

**SWOC Assessment – GMRC Digital Economy Plan**

	<b>Strengths</b>	<b>Weaknesses</b>	<b>Opportunities</b>	<b>Challenges</b>
<b>Workforce/ Education</b>	Higher Educational Institutions – University of North Georgia, Brenau, North Georgia Technical School, Lanier Technical School,	Limited existing hi-tech labor force	Economic and demographic growth of metro Atlanta	Attraction/ Retention of top technology talent
	Faster Business Start-up Time	Low family income	Job fairs held within the region by GMRC Workforce Development	Competition from other metro areas
	Dawson GigCenter – Business start-ups			
	GMRC Workforce Development			
Strong Development Authorities and Chamber offices to assist start-up businesses and industries				
<b>Infrastructure</b>	Cooperative EMC's that deliver good products	System Redundancy. Residents and Businesses need more choices for internet service.	Tourism/outdoor recreation related industry	Topographically the GMRC Region is difficult to traverse for aerial line installation
	North Georgia Network	Cost prohibitive		
	Access to metro Atlanta	Geographic isolation		
	Ga 400 – Technology Corridor			
	Residents ability to telecommute			
<b>Local Government</b>	GMRC fostering cooperation	Limited funding resources	Educating local government on importance of broadband access	Finding Grant funds for broadband projects
	Quality Development Authorities and Joint Development Authorities	State needs to put more emphasis on education		Need a better way to communicate to State Legislators what is going on in the GMRC Region regarding broadband needs, initiatives and projects
<p><b>Goal:</b> <i>Ensure new telecommunication networks for needed accessibility and reliability to support the growth of the regional economy.</i></p> <p><b>Strategy:</b> <i>Prepare to meet industry and business telecommunication needs by assisting with fiber optic network development. The purpose of this strategy is to support, develop, and provide educational opportunities regarding telecommunication systems in the region.</i></p> <p><b>Strategy:</b> <i>Promote and support the use of health information technology (IT). ## **B. Environment**

The following is provided as a simplified assessment of critical environmental conditions in effect throughout White County. The locations for any identified conditions can be found on the correlating map.

### **Clean Water Act Compliance**

<b>None</b>	Any “not supporting” 303(d) listed waterbodies? If yes, these waterbodies have been found contaminated to the extent that they are not considered supporting their designated use. As such the local community should seek to manage land uses within the watershed so as to yield healthier water quality.
<b>None</b>	Any 305(b) listed waterbodies? If yes, do the Implementation Plans/Watershed Management Plans require any outstanding actions from the local government? If so, please include these actions within the Implementation Program.

## **C. Land Use and Development Trends**

### **Analysis of Areas Requiring Special Attention**

As part of this process communities should consider their current and immediately projected conditions and assess the identified needs and issues regarding the built landscape and community services for the area.

#### 1.) Areas of significant natural or cultural resources in need of attention

- Cleveland has made streetscape improvements in the past to aid the downtown revitalization effort, the next stage will be assisting property owner’s efforts to restore and preserve select structures and introducing additional commercial space where possible. (See *Historic Downtown District character area*)
- The county’s state parks, and historic sites could benefit from trail and greenway development. Plans are being considered on how best to incorporate pedestrian access to these areas that would feature additional access points. Any regional bicycle and

pedestrian connectivity plan that promotes the area further for eco-tourism would be a great catalyst for this effort in the county. There is also a need for protection measures to be developed and implemented for historic sites, areas, and resources. (See *Agriculture/Forestry character area*)

- The county does feature numerous State Parks and US Forest Service land that receive protection through State and federal management, with support from the local governments, as well. Establishment and enforcement of the State's minimum environmental protection standards would further this effort. (See *Agriculture/Forestry character area*)

## 2.) Areas where rapid development or change of land uses is likely to occur

- Innsbruck Golf Club will require development guidelines to determine the best course of action on managing and promoting available development options while maintaining the current gated community's character and sense of place as a golf course community that is also open to the public. (See *Second Home Residential/Short-Term Rentals character area*)
- The US 129 corridor is the most developed and progressive part of White County, particularly the southern section below Cleveland where the scenic parkway has been in development to connect with Georgia SR 115. Depending on market demands this has the possibility of bringing new residential and commercial development within this area. Development guidelines should be considered to limit sprawl and blight in this area so as not to sacrifice the defining characteristics and natural beauty that the city values. (See *Commercial Corridor/PUD character area*)
- Helen Highway/Highway 75 between the city limits of Cleveland and Helen has developed as more of a tourism area with the additions of a brewery and tasting room. However, because of its Highway Commercial zoning, it is also attracting mini-storage facilities, auto repair and other less tourism friendly businesses. Development guidelines, such as a tourism corridor overlay, should be considered to improve the character and attractiveness of the main road that links the Cleveland Square with Helen. (See *Tourism Commercial character area*)

## 3.) Areas where the pace of development has and/or may outpace the availability of community facilities and services, including transportation

- As mentioned above, the scenic parkway which is along Cleveland's southwestern border could lead to aggressive development in the area and an increase in the demands for water and wastewater. Currently this is not likely to occur due to the limited amount of curb cuts allowed and lack of water and sewer connections. However, depending on the type of development that occurs, this might adversely impact the level of service of a variety of community facilities. (See *Commercial Corridor/PUD character area*)
- The popularity of Helen during events and other peak times will create transportation issues through the city on Helen Highway/Highway 75. Parking alternatives such as park and ride lots south and north of Helen utilizing shuttles or the creation of additional

parking locations in the city can help alleviate traffic during large tourism events. (See *Historic Downtown District character area*)

4.) Areas in need of redevelopment and/or significant improvements to aesthetics or attractiveness (including strip commercial corridors)

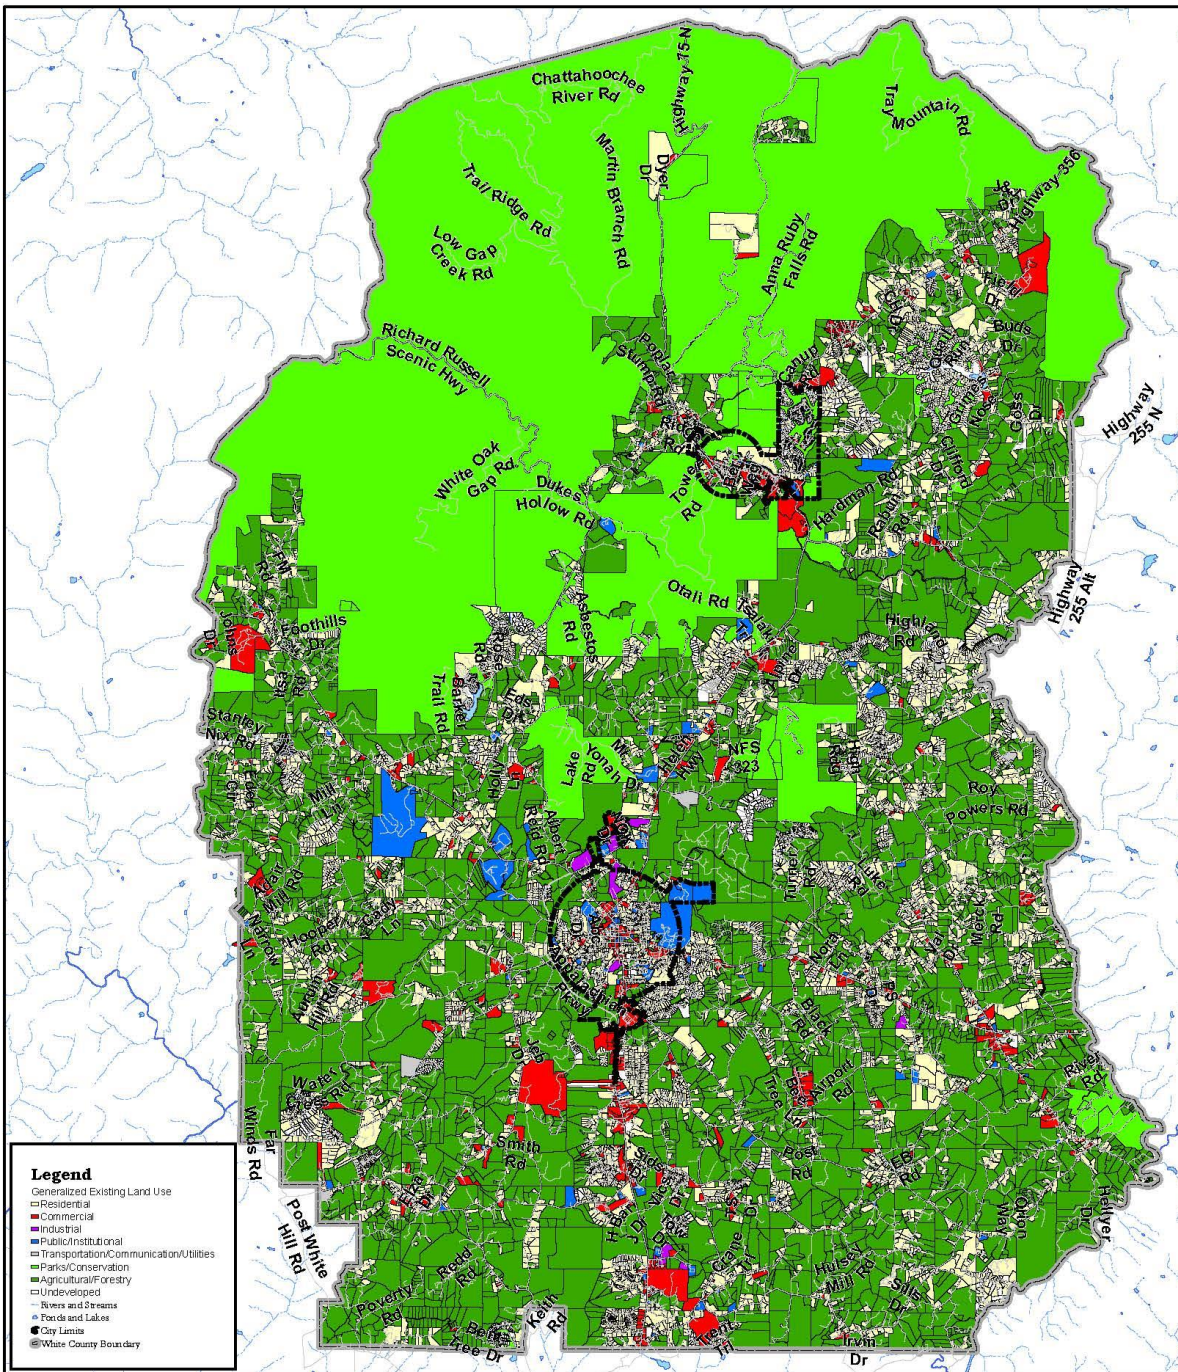

- The 129 corridor in Cleveland has many areas that can be either redeveloped or improved with continued streetscape projects and new construction. The new scenic parkway is in an area that will need design guidelines to continue guiding appropriate development and create a better gateway into the city. (See *Commercial Corridor/PUD character area*)
- Cleveland's historic square also would benefit from design guidelines that assist in regulating new construction along this area that complements the historic courthouse and other historic buildings. Streetscape improvements have been made in the past and more attention needs to be spent on addressing façade improvements and compatible infill and new construction in this area and the surrounding blocks around it. With US 129 running directly through this area, the historic square receives a lot of attention that translates into a desire to beautify the downtown area. This area can also utilize greenspace improvements such as Freedom Park and the proposed Arts District east of the square. All development will strive to maintain the current defining characteristics that contribute to Cleveland's quality of life and sense of place while also increasing pedestrian safety and accessibility in these areas. New development should complement the historic square and not sacrifice the small-town atmosphere which the city is known for. (See *Historic Downtown District character area*)
- The intersection of 129 and 75 north of the historic square also has the potential for redevelopment that would complement current developments in the area. This area currently has many large, big-box stores and development guidelines can assist in smart growth for the area. The city has been successful in the past on suggesting design modifications for new development to ensure that big box stores follow their suggested guidelines, and this should continue. (See *Commercial Corridor/PUD character area*)
- The City of Helen benefits from more than fifty years of design regulations that have transformed the city into a popular tourist destination. Due to its popularity the city will utilize redevelopment options for commercial development and lodging to maintain its density and not overwhelm its current infrastructure. All development will strive to maintain the current defining characteristics that contribute to Helen's quality of life and sense of place and not sacrifice the Bavarian alpine theme which the city is known for. (See *Historic Downtown District character area*)

5.) Large, abandoned structures or sites, including those that may be environmentally contaminated

- There are no significant abandoned sites or structures within the County. Any/all empty industrial properties such as the Telford Hulsey Industrial Park are already being marketed through local economic development organizations and renovation efforts will have support and guidance from the respective local government. (See *Commercial Corridor/PUD character area*)

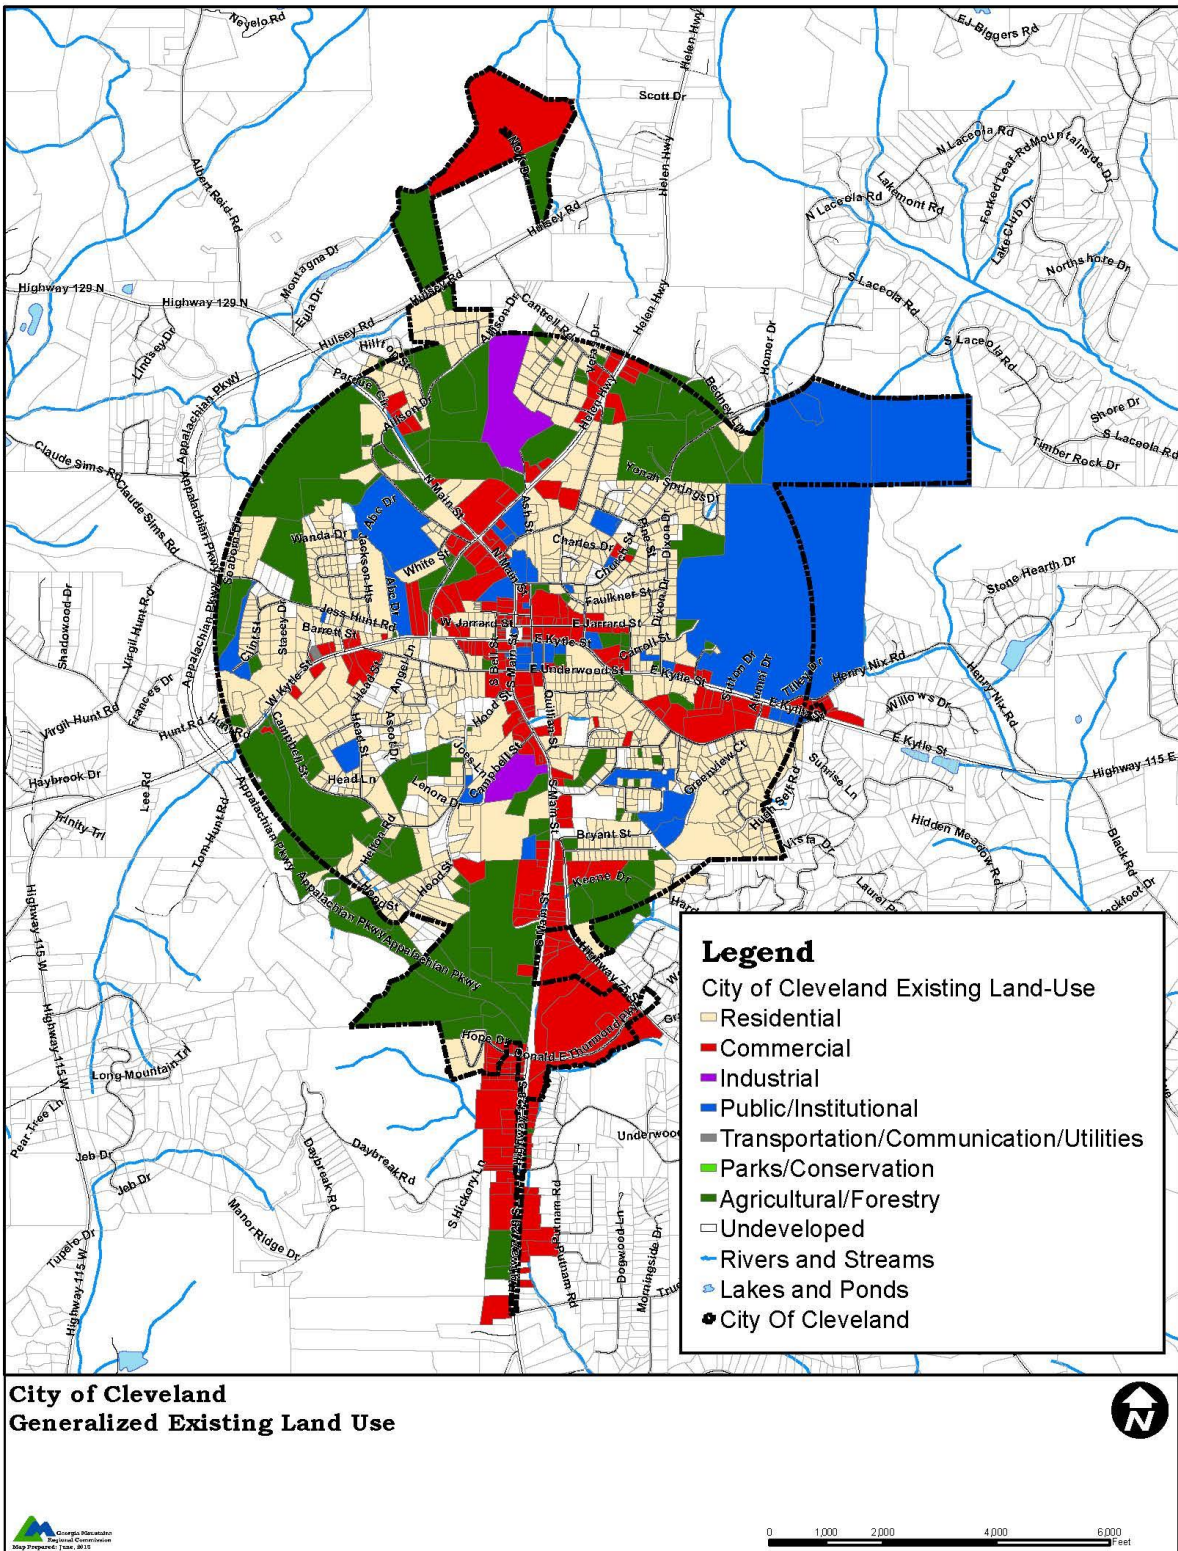

6.) Areas with significant infill development opportunities (scattered vacant sites)

- The Infill opportunities in the county primarily are located south of Cleveland or are scattered vacant or empty properties that can be redeveloped along highways 129 and 75. These areas have been addressed under question #4 and there are not any other areas that have not been covered. Any/all empty industrial properties are already being marketed through local economic development organizations and renovation efforts will have support and guidance from the respective local government. ### A. Quality Community Objectives

Since 1999 the Board of the Department of Community Affairs has identified various Quality Community Objectives (QCOs) as value statements of the development patterns and options that will help Georgia preserve her unique cultural, natural, and historic resources while looking to the future and developing to her fullest potential.

These ten objectives are adapted from generally accepted community development principles to fit the unique qualities of Georgia's cities and counties. Although these objectives are only recommendations, we are convinced that implementing these principles will result in greater efficiency and cost savings for local governments and a higher quality of life for their citizens.

- **Economic Prosperity:** Encourage development or expansion of businesses and industries that are suitable for the community. Factors to consider when determining suitability include job skills required; long-term sustainability; linkages to other economic activities in the region; impact on the resources of the area; or prospects for creating job opportunities that meet the needs of a diverse local workforce.
- **Resource Management:** Promote the efficient use of natural resources and identify and protect environmentally sensitive areas of the community. This may be achieved by promoting energy efficiency and renewable energy generation; encouraging green building construction and renovation; utilizing appropriate waste management techniques; fostering water conservation and reuse; or setting environmentally sensitive areas aside as green space or conservation reserves.
- **Efficient Land Use:** Maximize the use of existing infrastructure and minimize the costly conversion of undeveloped land at the periphery of the community. This may be achieved by encouraging development or redevelopment of sites closer to the traditional core of the community; designing new development to minimize the amount of land consumed; carefully planning expansion of public infrastructure; or maintaining open space in agricultural, forestry, or conservation uses.
- **Local Preparedness:** Identify and put in place the prerequisites for the type of future the community seeks to achieve. These prerequisites might include infrastructure (roads, water, and sewer) to support or direct new growth; ordinances and regulations to manage growth as desired; leadership and staff capable of responding to opportunities and managing new challenges; or undertaking an all-hazards approach to disaster preparedness and response.
- **Sense of Place:** Protect and enhance the community's unique qualities. This may be achieved by maintaining the downtown as focal point of the community; fostering compact, walkable, mixed-use development; protecting and revitalizing historic areas of the community; encouraging new development that is compatible with the traditional features of the community; or protecting scenic and natural features that are important to defining the community's character.
- **Regional Cooperation:** Cooperate with neighboring jurisdictions to address shared needs. This may be achieved by actively participating in regional organizations; identifying joint projects that will result in greater efficiency and less cost to the taxpayer; or developing collaborative solutions for regional issues such as protection of shared

natural resources, development of the transportation network, or creation of a tourism plan.

- **Housing Options:** Promote an adequate range of safe, affordable, inclusive, and resource efficient housing in the community. This may be achieved by encouraging development of a variety of housing types, sizes, costs, and densities in each neighborhood; instituting programs to provide housing for residents of all socio-economic backgrounds; or coordinating with local economic development programs to ensure availability of adequate workforce housing in the community.
- **Transportation Options:** Address the transportation needs, challenges, and opportunities of all community residents. This may be achieved by fostering alternatives to transportation by automobile, including walking, cycling, and transit; employing traffic calming measures throughout the community; requiring adequate connectivity between adjoining developments; or coordinating transportation and land use decision-making within the community.
- **Educational Opportunities:** Make educational and training opportunities readily available to enable all community residents to improve their job skills, adapt to technological advances, or pursue life ambitions. This can be achieved by expanding and improving local educational institutions or programs; providing access to other institutions in the region; or coordinating with local economic development programs to ensure an adequately trained and skilled workforce.
- **Community Health:** Ensure that all community residents, regardless of age, ability, or income, have access to critical goods and services, safe and clean neighborhoods, and good work opportunities. This may be achieved by providing services to support the basic needs of disadvantaged residents; instituting programs to foster better health and fitness; or providing all residents the opportunity to improve their circumstances in life and to fully participate in the community.

## **B. Community Vision Statements**

Previous planning standards for Georgia defined a community vision as something “... *intended to paint a picture of what the community desires to become, providing a complete description of the development patterns to be encouraged within the jurisdiction.*” It is required as an element of the comprehensive plan so that communities can truly establish a pure and simple ideal for themselves in a format that is easily expressed and understood.

Visioning provides communities with an opportunity to pause and consider the “big picture” as well as to attempt to clearly define their ideal future. Developing a vision means that community has at least tried to identify current values, describe how they are to be realized in the future and use that image as a foundation for short and long-term planning. As a process, this also requires the community to develop a consensus on what conditions to change or to preserve.

## WHITE COUNTY

**“The preservation of its environment, beauty and history are important priorities for White County that are weighed when planning for the county’s growth and needs of the future. White County will provide an efficient government, quality education and protective services so that all citizens and visitors can enjoy a high quality of life.”**

Nestled in the Northeast Georgia Mountains, White County includes the cities of Cleveland and Helen which are woven together by the scenic beauty and historic Appalachian culture of the northeast Georgia Mountains. It is a county based on providing safety and freedom to all residents, a courteous welcome to visitors, and a will to foster economic prosperity among native industry.

Once a part of the Cherokee Indian Nation, the Indian Mound at the intersection of Highways 17 and 75 is one of several known mounds in the area and is one of the most recognizable landmarks in the State. Gold was discovered in the Duke’s Creek area in 1828, beginning the Great Georgia Gold Rush.

White County and the surrounding mountains draw people by the thousands as tourists, but many stay to live fulltime. Growth in the county has risen 53 percent in the last ten years and is expected to continue to rise in the next decade. The county still has a lot of farming; and the pastoral views of sturdy stands of corn and rolls of hay in the gentle pastures, along with the mountains, rivers, and streams, is one of the advantages of living here. Another advantage would be in White County’s proximity to the metropolitan areas of Atlanta, making it the best of both worlds.

The Chattahoochee River has its headwaters in the northern portion of White County. Landmarks, historical events, and names such as Chattahoochee, Sautee, Nacoochee, and Yonah are examples of White County’s historic past being part of our everyday lives. To protect and preserve the environment and the beauty of the area, regulations for River Corridor, Groundwater Recharge, Wetlands, Watershed Protection, and Mountain and Hillside Protection have been implemented.

## CLEVELAND

**“The City of Cleveland strives to provide a gateway to open government, a gateway to a sense of community and cohesiveness and a gateway to opportunity. The City’s long-term goal is to make Cleveland more pleasing to visit, live, shop and play. To encourage new business and business expansion by recognizing the needs of our citizens and visitors, preserving our downtown historic district and heritage, and establishing a family friendly community.”**

The City of Cleveland was founded in 1857 as the seat of the newly formed White County. Later it was incorporated as a town in 1870 and as a city in 1949. The community is rich in history and is named for General Benjamin Cleveland, a veteran of the War of 1812 and grandson of Colonel Benjamin Cleveland, a Revolutionary War patriot.

Cleveland is known for Truett-McConnell University which is a private, Christian, coeducational liberal arts university and for Babyland General Hospital where the Cabbage Patch Kids dolls were created by native Xavier Roberts, and made. The old White County Courthouse and Museum houses the White County Historical Society. The courthouse, was built between 1859 and 1860, is listed on the National Register of Historic Places.

In addition to shopping at businesses on the square and visiting the historic courthouse, travelers may choose to visit other destinations just a few miles away. This includes destinations such as the Bavarian-themed Alpine town of Helen, Unicoi State Park, the Smithgall Woods-Dukes Creek Conservation Area, the Chattahoochee National Forest, including Anna Ruby Falls and Hardman Farm and the Nacoochee Indian Mound.

## HELEN

**“The City of Helen will focus to remain a place of pride that protects it’s natural resources and entrepreneurial spirit by providing quality services. The City will seek business and development services for local citizens and tourists by enhancing the local economy in ways that add to the region’s scenic and outdoor spirit.”**

The City of Helen is nestled in the Northeast Georgia Mountains on the Chattahoochee River and has a rich history linked to the Cherokee Indians and Indian burial mounds as well as early settlers who arrived to mine for gold and cut virgin timber for a thriving lumber industry in the early 1900s. Formerly a logging town that was in decline, the city resurrected itself by becoming a re-creation of a Bavarian alpine town, in the Appalachians instead of the Alps. This design is mandated through zoning first adopted in 1969, so that the classic south-German style is present on every building, even on the small number of national franchisees present and has fueled the successful tourism industry there and sparked the creation of many popular events and festivals connected to the Bavarian alpine theme.

The area is also known for numerous natural and historic sites such as Unicoi State Park and Lodge, Anna Ruby Falls, Chattahoochee National Forest, Hardman Farm, Sautee-Nacoochee, and the Russell–Brasstown Scenic Byway.

### **C. Recommended Character Areas**

Character area planning incorporates the concept of community function and feel to identify neighborhoods or communities of similar interaction, process, and character. Defining character areas is useful for identifying unique characteristics that provide a sense of community and to discern localized functions within the larger city or county context. Once character areas are established, community leaders can develop and implement strategies to promote the unique qualities of each character area.

The prevailing character and context of a community influences development forms and scale. Such elements are often identified as sub-areas within the community, such as neighborhoods, defined by architectural scale and style, functions and roles, traffic flow, and other factors that differentiate one area from the next. As such, a character area is a specific geographic area that meets the following criteria:

1. Has unique or special characteristics.
2. Has potential to evolve into a unique area with guidance; or
3. Requires special attention due to unique development issues.

Character areas are often identified based on environmental and/or physical characteristics of an area and it is not uncommon for communities to define their physical spaces based on a combination of both.

The Recommended Character Areas shown in the Comprehensive Plan represent a starting point in the discussion to create the Future Development Map that is a key component of the document. General areas shown in the Comprehensive Plan Recommended Character Area map will be refined through the community participation and continued planning analysis to include boundaries, descriptions, and vision statements for future development.

## Second Home Residential/ Short-Term Rentals

These are areas where the majority of second home development has taken place throughout the county. These areas include larger lots because they are associated with mountain and hillside protection. They usually have views and the lots with steeper slopes and with more sensitive soils. The mountain protection standard protects the environment and particularly the view shed, which is important to the local community and the tourism-based economy in White County and both cities. Some future residential development could allow conservation subdivisions, where the carrying capacity of the land will allow such developments. This area includes gated communities such as Innsbruck Golf Club and also unincorporated areas of White County.

### Development Encouraged

- Single family residential development (attached or detached)
- Light office, commercial and institutional uses conditional
- Short-Term Rental conditional
- Rural/ Mountain themed design elements featuring:
  - Pitched roofs
  - Wood, brick, or stone siding
  - Front porches

### Implementation Measures

- Conduct forum reviewing/amending development regulations as needed
- Develop design guideline reference material
- Develop *Iconic Images* database

## Single Family Residential/PUD

These are areas in the county where local residents live full time. Lot size and density levels should be modified according to each city's preferred zoning standards. Future developments in these areas should encourage traditional design guidelines for individual homes and Planned Unit developments (PUD).

### Development Encouraged

- Single family residential development (attached or detached)
- Light office, commercial and institutional uses conditional
- Rural/ Mountain themed design elements featuring:
  - Pitched roofs
  - Wood, brick, or stone siding
  - Front porches

### Implementation Measures

- Conduct forum reviewing/amending development regulations as needed
- Develop design guideline reference material
- Develop *Iconic Images* database

## Single Family Low Density

These are areas in the county that are very low density. These areas will continue to have large amounts of open space and green belts in its view shed. This area should truly focus on the use of conservation subdivisions. The slopes and soils are such that they can support the clustering of lots and other mixed uses while preserving the best locations for view shed, green space and common areas.

### Development Encouraged

- Single family residential development (attached or detached)
- Light office, commercial and institutional uses conditional
- Rural/ Mountain themed design elements featuring:
  - Pitched roofs
  - Wood, brick, or stone siding
  - Front porches

### Implementation Measures

- Conduct forum reviewing/amending development regulations as needed
- Develop design guideline reference material
- Develop *Iconic Images* database

**Agricultural and Low Density**

Agriculture will continue to thrive in portions of White County. The promotion of the county’s agricultural program and its products is an important way to keep the agricultural value in these areas and prevent them from converting to other types of land uses. Traditional row crops, livestock, poultry, and development of new agricultural and horticultural produce, such as grape and nursery plants, add value to the profession the land and to the local economy. Land conservation easement should be encouraged in these areas in order to help the farmer keep their costs (and taxes) at a minimum. If necessary, a farmland protection program could be developed to look for additional ways to preserve and enhance agricultural uses in the community. Residential land uses in these areas should mostly be related to farm management uses and intra-family land transfers to keep families together. The agricultural areas in the county are some of the most historical as well. It is important to recognize these lands and corridors and provide protections and incentives to preserve these historic areas.

**Development Encouraged**

- Large-lot (3+ acres) single-family detached
- Agricultural uses
- Churches
- Small-scale institutional
- Minimize surface parking
- Should blend with architectural character of community
- Conservation design subdivisions

**Implementation Measures**

- Maintain development regulations; Refine as needed (Policy)
- Support preservation of existing agricultural lands and structures (Policy)
- Maintain/Pursue policies that encourage appropriate infill development (Cities)

## Agriculture/Forestry

These are areas in the county that are gateways into the mountains and historic communities. It is important that these be maintained as much as possible because they are part of what draws millions of visitors to the area. Development should be kept at a minimum and if it takes place should appear in a manner that does not compromise the gateway view shed and minimizes the impact on the existing uses.

### Development Encouraged

- National forest and preserved utility land
- State Parks and wildlife management areas
- Minimal construction
- Preference for unpaved roads

### Implementation Measures

- Maintain cooperation with USFS, Ga Power and DNR (Policy)
- Attain/ enforce State environmental standards (Policy)
- Update floodplain and environmental mapping data every 5 Years

## Community Commercial

These are mainly where crossroads exist, and nodes of mixed activity are most likely to develop. Uses should be kept to moderate densities with a mix of smaller retail businesses and services that are of a convenience nature to the local areas. Architecture, site design and signage should blend with the unique nature of each community node. This can be accomplished through the plan review process for all commercial sites in White County.

### Development Encouraged

- 0/Near lot line development
- Mix of uses; preference for commercial along Main Street/historic downtown
- Minimize surface parking along main road; Preference for public lot
- Parking should be dispersed
- Office, institutional and residential uses acceptable
- Should blend with architectural character of the
  - neighborhoods and historic downtown
- Wood, brick, or stone siding

### Implementation Measures

- Support preservation of existing structures
- Conduct forum reviewing/amending development regulations as needed
- Develop design guideline reference material
- Develop *Iconic Images* database
- Develop/implement streetscape plans
- Connect to greenways and parks when possible
- Conduct study assessing opportunities for new park space
- Create development plans for Gateway Corridors

## Tourism Commercial

White County and its cities play hosts to millions of visitors each year. It is anticipated this the tourism industry in the area will more than double the current number of visitors over the next ten years. These particular areas are mainly focused within the City of Helen and in the northern parts of the county (Robertstown, Sautee-Nacoochee, and Chimney Mountain. They include corridors such S.R. 17 east from Helen to the county line, S.R. 255 from Sautee Junction into Habersham County, S.R. 75 north from Helen to Unicoi Gap, and S.R. 356 from Robertstown and Unicoi State Park north to the county line. These corridors include exquisite views and historic areas. Signage and site setbacks and buffer are most important and should be emphasized in the site location and design of future tourism venues and related facilities. As these corridors and centers develop, they should take place with pedestrian and alternative transportation modes in mind. Many of these alternative modes are identified in the Regional Bicycle and Pedestrian Plan and will be programmed in the State Department of Transportation Improvement Plan as state transportation facilities are improved.

### Development Encouraged

- 0/Near lot line development
- Mix of uses; preference for commercial along Main Street/historic downtown
- Minimize surface parking along main road; Preference for public lot
- Parking should be dispersed
- Office, institutional and residential uses acceptable
- Should blend with architectural character of the neighborhoods and historic downtown
- Wood, brick, or stone siding

### Implementation Measures

- Support preservation of existing structures
- Conduct forum reviewing/amending development regulations as needed
- Develop design guideline reference material
- Develop *Iconic Images* database
- Develop/implement streetscape plans
- Connect to greenways and parks when possible
- Conduct study assessing opportunities for new park space
- Create development plans for Gateway Corridors

Tourism Commercial

**Commercial Corridor/PUD**

This is the economic and social center of the cities and White County, and it is projected that this will continue over the time frame of this plan. The four highway corridors leading into the cities from unincorporated White County are projected to be commercial corridors, with U.S. 129 being the primary commercial corridor. It is important that future development stay within these corridors and highway nodes. New development will set back appropriately through local and state requirements which may include buffers, access roads, inter-parcel connecting roads, shared driveways, all reducing curbs and maintaining safe traffic flow on the state facilities. The gentrification of abandoned or older dilapidated commercial centers should be encouraged rather than new on spring up. Cities will focus uses through their zoning, provision of community services and as Planned Unit developments (PUD). Signage should be appropriately modest, low, and minimally lighted, and properly set back.

**Development Encouraged**

- Commercial, office, churches, public or institutional uses
- Limited, managed access onto Hwy 129
- Rural/ Mountain themed design elements featuring:
  - Pitched roofs
  - Wood, brick, or stone siding
  - Front porches
- Appropriate buffering from adjoining properties
- Parking should be dispersed
- Properties should feature pedestrian network accessibility
- Limitations on large, monolithic designs for multi-unit structures

**Implementation Measures**

- Conduct forum reviewing/amending development regulations as needed
- Consider guidelines for signage and lighting
- Review property maintenance codes and enforcement policies; Amend as needed

Commercial Corridor/PUD

## Industrial

These uses will be kept to the Telford Hulsey Industrial Park and to those areas zoned in the City of Cleveland for industrial use. These areas are where the existing infrastructure is available. It is doubtful and undesirable that such infrastructure would be extended to any other location in the county. The future focus of industrial development in White County is to encourage small light industries that need anywhere from 1,000 to 5,000 square feet of space and employ 3 to 20 employees. The idea behind this concept is to allow small business entrepreneurs to develop and grow in the county and become not just an industry, but part of the community.

### Development Encouraged

- Industrial, low-impact mining, warehousing, and distribution
- Wastewater treatment
- Large-scale institutional uses
- Requirement for appropriate buffering from adjoining Properties

### Implementation Measures

- Inventory all potential industrial sites
- Develop utility and commercial traffic assessment for growing industry

## Historic Downtown District

This is more than just a business district, but an area that will promote community activity. The City of Cleveland focuses on the management of downtown. Revitalization activities, community promotions and events, and maintaining the historic character and sense of place are being emphasized in downtown Cleveland. The development of design guidelines for downtown structures and new construction and beautification elements for the pedestrian-oriented streetscape are important goals for the area.

### Development Encouraged

- 0/Near lot line development
- Mix of uses; preference for commercial along Main Street/historic downtown
- Minimize surface parking along main road; Preference for public lot
- Parking should be dispersed
- Office, institutional and residential uses acceptable
- Should blend with architectural character of the neighborhoods and historic downtown
- Wood, brick, or stone siding

### Implementation Measures

- Support preservation of existing structures
- Conduct forum reviewing/amending development regulations as needed
- Develop design guideline reference material
- Develop *Iconic Images* database
- Develop/implement streetscape plans
- Connect to greenways and parks when possible
- Conduct study assessing opportunities for new park space
- Create development plans for Gateway Corridors

## Scenic Heritage Corridors

These areas include S.R. 17, S.R. 254, S.R. 255, S.R. 356, and S.R. 384 from its intersection of S.R. 255 to S.R. 75. These areas either include extremely beautiful view sheds such as the Russell-Brasstown Scenic Highway or are very important to the historic community, often both. Each corridor has their defining features and development guidelines that should be modified to be appropriate to their context and maintain their character. Not only is this important for community appearance and vitality, but also for traffic flow and appropriate land uses.

### Development Encouraged

- National forest and preserved utility land
- State Parks and wildlife management areas
- Minimal construction
- Preference for unpaved roads

### Implementation Measures

- Maintain cooperation with USFS, Ga Power and DNR (Policy)
- Attain/ enforce State environmental standards (Policy)
- Update floodplain and environmental mapping data every 5 years
- Review and amend development guidelines/regulations as needed

## Helen/Chattahoochee Riverfront

This area/corridor would begin in the Chattahoochee River in Robertstown, traverse through the City of Helen and end below Nacoochee Village at the Hardman Farm. Part of this concept is proposed in the White County Resource Team Report as well as in the Regional Bicycle and Pedestrian Plan. However, a local and visitor pedestrian amenities plan should be developed to provide guidance and oversight for the community to capitalize on the river as a quality-of-life amenity. The plan should include appropriate bicycle and pedestrian facilities that parallel the river and flow around existing structures and properties. There should be linkages to the riverfront from community facilities and visitor venues. The plan should include buffers that are required for environmental protection.

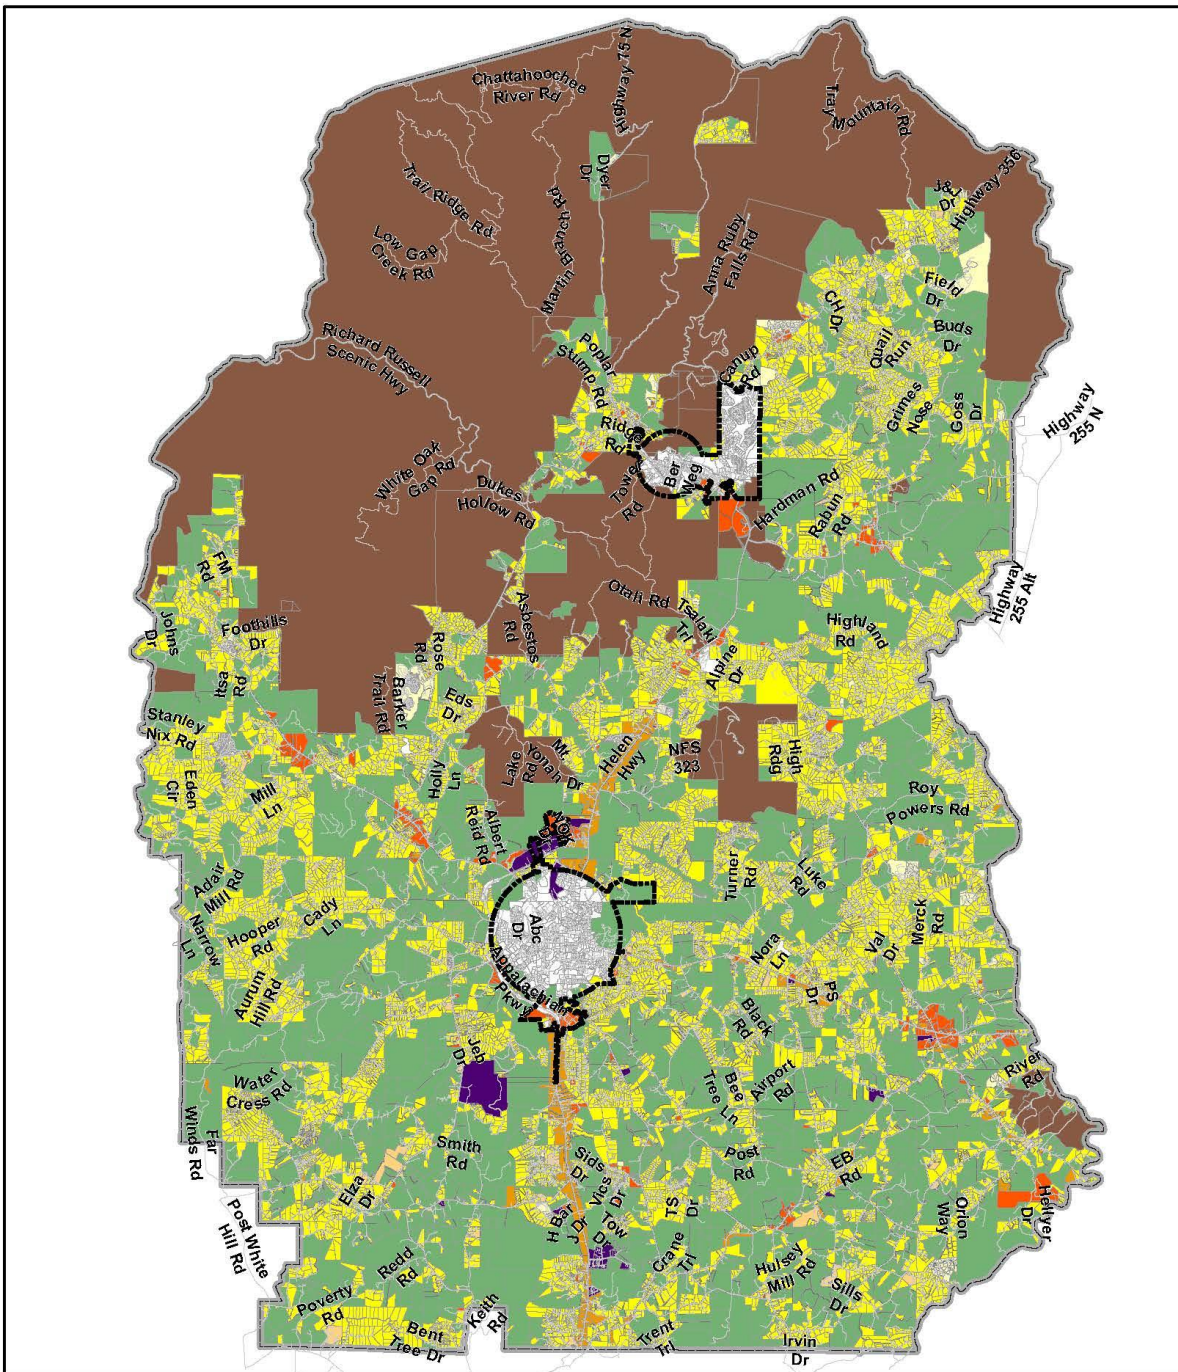

### **Development Encouraged**

- Single-family Residential, attached or detached
- Small-scale commercial buildings
- Small-scale resort structures
- Parks and recreation facilities
- Rural/ Mountain themed design elements for development featuring:
  - Pitched roofs
  - Wood, brick, or stone siding
  - Front porches

### **Implementation Measures**

- Conduct forum reviewing/amending development regulations as needed
- Enforce State environmental standards (Policy)
- Update floodplain and environmental mapping data every 5 years

The Implementation Program is the overall strategy for achieving the Community Vision and for addressing each of the Community Needs and Opportunities. It identifies specific measures, both short and long-term, that must be undertaken by the community in order realize the community's goals. Identifying these items helps the community organize their actions

## A. Report of Accomplishments

This is the review of the Community Work Program from the previous five years. As a new work program is produced every five years, the items within the previous work program must be identified for their status as complete, in progress, either postponed or cancelled. Those items that have been postponed or are in progress must be shown in the next Community Work Program where appropriate, while those items that have been postponed or cancelled must also include a reason for their status.

## **B. Policies and Long-Term Objectives**

While the future development strategy projects the physical conditions expressed within the Vision, the Implementation Program is the overall strategy for achieving the Vision and for addressing each of the Community Issues and Opportunities. It identifies specific measures, both short and long-term, that must be undertaken by the community in order realize the community's goals.

One type of action a community can establish to achieve its vision is the establishment of policy and long-term objectives. These are those ongoing principles and practices that the community will observe in order to realize specific objectives. Some policies may compliment single action-items while others may provide ongoing guidance and direction to local government officials for making decisions consistent with achieving the Community Vision or addressing Community Issues and Opportunities.

- Explore new ways to market Innsbruck Golf Course to the public.
- Continue water and sewer infrastructure improvements.

### **C. Community Work Program**

The third forward-thinking element of the Implementation Program is the Community Work Program (WP). This identifies specific implementation actions the local government or other entities intend to take during the first five-year time frame of the twenty-year planning period. This can include any ordinances, administrative systems, community improvements or investments, financing arrangements, or other programs or initiatives to be put in place to realize the plan goals.

Many programs listed will explore assistance through the Georgia Mountains Regional Commission (GMRC) via their discretionary contract elements with the Department of Community Affairs (DCA).

*Note: Where applied, "DCA funding" is used to indicate potential funding source for GMRC support of an item eligible for the Local Discretionary Assistance element of the RC/DCA contracts*

Note: \*Denotes confidential data relating to individual employers and cannot be released. These data use the North American Industrial Classification System (NAICS) categories. Average weekly wage is derived by dividing gross payroll dollars paid to all employees - both hourly and salaried - by the average number of employees who had earnings; average earnings are then divided by the number of weeks in a reporting period to obtain weekly figures. Figures in other columns may not sum accurately due to rounding. All figures are 4th Quarter of 2020.

## **White County/Cleveland/Helen Comprehensive Plan Public Hearing**

### **Minutes**

**May 11, 2021**

John Sell, White County Community and Economic Development called the public hearing to order at 10:05 a.m. He introduced Joe Rothwell, Planner from the Georgia Mountain Regional Commission who gave a short overview of the Comprehensive Plan, what it is, why it is required and what are the major components of the plan. Joe explained that with more than 440 survey responses, this update has more than double the public input of the last update in 2015.

The floor was then opened to the public to comment on the plan.

Barbara Jockers, 31 Ming Li Trail, Cleveland, commented that she was pleased with the biking trails at Yonah Preserve and how they support the Mountain Biking teams at Truitt McConnell and White County High School. She wants more bike trails to encourage even more people to come and spend their money in White County. She would like all county roads to have bike paths. She also wants more agri-tourism.

County Manager Jason Cobb mentioned that new trails would be part of the Yonah Preserve Master Plan and are included in the comprehensive plan as is a project to update the Bike/Pedestrian Plan.

Ridley Kinsey, 284 Fork Leaf Road, Cleveland, said this is a good exercise but believes that more participation is needed. He said 440 responses is less than 2% of the population. He encourages the county, cities, Chamber and media to continue to promote the survey.

Sam Williams, 3385 Hwy 17, Sautee Nacoochee, said he hopes the Historic Preservation Committee will revive the Militia Districts that were part of White County. He would like them drawn on a map and recognized so they could create and market their own personalities. County Manager Jason Cobb said a map could be drawn, but any official recognition or use of the data would have to be approved by the White County Board of Commissioners.

Mike Yarbrough, 118 Doe Run, stated he moved here for the beauty and it needs to be preserved. He also looks at what sustains our economy and it would be industries that are eco-friendly, like Johnson and Johnson in Cornelia. He said we have to have what it takes to draw industry so we have work for young people and also adequate housing so they will stay here.

Barbara Jockers further commented that we needed more historic tourism including walking and biking tours which could be based on the militia districts or culture such as the moonshining area of the county.

Tom O'Bryant, Cleveland City Manager, stated that the city is going through a major infrastructure build which will enhance the ability to create opportunities for new businesses, jobs and housing. He said infrastructure will be the big focus for Cleveland's portion of the plan.

Travis Turner, White County Board of Commissioner Chairman, said that the community is growing in lots of different ways. The growth we are seeing is causing opportunities and challenges for elected bodies to include causing way more meetings to address all the issues. He said as far as the industrial side goes we have a Water Authority that only does water, no sewer. He said he wants to see the commercial growth on main thoroughfares not secondary or "thirdary" roads. He said in order to get sewer capacity the county may have to partner with the cities or invest \$15 to \$20 million for a sewer plant. He said he wants to tie in the trails at Yonah Preserve to the ballfields and parking to open up more usage. He said we have just scraped the surface of what we can do with the 1,000 acres at Yonah Preserve.

Linda Erbele, 1037 Joe Black Road, Cleveland, said that she appreciates all the effort that goes into preparing a comprehensive plan. She said a modern library is a critical part of a thriving community and it is important to build a new facility.

Nan Bowen, 300 E. Underwood St., Cleveland and Cleveland City Councilwoman, stated the new library is needed to serve the public and its citizens, and she would love to see it grow and expand.

Terry Goodger, District 1 County Commissioner, said that 10 years ago the county new the growth was coming and said they determined that they needed a 4-lane highway for transportation and a workforce and the county was lacking both. As a result of Helen being the third leading tourist city in the state, and the natural beauty of the area, the county decided to focus on tourism. It invested dollars into roads, Yonah Preserve and Freedom Park to enhance tourism, which is now yielding significant dollars to the county. Hotel/Motel Tax revenues are exceeding expectations. It used to be about \$200,000 a year and this year it will be \$1.5 million, which are the results of more short-term rentals and increased traffic. He said that White County is the geographic center of Northeast Georgia and as such hosts the Appalachian/NE Ga Drug Task Force. He said as the geographic center we need good paying jobs to keep young people in the county to keep the county growing.

Deborah Palmer, 310 Bonnie Pearl Drive, Cleveland, said that new laws are needed to protect the community. She said she was going to distribute the survey to her neighbors in order to get more input. She said that she is willing to do anything to help the community.

Mike Yarbrough said that to retain the natural beauty we need to preserve the pastures/farmland and mountain areas. We also need industry that is eco-friendly on the major roads to help support the City of Cleveland.

Beth Truelove, White County Chamber President, said that the agriculture industry is vital to the community as it has about \$90 million annual impact. We need to protect those areas and preserve opportunities for agri-tourism to include our wineries.

In all, there were 22 people in attendance including two media outlets, several elected officials and community members.

The hearing was closed at 10:50 a.m.

72	In Cleveland and only to improve existing structures, beautify and maintain the historical integrity of downtown Cleveland by the courthouse, opening up to more small business and restaurants similar to how Dahlonge's Courthouse square is maintained. Please do not turn us into another Dawsonville. In Helen and Sautee do not change or try to expand. Maintain the historical, cultural, without turning it into an over run, over populated, over commercialized community. We have lived in numerous tourist areas and have left because of growth that occurred too quickly and with out proper planning. We have literally watched communities be ruined for profit.	3/11/2021 8:47 AM

390	Sense of community, small town, Christian and family oriented beliefs, and our excellent school system. We have thanked God everyday that we live where we do , especially over the last year. We are very grateful for our police and sheriff's department, how our city and county officials operate, and for our school board. We moved here because of what White County offered and to escape an over developed and an over commercialized area. Our previous home was in a beautiful small town that tourists visited and within the 14 years we lived there we watched it explode in population, commercial business, and crime. The area grew so fast that it couldn't plan properly to support it's size. The charm of the area was lost, the school system suffered and we left.	3/11/2021 8:47 AM

Stop mobile homes from coming to area as they do not pay property taxes. Agribusiness should be the City proceeds. Allow more restaurants to have beer and wine licenses to promote wineries and breweries. Stop Junkyards from popping up everywhere!!	3/11/2021 9:58 AM
66	Cleveland could use a well planned, neighborhood that would cater to young couples and retirees who need a starter home or home that is not too large for a "downsizing" retired couple or individual. However, being in the custom home design business, it is crucial to make sure that the developer offers plans and elevations that are not just standard box/tract style without any character. The designs offered need to fit in with the original home architecture of the area and have classic , long term appeal and a good POA to insure the integrity of the development.	3/11/2021 8:47 AM

10	Comment above for civic space refers to the need clearly evident when a local church had to be utilized rather than county owned building for mass vaccination site, not intended to endorse a new city hall building. The design of the Yonah Preserve asset should not be entrusted entirely to a hired engineering firm without a charette process for community input. The value of having various points of view is critical for this once in a life time opportunity for master plan development. I don't know how many private road exist in the area but they should all be taken over by City/County. 17	It is very frustrating that County Commissioners emails and phone extensions are not listed on the website, everybody has to call the county office to leave a message. I understand that the commissioners may have lives outside of their elected position, but to not even have an email on the website is very restrictive for good communication. The library should have sufficient financial support to provide for a growing community. What CDBG projects are on the county and cities list for future improvements? How does the county view sports tourism as an eligible activity for the hotel motel sales tax? Additional staffing needed for the county environmental health department for septic tank inspections. Having to have inspections for above ground pools and storage buildings, both of which are not permanent structures should not be required to have septic inspection. Also, the county should consider an RFP to have qualified engineers, land surveyors or other qualified professionals certified to do septic inspections with the applicant paying the fee for private inspection. These approved inspectors could be bonded. The backlog in the permitting process is a deterrent to the building process and only serves to encourage home improvement projects from obtaining the required building permit. What responsibility does the county believe is their proper role for the health of the community? Advocating for the future infrastructure to provide a full continuum of care is important as the area becomes more desirable for a senior population, otherwise it will eventually place an inordinate burden on EMS if timely access is not available locally. RURAL TRANSPORTATION - even if it is a looped service could help relieve the traffic congestion in	4/20/2021 2:00 PM

## White County - Cleveland - Helen

Helen if park and ride lots were positioned on either end of town, such as the Hardman Farms area. Federal 5311 should be explored to provide door to door pick up for disabled and others in need of transportation. We want people to be able to work, but for those experiencing financial challenges, one car breakdown could mean loss of job, a public transit for essential transportation needs would be beneficial for health care appointments, work transit needs and basic shopping.

#	RESPONSES	DATE
1	Ensure zoning requirements are in place to support growth	5/27/2021 3:18 PM
2	Increasing tourism, the preservation of rural character, improving infrastructure, and creating a sustainable middle class by having jobs and housing options available can be accomplished simultaneously.	5/23/2021 7:27 AM
3	Making sure people stay off their phone on the roads.	5/19/2021 8:28 AM
4	1. Provide more affordable housing.	5/19/2021 2:36 AM
5	Improve recycling options - I don't care if it's not a money maker. Neither are police/fire/schools. It's a service we badly need.	5/15/2021 7:57 PM
6	maintaining/expanding public use trails and bike paths	5/15/2021 8:01 AM
7	Housing. Not government housing. Rentals for working people that don't need/want government assistance. New homes.	5/15/2021 1:00 AM
8	Road maintenance in all areas of the county. Some roads are considered not county roads without reasons given. If it's in the county it's a county road.	5/14/2021 7:19 PM
9	Na	5/14/2021 4:13 PM
10	Add greenways for walking and bicycling	5/10/2021 3:40 PM
11	Mountain protection with enforcement	5/5/2021 1:12 PM
12	Increasing job opportunities and workforce development, such as entertainment, recreation, and Food Service/Beverage Service. Not typical blue collar work since majority of job opportunity in Cleveland is already that kind of work. We need to expand the job opportunities into different/new industries.	5/3/2021 4:24 PM
13	Limiting short term rentals	4/30/2021 3:44 PM
14	1. preserving the standard of living means includes efficient and effective, responsive government. The staff at White County are some of the most respectful, hardworking, efficient and customer focused government employees I have ever experienced. County commissioners should lead the effort to have our representation unified. Being split into multiple districts almost assures that we are the last block of voters and a resident of Dahlonge, Clarksville, Gainesville or somewhere else will always be representing White County citizens since we can not vote as one county, we are split three ways. I do not buy the logic that we have three representatives, therefore we have three times as much representation. We are no ones priorities because we do not have enough swing the at the election. Redistricting should reunify us, SPEAK UP AND INSIST WE BE SEEN AS ONE COMMUNITY NOT THREE INCONSEQUENTIAL SLIVERS OF THREE DIFFERENT DISTRICTS	4/20/2021 2:00 PM
15	Enhance and expand redevelopment in downtown Cleveland	4/13/2021 10:25 PM
16	Preserving land and water and eliminating trash.	4/13/2021 6:10 PM
17	Our community desperately needs a larger and updated public library in Cleveland. There is so much potential for serving our community with a larger and updated space.	4/11/2021 11:04 AM
18	improving Medical facilities (such as there is a need for a hospital) and improving park & rec facilities such as walking trails and aquatics (pools for Seniors and children)	4/7/2021 3:40 PM
19	Police would get higher rating if add another officer on days and nights	3/29/2021 7:10 PM

20	Put a loop around Helen to allow to expand and a stop light at 17 & Helen Hwy ffs	3/26/2021 4:42 PM
21	We need a new and improved Public Library. Our county commissioners should be ashamed for the condition of our current library. We deserve better!!!!!!	3/25/2021 6:10 PM
22	Must upgrade businesses for a demanding new Class of visitors , come Into this decade	3/25/2021 1:39 PM
23	The county needs to be concerned about maintenance of some homes...trash build up causing fires	3/25/2021 6:50 AM
24	Increased Healthcare/Doctors and services in the County. We now have to drive to Hall or Habersham which is a 20-45minute drive.	3/24/2021 1:48 PM
25	Keep county clean	3/24/2021 1:27 PM
26	We have an over abundance of tourism for this small town. There should be a lot of focus on expanding to take advantage of this business opportunities. Many would like this to stay the same. The good old ways. You can't expect to draw business in, if you do not want to accommodate the expansion.	3/24/2021 12:21 PM
27	none	3/21/2021 1:39 PM
28	All of the above issues are very important and if we want to increase tourism we need the infrastructure to support this. No issue is without an impact on the others and there will be a fine balance to keep our rural lifestyle, but that is what attracts the tourists.	3/20/2021 8:59 AM
29	Improve the downtown Cleveland commercial district	3/18/2021 5:10 PM
30	Increase food options NON fast food restaurants	3/18/2021 3:40 PM
31	More public Basketball and volleyball gyms are DESPERATELY NEEDED as well as bicycling areas and trails for children and adults	3/17/2021 11:42 PM
32	I think both Cleveland and the county need a development plan. Also there is no public transportation like Dial a bus.	3/17/2021 1:40 PM
33	Stronger code enforcement to clean up the county. Ie. Junk yards, trash in yards, dilapidated buildings	3/17/2021 8:37 AM
34	Preserving historic sites and scenic view shed should be a high priority	3/16/2021 3:49 PM
35	Limiting development in high profile areas with critical view sheds unique to White County - Sautee and Nacoochee valleys, historic areas, mountain tops	3/16/2021 2:04 PM
36	Preserve historic structures. Make the Cleveland square more attractive with more parking behind the buildings.	3/16/2021 9:37 AM
37	Cleaning up derelict properties	3/16/2021 9:27 AM
38	attract other grocery stores - kroger, publix	3/16/2021 9:24 AM
39	Get some GOOD restaurants and stop with all the fast food chains. Have to go somewhere else for a good meal.	3/16/2021 8:58 AM
40	Reduce nepotism among county leaders. People in government positions should not be allowed to award county contracts to sorry relatives. It's how we've acquired much of our substandard infrastructure over the years.	3/16/2021 8:56 AM
41	Increase eco tourism. Expand hiking and mountain bike trails and access points to Rivers inside the county.	3/15/2021 9:34 AM
42	Improving infrastructure (i.e. water and sewer)	3/15/2021 8:55 AM
43	As a Land Planner for over 25 years now running a manufacturing company I see a need for managed growth and a game plan to attract new business.	3/15/2021 8:29 AM
44	adding greenspace, parks	3/14/2021 6:16 PM
45	Public Libraries	3/14/2021 4:04 PM
46	White County and Helen libraries both need expanding in terms of space, volumes, computers & meeting spaces. Voting - ease of timing and accessibility.	3/14/2021 3:07 PM

### White County - Cleveland - Helen

47	Develop downtown Cleveland with quaint shops and eateries, like Monroe GA	3/14/2021 2:22 PM
48	More community activities ( bike path, more recreational activities Pickleball courts to attract the area guests. Hiwassee has 16!!!! We have a few but the lights don't work.	3/14/2021 9:33 AM
49	Preserve and expand the biking trails	3/13/2021 11:18 AM
50	Compared to other counties- our pickleball facilities are very poor. We need covered outdoor courts and another gym. Pickleball is the fastest growing sport in the county. The rec department built those beautiful baseball fields that sit empty for most of the year. Pickleball is year round for ALL age groups! Senior citizens play pickleball and pay taxes too. We should have as great a facility as the baseball age group.	3/13/2021 8:30 AM
51	Adding more mountain bike trails will bring in more visitors and will make the city more money. For example bentonville Arkansas which is the headquarters for Walmart. They added miles of trails to attract more visitors. This would be a great thing for the county and would help preserve the wooded areas.	3/13/2021 7:54 AM
52	White County Parks & Rec. We need it cleaned up & Additional facilities added. Physical activity is key	3/13/2021 4:25 AM
53	We need an Aquatic Center like Frances Meadow in Gainesville or Habersham county swimming facility, for swim lessons, water aerobics, therapy swim for arthritis.	3/12/2021 9:44 PM
54	We need additional investment in parks and recreation. We need another gym and lights on Pickleball outdoor courts.	3/12/2021 9:43 PM
55	Preserving and identifying historic sites.	3/12/2021 8:31 PM
56	Providing activities for children to do. For example an indoor/outdoor archery complex. Improve the library.	3/12/2021 8:02 PM
57	There do not seem to be guidelines for preserving the beauty of the mountains.	3/12/2021 7:26 PM
58	Increasing number of parks, trails, also improve the public pool situation.	3/12/2021 4:22 PM
59	Preserving White County's Historic Character	3/12/2021 4:10 PM
60	More active networking opportunities for local business owners in the hospitality/tourism industry.	3/12/2021 4:00 PM
61	Some of these unfortunately cannot be improved unless some other less desirable items are allowed to improve, like workforce develp't must help living standards.	3/12/2021 1:36 PM
62	Stop clear cutting all the land	3/12/2021 1:04 PM
63	Attract hi-tech and professionl jobs. Better hotels/motels and a high-end resturant or two	3/12/2021 1:01 PM
64	County commissioners need to pave May White Road. The road is dangerous!	3/12/2021 12:05 PM
65	Arts and cultural activities for everyone	3/12/2021 11:49 AM

71	Preservation of natural resources; Clean air / water / soil.	3/12/2021 7:48 AM
72	People can go to Gainesville, etc for job opportunities. Keep White county a bedroom community. Dont let it get that Gwinnett and Forsyth. We leave those counties for rural. If you grow White like that we will all leave. Jobs are everywhere and can be created (day care, crafts business, etc)	3/12/2021 7:17 AM

86	N/A	3/10/2021 10:50 AM
87	So much trash everywhere and trashy houses, 129 South is an ugly stretch of road, and the county's priority of paving every road is killing the character of the county. We love our dirt roads! ...The Parkside development has elevated the look and feel of Cleveland, which has always seemed raunchy and low-class.	3/9/2021 11:08 PM
88	Educating and training police to be more helpful and less authoritarian	3/9/2021 1:06 PM
89	Expanding county water should be no 1.	3/7/2021 10:30 AM
90	Low cost housing for single parents	3/5/2021 6:26 PM
91	I feel that our Fire Services needs more added personnel to better serve the unmanned and outlying areas of the county.	3/5/2021 5:55 PM
92	Smart development - for example the square should be designated as dining and retail. Limiting subdivisions which increases population density. NO more fast food and chains, we are over saturated with fast food.	3/5/2021 5:30 PM
93	My Number one concern is lack of Ambulances in the county, and lack of paid Fire Stations	3/5/2021 2:26 PM

1	Attract industry that helps the county in the future. Hospitals, schools, manufacturing, activity based like a concert hall, amphitheater, aquarium, aquatic center. Retail and restaurants will come on their own.	5/23/2021 7:27 AM
2	Regarding new jobs, the word "any" leaves our area open to menial and low paying jobs.	5/20/2021 12:30 PM
3	Maintenance of our roads. Pave some dirt roads that have heavy traffic. Fix pot holes and inforce littering laws.	5/19/2021 8:28 AM
4	1. Provide more affordable housing.	5/19/2021 2:36 AM
5	In closing - Just remember the lines to the song - THEY PAVED PARADISE TO PUT UP A PARKING LOT. Don't destroy White County!!!!	5/17/2021 3:09 PM
6	No more chicken fast food	5/16/2021 12:11 PM
7	Have a master design that limits strip malls and trashy looking development. Plant trees! Encourage low maintenance but attractive landscaping.	5/15/2021 7:57 PM
8	We need to preserve our small town and keep big city way of life away.	5/15/2021 3:38 AM
9	Maintenance on all county roads not just new construction.	5/14/2021 7:19 PM
10	Do not increase millage rates. Grow a spine and say NO to big business.	5/14/2021 4:26 PM
11	Na	5/14/2021 4:13 PM
12	As I said above, White County's greatest attribute is that it is NOT Gwinnett or Hall County. Understand once you go down that "developer" path, you can't go back. I have seen it happen in most of the north side suburban counties.	5/11/2021 11:57 PM
13	Increase amenities, such as a new library, indoor public swimming pool. Somehow get an Aldi here to lower the cost of living.	5/10/2021 3:40 PM
14	for commercial developments, please ensure we have strict zoning, design and signage ordinance to protect character, even along highways.	5/10/2021 6:58 AM
15	Continuing the quality of life that exists for current residents, while providing a base for future growth as it arrives.	5/6/2021 11:53 PM
16	Attracting more/new recreation and amusement	5/3/2021 4:24 PM
17	Some questions need the additional option of Not relevant to me." When not on public water/sewer nor having children in schools etc, some questions just are not answerable due to relevance.	4/29/2021 9:07 AM
18	Attract investors that can be willing to pour capital into our community to build affordable housing, either town homes, single family or apartments. It is a shame that young families do not have affordable housing stock to buy first time home. There are tax credit programs investors are willing to utilize to support real estate development but they need to know it is wanted and feasible. Sponsor seminars with DCA on First Time Homeowners programs.	4/20/2021 2:00 PM
19	Develop county long green trail for walking and biking	4/13/2021 10:25 PM
20	Strategic, planned development for the square would get more visitors and improve economic growth.	4/13/2021 8:28 PM
21	Would like to see the old Nix Hardware store torn down and some nice new retail space in its place. Also, remove the ugly rusted silo at Ash Brothers. Better sidewalks around the	4/12/2021 6:33 PM

courthouse and a walkway across Kytile Street to Freedom Park.

22	Please expand the bike trails at yonah preserve. Excellent attractor of people from out of town. There is a large audience of bike riders that would make the visit if they had more than 8 miles of trails. The county and NE Sorba worked well together to get the amazing trail thus far.	3/29/2021 7:10 PM
23	schools -- middle school in particular public transit accessibility	3/29/2021 8:56 AM
24	Make hwy 17 at hwy 75 a safer and more time useful intersection for all directions. the summer and fall is hard to enter hwy 75. Lights, round about, make speed zones no higher than 40 mph. .	3/29/2021 8:38 AM
25	fyi -- I had trouble electronically answering some of these questions	3/26/2021 6:44 PM
26	Limiting the number of traffic lights.	3/26/2021 1:54 PM
27	Safe walking path along Helen Highway from Alternate 75 to the City of Helen.	3/26/2021 12:53 PM
28	We need a new and improved Public Library for our citizens.	3/25/2021 6:10 PM
29	Must improve type of businesses Upgrade and upscale atmosphere From the past!	3/25/2021 1:39 PM
30	Cleveland needs to improve their streets and drainage systems	3/25/2021 6:50 AM
31	Highway development allowing more traffic flow into Helen and historic sites. Tourism is a large part of our county's income and we need extra roads or lanes to accomate them.	3/24/2021 1:48 PM
32	Attracting more new retail and dining will automatically attract new jobs.	3/24/2021 12:59 PM
33	Rank a as high to enhances pickleball offering. Seem a shame that all the new baseball fields are only used seasonally where the pickleball demand is year around.	3/21/2021 1:39 PM
34	Bike paths for the many White County visitors that bring their bikes to enjoy our beautiful area.	3/21/2021 1:39 PM
35	Community Infrastructure for the low income families to afford the cost of living as expected expenses arrive. Ie: a church led (churches working together) community outreach	3/20/2021 8:59 AM
36	More emphasis on the "gateway to mountains". Establish an annual festival around hiking or other outdoor activity. Would like to see more festivals etc	3/19/2021 11:45 AM
37	We don't want significant growth and development here!!! They can stay in the city! Quit trying to make us bigger!!	3/19/2021 8:59 AM
38	We don't need a row of fast foods, contributing to more poor health and obesity. We desperately need farm to table, fresh food restaurant options. And a FRESH green grocery option, not a Publix, not a Food Lion, but Sprouts, etc, even Aldi. Whole Foods is too expensive for this area.	3/18/2021 10:49 AM
39	4 lanes for 129 north and south as well as 115 east to west all the way through White county. If not then at least a center turning lane All The Way Thru White County. Also a BYPASS on the EAST side of Cleveland	3/17/2021 11:42 PM
40	Parking in downtown Cleveland is a problem and an active Merchants Association may be helpful in working together and applying for grants. More trees and plants would make a big difference.	3/17/2021 1:40 PM
41	Improving non-motor vehicle transportation	3/17/2021 9:07 AM
42	Restrict corridors in sensitive historic and natural areas. Create best practice buffers in high profile areas (near streams and historic sites)	3/16/2021 2:04 PM
43	We need to make our community more attractive, a destination that attracts visitors. An improved newspaper with articles about more than the history of the county and school activities. Restaurant reviews. Local interest news.	3/16/2021 12:43 PM
44	More roundabouts...like at the Indian Mound	3/16/2021 9:27 AM
45	Enforce zoning laws. Driving GA 75 between Cleveland and Helen gives a good amount of insight into why outsiders consider us trashy hillbillies.	3/16/2021 8:56 AM
46	Make community beautiful and safe with good roads/traffic, and the other benefits will follow (jobs, etc), as seen in other highly desirable areas - then the focus will be on managing	3/14/2021 5:42 PM

development to keep it that way.

47	- Maintain ease of timing & accessibility of voting - Library Expansions (see # 17 & 19 above) Thanks for the excellent job of historic preservation of structures & the rural nature of our county & mountains.	3/14/2021 3:07 PM
48	Community building opportunities: public music and dance events, classes, etc.	3/14/2021 9:24 AM
49	I moved to White county 20 years ago for a safe rural lifestyle. I chose this , knowing I would need to drive to Atlanta for work. Please maintain and protect our small town life with controlled business plans and housing. Once our safe rural small town life is gone due to huge business growth, it is gone forever. Our grandchildren deserve to grow up somewhere other than the city. When you chose to live here, you do so knowing that you drive a short distance for dining, retail ect. Along with out of control growth comes crime	3/13/2021 10:37 PM
50	I do not want to see 4 lane highways run through Cleveland . It would destroy our small town life and lead to more congestion, crime, development of rural property to make us a "city" . We are COUNTRY, not CITY. Keep it that way. I moved here from the city 13 years ago because I wanted a small town. Develope the square, add small business, give us character. Not just add more box stores, chain restaurants and more houses simply for any kind of growth and an increase in the tax base . If people want big city amenities....let them move to the city!!!	3/13/2021 8:15 PM
51	More mountain bike trails!	3/13/2021 6:10 PM
52	Fine dining, not fast food	3/13/2021 12:59 PM
53	Add to Recreational activity to bring in tourism but presentation of lands IE Yonah Trails	3/13/2021 12:20 PM
54	I've watched an endless cycle of a small towns being overrun by highways, apartments and businesses. I hope this doesn't ruin the small town Cleveland.	3/13/2021 8:18 AM
55	Developing recreation for entire community. Loads of money spend on baseball facilities while activities like pickle ball must use second rate facilities to all the countries around us.	3/13/2021 7:12 AM
56	Do a better job on vacation rentals.	3/13/2021 5:57 AM
57	Add through roads on east side of Cleveland that allow you to navigate around town without going through the square and WITHOUT going over multiple speed bumps and stops signs	3/12/2021 11:16 PM
58	I would like to see a new gym, with indoor heated swimming pool, new pickleball courts and lights for our current pickleball courts.....PLEASE!!!	3/12/2021 9:44 PM
59	Improving access for bicycle and pedestrians and removal of recently installed rumble strips on state roads, which decrease safety for cyclists by forcing them to ride in the travel lanes.	3/12/2021 9:15 PM
60	Less fast food, a nice chain restaurant	3/12/2021 8:02 PM
61	We need more walking and biking trails. Bikers can cause traffic jams because they have no where to ride except for the roads built for cars. This area could be a haven for bicycles	3/12/2021 7:26 PM
62	Add more roundabouts. Helen Hwy st Duncan Bridge and Hwy 17 suffer from high volume and stalled traffic. Roundabouts solve endless idling and limit accidents.	3/12/2021 5:06 PM
63	Please consider having the 11 "Voting Precincts" (which are historically an outgrowth of the earlier militia districts established almost 200 years ago) delineated as part of the His-toric District Overlay (HDO). These districts could easily be overlays on the existing county zoning map. Later, the Planning Commission/White County Commissioners could include a set of county-wide regulations for all districts, followed by customized regulations for each individual district based on citizen input. The property owners in each district should have input on the restrictions and requirements that they agree will benefit them. As ex-amples, stricter slope restrictions are more valid in Sautee Nacoochee than say, Cleve-land. The same goes for what types of industry or businesses are allowed in each district, such as hog farms, big box stores or cell towers above a certain height. Each district could decide its own slope and development restrictions, tree cutting restrictions, road and drive guidelines, minimum lot sizes, etc. The districts could also decide whether and how much financial incentive to provide for protecting and maintaining a historic prop-erty, e.g., reduced taxes. White County has many valuable historic properties, such as houses, churches, barns, stores and other individual properties spread all over the county, most of which would be eligible for inclusion in the overlay. We currently have two Rural Historic Districts, Na-coochee (1980) and Sautee (1986), which are distinct and contain many historic proper-ties that helped each district to be listed on the	3/12/2021 4:10 PM

National Register of Historic Places. The whole community, with the full knowledge and participation of property owners in both valleys, participated in the long and arduous process of gaining this status. These two unique districts should be treated differently than "an individual property" because they are different. We think you should follow the recommendations in Allen Stovall's study and give them protection up to the 1400 ft. contour line. This will protect the viewsheds. Whenever a community, such as Kellum Valley, White Creek or Shoal Creek, has enough support and energy, they can become their own Historic District, using Sautee Nacoochee as a template. Hopefully within a few years White County will have multiple districts, each with its own character and unique qualities. Each of them drawing tourist dollars to White County on their own merit. Going forward, the Commissioners could to create a "working group of experts" tasked with setting up and conducting public hearings in each community district. Perhaps Allen Stovall, Joe Rothwell and/or a team from UGA could help conduct community meetings. Much research documents the benefits of historic preservation for property values and quality of life. White County has a chance today to make decisions that benefit its future. Let's do all we can to make it happen.

64	Please expedite new trail building at Yonah Preserve. It's a wonderful place and is attracting people for day use recreation from other areas, but that will slow down if it develops an overcrowding reputation.	3/12/2021 4:00 PM
65	Allow alcohol sales to include open containers in downtown area	3/12/2021 1:59 PM
66	Development of trails and campgrounds and parks, especially purpose built for mountain biking, camping, backpacking and climbing will attract tourists who spend money in the community without consuming limited community resources. Please prioritize investment here.	3/12/2021 1:50 PM
67	I recommend that White focus on free space for multi-use that will bring in outsiders. Forsyth is quickly going down like Gwinnett County. Our CC's are only into ball parks.	3/12/2021 1:36 PM
68	No more four-lane roads. Once the bypass is done, we can stop.	3/12/2021 11:49 AM
69	Love the beautiful Yonah preserve trail system. More please!!	3/12/2021 11:40 AM
70	A bicycle path from Cleveland to Helen would attract more people as well	3/12/2021 11:10 AM
71	Make it easier for restaurants to obtain liquor licenses. And more parking for the square!!	3/12/2021 10:49 AM
72	Develop more small side thru streets to alleviate the traffic problem on the square. Add a few parking lots and draw more dining/business onto the square. I think Dahlonega and Clarksville are examples of good balance between small town feel and local dining and business options.	3/12/2021 9:25 AM
73	Maintaining and repairing existing roads should be the priority. No new roads.	3/12/2021 7:49 AM
74	Keep traffic out of downtown areas (Cleveland, Helen)...keep our county rural. That is why we moved here and love it. Keep parks clean and safe.	3/12/2021 7:17 AM
75	A strategy I'd like to propose is one that got me here. I brought my position with me, my taxes and my pay as well. I work from home full time. The internet is working reliably, which after two years I can attest to. Recently other cities in Georgia with rich event and festivals not far away have been pitching to permanent work from home employees. I believe White County should do to. We have exactly the right things to disconnect from the digital world with hiking, biking, lakes, ziplines, tubing, dining, wine and of course hitting the links.	3/11/2021 7:55 PM
76	Invest in bike trails along highways and main roads! Both the high school and local college have mountain bike sports teams, and this would further promote them. As well, the electric and mountain bike communities are good, respectful tourists who appreciate the scenic beauty of White County.	3/11/2021 4:57 PM
77	Some form of public transport would be cool	3/11/2021 3:41 PM
78	Helen needs a concert hall to attract A and B list performers to help boost the already thriving tourist hub that is Helen	3/11/2021 12:35 PM
79	No more fast food, more quality dining	3/11/2021 12:29 PM
80	County needs to look at future by planning for a hospital with full services to work in conjunction with NEGA Medical center. We do not have a proper Trauma or emergency unit. It will cost a lot of money and you need to start planning now. We can't handle more volume of anything until you address that issue.	3/11/2021 9:58 AM

86	Quality of life measures to watch include literacy rates, availability of recycling stations, walkability, bike-ability, valuing the library, cutting down on litter, a dog park, and development with design instead of hard-noggled randomness. Also, we need women and people of color represented in city and county government. White County Commissioners are a bunch of mostly old white men. I know it's a conservative place, but goodness. Oh yes, better kayak launches along the Chattahoochee are badly needed.	3/9/2021 11:08 PM
87	Attract real dining - not fast food or chain establishments. Create an environment that restaurateurs would want to establish their business here. White County has plenty of Dollar Generals - these areas typically look trashy after a few years of being established. Also, sign standards is another consideration. Take a look at Germantown, TN. Beautiful town with lots of retail, businesses, event venues, dining, and several chain establishments.	3/8/2021 10:04 AM
88	Please don't start bringing in chain restaurants/retail!!!	3/5/2021 5:57 PM
