RESOLUTION

WHEREAS, the Georgia General Assembly did enact, and subsequently amend, the Georgia Planning Act of 1989 to institute local comprehensive planning in communities throughout the state, and

WHEREAS, said Act requires local governments to prepare, maintain and periodically update a state-approved local comprehensive plan to be eligible for certain state-issued grants, loans and permits, and

WHEREAS, the City of Woodland has been notified by appropriate cognizant authority that its most recent effort to update the local comprehensive plan did adequately address the minimum standards and procedures promulgated by the Georgia Department of Community Affairs to ensure compliance with said Act.

NOW, BE IT THEREFORE RESOLVED, by the Woodland City Council that the Woodland Comprehensive Plan 2021 be adopted, contingent upon DCA approval.

Duly considered and approved by the Woodland City Council in session this 2nd day of March 2021.

RE: Talbot County – Geneva, Junction City, Talbotton, and Woodland
Comprehensive Plan 2021
Submittal of Draft

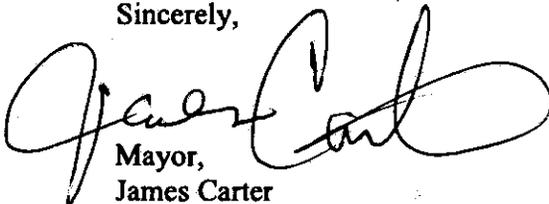

Woodland, working in conjunction with Talbot County and the Cities of Geneva, Junction City and Talbotton has completed the draft update of our comprehensive plan. In accordance with applicable Minimum Standards and Procedures for local Comprehensive Planning the draft is being submitted herewith to initiate review by the River Valley Regional Commission and the Department of Community Affairs.

I certify that we have held the required public hearings and have involved the public in development of the plan in a manner appropriate to our community's dynamics and resources.

I certify that appropriate staff and decision-makers have reviewed the Upper Flint Regional Water Plan and the Rules for Environmental Planning Criteria (O.C.G.A. 12-2-8) and taken both into consideration in developing our plan.

If you have any questions concerning this submittal do not hesitate to contact , City Clerk, at 706-674-2000 or cityofwoodland2014@gmail.com

Sincerely,

Mayor,
James Carter

Organization of the Comprehensive Plan Update

The State of Georgia updated the Minimum Standards and Procedures for Local Comprehensive Planning in 2013 (O.C.G.A. 110-12-1). These updates included a list of required elements and optional elements each community was encouraged to use to supplement their comprehensive planning efforts.

Elements required by the state for each community include:

- Community Involvement--An initial and final public hearing;
- Community Goals—A review of the community's vision and goals;
- Needs and Opportunities--A list of potential community needs and opportunities;
- Land Use—An analysis of the community's existing development patterns; and
- Community Work Program--the community's action plan for the next five years.

While not included in the Comprehensive Plan Update document, renegotiation of the community's Service Delivery Strategy is also required as part of the process.

Other elements encouraged by the state to supplement the community's comprehensive planning efforts include:

- Economic Development—Encouraged for communities seeking to improve economic opportunities for their citizens (Only required for communities included in Georgia Job Tax Credit Tier 1);
- Capital Improvements—Only required for governments that charge impact fees;
- Transportation—Recommended for communities with automobile congestion problems, parking problems, or that are interested in adding alternative transportation facilities (Only required for governments that have a portion of their jurisdiction included in a Metropolitan Planning Organization); and
- Housing—Encouraged for communities with concentrations of substandard housing or a jobs-housing imbalance (Only required for HUD CDBG Entitlement Communities).

The Woodland Comprehensive Plan Update consists of the following elements: Community Vision and Goals, Community Needs and Opportunities, Community Land Use, Community Economic Development and Community Work Program. The Comprehensive Plan is intended to be a policy guide relating to land use, community infrastructure, housing, and economic development activities. This document should generate local pride and enthusiasm, engage interest in the implementation of the comprehensive plan, and become a handbook to guide daily decision making for the local government officials and community leaders.

Community Involvement

Purpose

The comprehensive planning process, at its inception and culmination, is a vision for the future. The ultimate aim of the process is to develop a strong community. In order to achieve that objective, a meaningful comprehensive planning process must solicit and integrate the input of community citizens, government officials, and staff. The result will be a well-balanced comprehensive plan addressing the issues of today, the opportunities of tomorrow, and outlining the steps necessary to bring about positive change over the next twenty (20) years. The intent of the Woodland Comprehensive Plan Update process is to encourage as much public participation, open dialogue and communication as possible; seeking to build consensus among Woodland residents that will result in better government decisions and greater community agreement with those decisions.

Identification of Stakeholders

Talbot County and the communities of Talbot County appointed a leadership team at the beginning of the process. This group consisted of a combination of elected officials, and local citizens.

The leadership team developed a list of stakeholders from whom to solicit input regarding the comprehensive plan update (See Appendix for Leadership Team and Stakeholder Lists).

Citizen Notification and Public Meetings

Citizens were publicly notified on three separate occasions by public ads in the Talbotton New ERA newspaper. The first public hearing occurred on March 12, 2020, the second public notice occurred on August 20, 2020 notifying the public that the comprehensive plan is viewable on Wixsite at the following link:

<https://scoberson.wixsite.com/talbotcompplan> and to please comment. All five jurisdictions were available for review on the Wixsite site. In addition, a Talbot County Comprehensive Plan survey was developed and placed on Survey Monkey asking residents to respond to 25 questions about Talbot County,

Geneva, Junction City, Talbotton, and Woodland. The answer to those questions then became the basis for the continued development of the needs and opportunities for each jurisdiction.

The third public notice was advertised in the December 22, 2020 Talbotton New ERA notifying Talbot County Citizens of the final public hearing. Stakeholders, civic leaders, and other residents were contacted by email and by phone to assist in citizen involvement opportunities (See Appendix for Documentation).

Engaging Students

Due to COVID, we could not engage students in person. In order to get student comments, school administrators placed the Talbot County 2021 Comprehensive Plan survey on its website and asked students to reply.

Public Hearings

The State of Georgia Minimum Standards and Procedures for Local Comprehensive Planning in 2018 (O.C.G.A. 110-12-1) require that two (2) public hearings be held in association with the development of a community's Comprehensive Plan Update. The initial public hearing was advertised for March 12, 2020 to inform the public that the planning process is underway; and to go over the plan's timeline, planning process and needs and opportunities. That meeting was cancelled due to COVID concerns. I went to Talbotton to see if any citizens showed for the meeting but none did. (See Appendix for Documentation).

The final public hearing was publicly advertised for January 4, 2020 at the Talbot County Board of Commissioners Office. The purpose of the meeting was to allow citizens to review and comment on the Comprehensive Plan Update. The public hearing was cancelled due to Talbot County Board of Commission members testing positive for COVID.

Community Data, Needs and Opportunities

The Comprehensive Plan is intended to be a policy guide relating to land use, community infrastructure, housing and economic development activities. An analysis of data is included in this document to assist with plan development. This section includes information regarding population, community facilities, transportation, housing, economic development, natural and cultural resources and intergovernmental coordination. All planning documents included in the comprehensive plan were considered in the evaluation of the community policies and activities.

Population

The projected population for Woodland over the next twenty plus years is expected to continue to decline. However, the current trends of industrial development in northeast Muscogee County and continued utilization of Fort Benning could stabilize or slightly increase the population. It is believed that as the State of Georgia's Metropolitan areas continue to grow many residents will choose to relocate to smaller communities to experience a better quality of life and escape the bustle of the larger cities.

Table 1: Talbot County and Cities Population: 2000-2019

Community	2000	2010	2015	2019	Percent Change Since 2010
Geneva	107	105	101	96	8.6% decrease

Community Facilities

Community Facilities are the most direct connection between the citizens, the elected government, and the public servants. Often times, the loss or lack of service is the only time the public acknowledges the infrastructure exists.

Another aspect of community facilities is that new visitors often judge a community by the appearance or availability of services. An efficient system is both economical for existing residents and an incentive to attract new residents. If the public facilities are well-maintained and attractive, potential residents are encouraged to become part of the community and participate in the growth of the area.

Taxpayers also wish to have revenue utilized in the best possible way. They demand that the money is well spent and that they receive the services they demand. The following sections are descriptions of Woodland’s community facilities.

The city owns the following buildings: the current and former City Halls, the water tower and associated well buildings, the recreation center, the old jail, and the current and former fire departments.

The number one priority for the City of Woodland is to renovate the former City Hall and beautify the downtown.

Regarding critical facilities, the City of Woodland maintains a public water system that serves all residences and commercial establishments in the city. There is approximately seven miles of water lines in the city. The water system also extends approximately 1/2 mile outside the city limits to the east and one mile to the north. The water system was first installed in 1947; however the city conducted major improvements in 1973. The water is treated with a chlorine and fluoride at each well site.

The system includes three deep wells, however only two are in use. A well and tank are located on 7th Street Extension and on Martin Luther King Drive. Another well is located on Railroad Street. Although, the well is not operable at the 7th Street Extension site, this is the site of the city's only operable tank. This tank can hold up to 50,000 gallons. The city's wells pump 40 gallons per minute with average consumption being 40,800 gallons per day.

Table 3: Water & Sewer Service by City and County

City/County	Services Provided	Water Source	Number of Water Connections
Talbot County	Water	Ground	1,400

Identified Needs and Opportunities

Needs:

- Work with State and Regional agencies for funding to ensure adequate services
- Address known septic system failures
- Need a back-up on our water system with Talbot County.

Opportunities:

- Woodland needs to review and update/maintain their current water system, as needed.
- Assess available public space and determine what needs expansion, renovation or closure.
- Maintain and improve upon existing community facilities, both public and private.

Transportation

The City of Woodland is located in the northern section of Talbot County. Georgia Highway 36 runs easterly through the city limits, while GA HWY 41 provides north-south access in the city. There are a total of 7.12 miles of roads in the City of Woodland. Approximately, 4.79 miles of these roads are considered city streets, .72 are county roads, and 1.61 are state routes. Currently, there are no local road standards or regulations.

Woodland city streets are maintained by the city public works department. All streets, within the city limits are paved. The state maintains some drainage culverts on the state highways. Sidewalks are in need of repair in the downtown area and additional sidewalks are needed throughout the city. Second Street, Pleasant Hill Street and 7th Street were all identified as needing sidewalks. The existing street network is capable of handling current and future traffic volumes.

CSX provides freight rail service in Woodland. A public airport is located 22 miles away in Butler, Georgia. This facility offers a 5,002 ft. asphalt runway with lights, a second 2,400 ft. turf runway with no lights, aircraft tie down, and hanger. The nearest commercial air service is at Columbus Metropolitan Airport which is served by Delta. There are several grass air strips in the county. These are all privately owned and are used primarily for agricultural purposes.

The county operates a rural public transportation program which serves the entire county. Residents of Talbot County and each municipality make appointments to use this service. The county operates four vans, which are all handicap equipped.

Identified Needs and Opportunities

Needs:

- Maintaining existing paved roads and dirt roads.
- Storm water management issues at the four way intersection, Pye Circle, and Hawkins Road.
- Need for additional walking trail

Opportunities:

- Promote the Talbot Transit System.
- Availability of TE funds and grants to address road, drainage and sidewalk issues

Housing

Housing data was taken from several different sources, and it is important to recognize discrepancies in the data used. For the county, the most recent and best information came from the 2013 American Community Survey data. That level of data on housing was not available for the cities and ESRI Business Analyst estimates were used to access numbers in the cities.

The housing stock in Woodland consists of a mixture of traditional single family stick-built homes, multi-family units and manufactured and mobile home units. Higher density housing such as duplexes are also found within the city limits of Woodland. Woodland can support denser housing, because water is available. The number of housing units in Woodland has remained static over the last five years. The number of renter occupied units has decreased dramatically while the number of owner-occupied structures has grown. The vacancy rates have been climbing slightly, and with population losses, it will be reasonable to expect more vacancy in the future.

Manufactured or mobile home units continue to be an important source of affordable housing for many residents in Woodland. In Talbot County, as a whole, housing costs have been relatively low when compared to the region and the state. Talbot County's median housing value in 2013 was \$76,500, as compared to the State's median 2013 value of \$109,896. This 2013 housing value is up from \$51,300 in 2000. From a cost burden standpoint, Talbot County has a significant percentage of its population, both homeowners and renters, who pay more than 30% of their income on housing. In Talbot County, 42% of home owners are cost burdened and 40% of renters are cost burdened. This is also a statewide issue with 34.9% of owners and 53.4% of renters cost burdened in Georgia.

Identified Needs and Opportunities

Needs:

- Rehabilitation of dilapidated and abandoned structures spread throughout Woodland

Opportunities:

- Availability of affordable, and adequate housing.
- Increase home ownership opportunities.
- Add a DCA housing program link to the Woodland's home page.

Table 8: Talbot County and Municipality Characteristics

Economic Development

The economic development data used for this section was only available for the county as a whole and not available for the individual cities.

Talbot County has a median household income of \$29,689 with 2,805 households and a population of 5,434 over the age of 18 (ESRI Business Analyst, 2015).

Talbot County had a 2014 unemployment rate of 7.9% according to Georgia Department of Labor statistics. This is slightly better than the 8.4% unemployment rate for surrounding counties, but worse than the state and national rates of 7.2% and 6.2% respectively. There are a total of 2,834 people in the labor force in Talbot County. Most work in the service sector (43.1%), followed by the government sector (21.2%), retail trade (7.8%), manufacturing (7.8%) and mining (7.6%) (ESRI Business Analyst, 2015).

What is particularly unique about Talbot County is how many people travel out of the county daily to work. According to ESRI Business Analyst, the daily net out-migration from the county is 1,522 people. Only 16.6% of the labor force in Talbot County actually work in Talbot County. The vast majority, 81.1%, work outside the county. The remaining 2.3% work outside the state. This statistic has profound planning implications indicating that transportation to employment centers is critical and more effort needs to be put forth to attract employers to the county.

The Comprehensive Economic Development Strategy (CEDS) for the River Valley region notes three projects for Talbot County to attract employment. These include a Technology and Workforce Development Center, a series of Infrastructure improvements to the existing Industrial Park, and the Development of the Fall Line Industrial Park, including site work and infrastructure improvements.

According to the Georgia Department of Labor, the top 10 employers in Talbot County are Cedar Cove, Inc; Clifford Lee and Associates; ESP, Inc; Harold Hugh Oliver; Junction City Mining, LLC; Junction City Quarry; RCI Services, LLC; RL Bishop and Associates, Inc; Talbot State Bank; The Peoples Bank of Talbotton.

Retail Market Potential Analysis

The ESRI Retail Market Potential Analysis for Talbot County depicts various consumption patterns and buying trends of the population. Spending categories in this report include the purchase of apparel, automobiles, groceries, beverages, etc. Every categorical expenditure is ranked by a Market Potential Index (MPI) number which portrays the “relative likelihood of adults in the specified trade area to exhibit certain consumer behavior or purchasing pattern compared to the U.S.” (ESRI Business Analyst Retail Market Potential, 2015). In this report, an MPI of 100 is considered the U.S. average. An index ranking below 100 indicates that Talbot County residents spend on average less on those items than other U.S. residents. An index ranking above 100 indicates the opposite; that Talbot County residents spend more on those items. With an MPI of 124, Talbot County residents spent more on regular cola in the last six months than the average U.S. resident. With an MPI of 130, Talbot County residents spent more on cigarettes at a convenience store in the last 30 days than the average U.S. resident. With an MPI of 59, fewer Talbot County residents spent money on home mortgages. With an MPI of 66, fewer Talbot County residents have a retirement savings plan than the average U.S. resident. For the full ESRI Retail Market Potential Analysis for Talbot County, see the Appendix.

Job Tax Credit Programs

Talbot County is a Tier 1 County in regards to the Job Tax Credit Program as determined by the Georgia Department of Community Affairs (See Appendix for Maps). The Job Tax Credit Program (O.C.G.A. § 48-7-40.1) provides additional benefits to specified census tracts or additionally designated areas which are considered to be less developed or have a higher rate of poverty.

Identified Needs and Opportunities

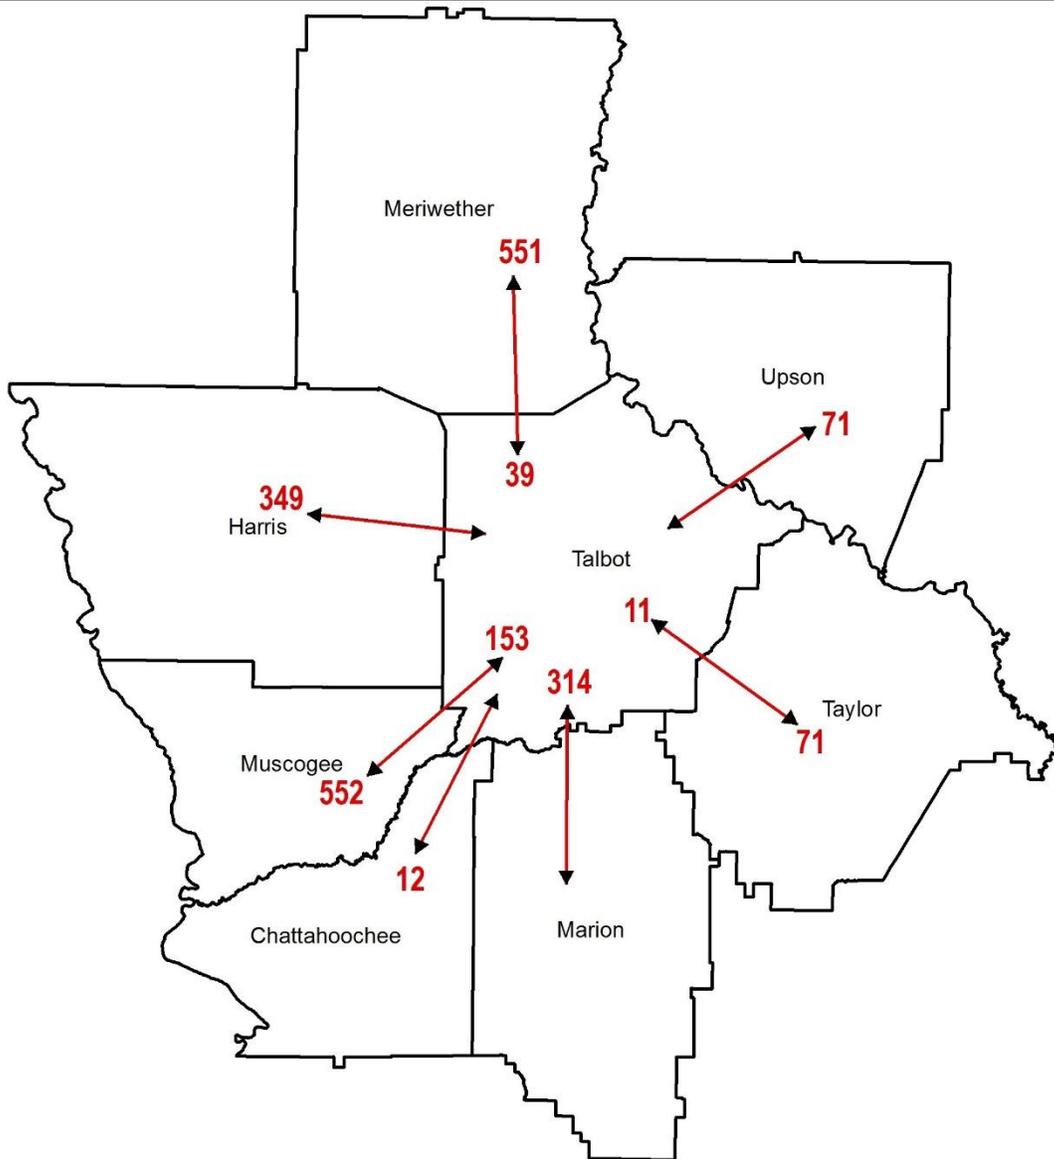

Needs:

- Add to job base
- Growth limited due to infrastructure limitations with Woodland water system
- More retail space with a larger food section

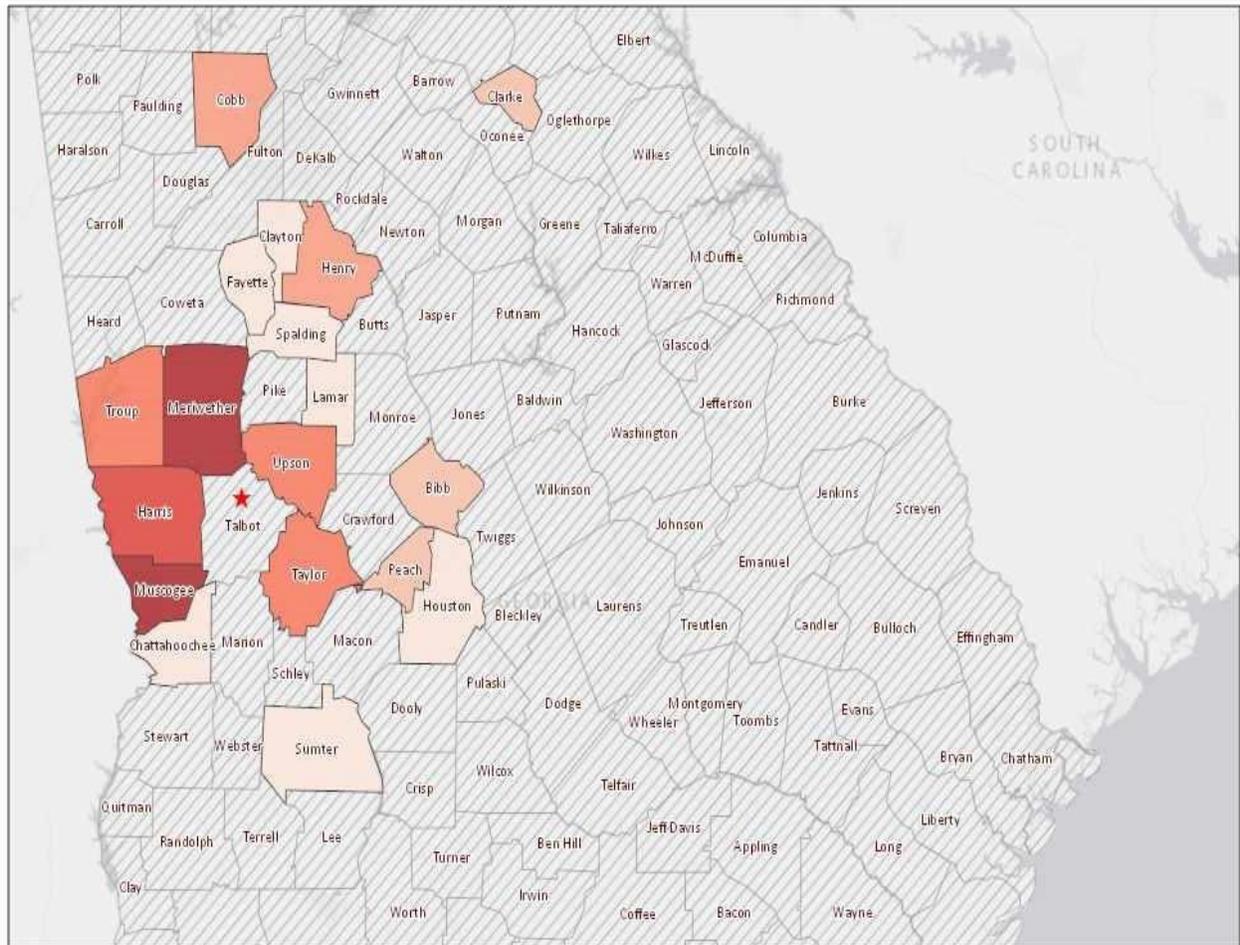

Opportunities:

- Promote the Talbot County transit system for transportation for access to job, work force training and educational opportunities.
- Continued development of Ian improving local education system.

Broadband Internet Service

Broadband, or high-speed internet, has become essential to business, education, healthcare, agriculture, and overall quality of life for Georgians. Unfortunately, approximately 16% (± 1.6 million), residing predominantly in rural communities, do not have access to broadband service. The General Assembly passed the Achieving Connectivity Everywhere (ACE) Act (SB 402) in 2018 to facilitate extension of broadband service to unserved/underserved areas; the purposes being to enable residents to participate fully in today's society and enjoy the many benefits of the technology.

The Act gave rise to the Georgia Broadband Deployment Initiative (GBDI), focused on partnerships and collaboration among government at all levels, and the private sector, to deploy fixed, terrestrial broadband services with minimum download speeds of 25 Mbps and upload speeds of at least 3 Mbps. The initiative will also assist communities apply for federal funding in support of broadband deployment.

Accurate mapping of broadband availability is critical to identifying unserved locations and implementing the initiative. This graphic represents areas of the county which are and are not served at the threshold speed. Populated census blocks that did not meet this definition (25 Mbps/3 Mbps service availability) are delineated as 'unserved'. Population and location data are from the 2010 Census and commercially available business listings (2014) with at least 3 employees and \$150,000 annual sales.

The data used to create the map depict where broadband service is available to at least ONE consumer (whether residential or business) in a census block. The map presents every location in the census block as having service, even if there is only one internet consumer in the census block. By this standard, the graphic may very well over-estimate broadband service availability, particularly in areas with large census blocks. Nevertheless, this map depicts those areas of the county where fixed, terrestrial broadband services are available with minimum threshold download speeds of 25 Mbps and upload speeds of at least 3 Mbps, and where the minimum service level will be targeted.

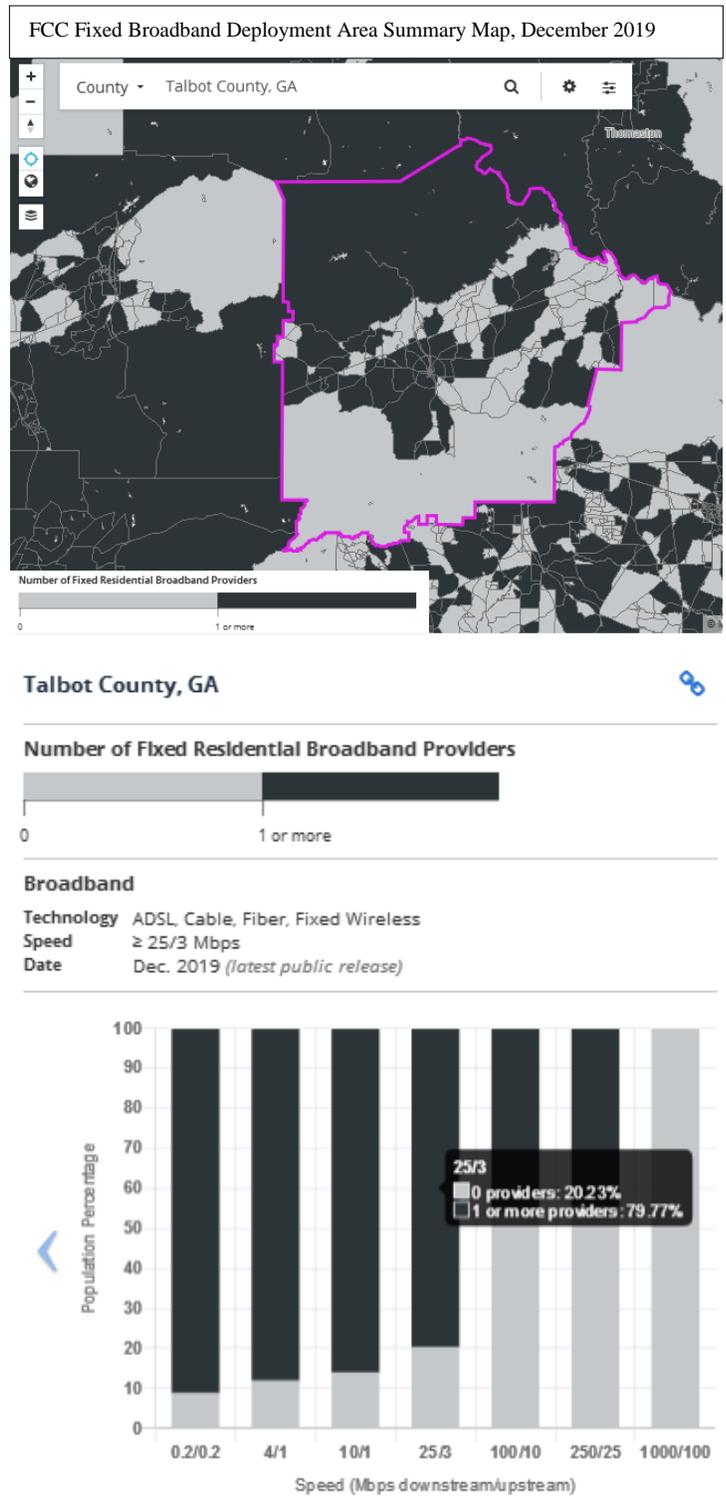

Talbot County has 758 Census Blocks with no broadband service, and 22% of the population lives in unserved areas. There are 2,659 locations with at least a single customer at the minimum service level.

The FCC Fixed Broadband Deployment Area Summary Map (December, 2019) shows two satellite providers offer 25Mbps/3Mbps residential service to 100% of Talbot County. Fixed terrestrial broadband (ADSL, Cable, Fiber, and Fixed Wireless) service at the minimum level is available to 0.52% from 3 or more providers, to 23.94% from 2 providers, and 55.32% from a single provider. However, 20.23% of the population has no fixed wireless residential broadband service at the 25Mbps/3Mbps level. Fixed wireless is internet communication between two sites or buildings without satellite or telephone infrastructure.

ADSL broadband service is available at the 25Mbps/3Mbps level to 58.61% of the population. However, 57.29% of the population has only a single ADSL service provider, and only 1.32% can choose between 2 providers. Cable service is available to 54.42% of the population at the minimum target speed, and 44.81% have 100Mbps/10Mbps and 250Mbps/25Mbps service available, all from a single provider. Cable internet service is provided over cable television infrastructure.

One provider offers fiber service to 1.21% at the 250Mbps/25Mbps and 100Mbps/10Mbps level. and fiber-optic communication is the transmission of voice and data via pulses of light through an optical fiber.

The chart shows the fraction of the population that has access to different numbers of residential broadband providers (the vertical axis) depending on the broadband speed (the horizontal axis) for the technologies selected to be displayed on the map. The majority of the county is rural and 78.65% of the rural area has at least one provider offering 25Mbps/3Mbps service. However, 21.35% of the rural population resides in areas that do not have even one provider.

With a so many of residents not served by the Initiative's minimum threshold service level or lacking a choice of providers, the community needs to be positioned to facilitate, and to take advantage of any opportunity to facilitate, enhanced service delivery.

2014 data from the Georgia Broadband Initiative as cited in 2018 Annual State IT Report, Georgia Technology Authority, parenthesis added

Identified Needs and Opportunities

Needs:

There is a critical need to expand broadband to unserved census blocks to maintain economic viability, educational attainment, employment opportunity and business development.

- Rural residents without highspeed internet are unable to access to information and educational opportunities
- Improved broadband capacity is needed to meet current and future needs of residents, businesses, and industry
- Coordination is needed between local broadband providers and local organizations to identify and address key issues
- Broadband infrastructure is needed along with all other utilities for industrial development

Opportunities:

Identify and address telecommunications deficiencies (Unserved or served below threshold)

- Coordinate efforts through public/private partnerships to provide comprehensive consistent, reliable and equitable broadband coverage
- Funding sources/partnerships to expand broadband access
- Broadband infrastructure can be incorporated in rights-of-way during road projects

Natural Resources

Woodland should expand appropriate infrastructures to meet development needs and minimize the effects on sensitive areas. The Natural and Cultural Resources of Woodland are fundamental components in the development of the city and should be included in the planning process. Woodland should develop educational programs to promote conservation and protection of important resources for all segments of society. The County, Woodland and the other municipalities should also strengthen and improve existing regulations regarding development in sensitive areas.

Water Resources Planning

Woodland realizes the importance of their location in the Upper Flint River Watershed and understands the significant role current and future development plays in water quality. Woodland through their Talbot County representative participated in the regional water planning efforts of the Upper Flint River Water Planning Council as mandated by state law in 2008 "to manage water resources in a sustainable manner to support the state's economy, to protect public health and natural systems, and to enhance the quality of life for all citizens." (*Upper Flint Regional Water Plan*, September 2011) Woodland continues to support the regional water planning process by maintaining an active presence on the regional water council and by making water policy issues a priority in government decisions.

Water Supply Watersheds

Woodland is located in the Lazer Creek Watershed. This watershed drains into the Flint River. This watershed provides habitat for an abundance of flora and fauna as well as areas critical for improving water quality (See Appendix for Maps).

Groundwater Recharge Areas

There are several areas which are considered to be Most Significant Groundwater Recharge Areas of Georgia in Talbot County. However, none of these are located in the City of Woodland (See Appendix for Maps).

Wetlands

The National Wetlands Inventory conducted by U.S. Fish and Wildlife Services discovered scattered wetlands in Woodland. However, none of the wetlands identified are considered to be significant. As a result, special protection measures for these wetlands are not needed at this time.

Woodland realizes the importance of wetlands and the many benefits of their protection include flood protection, water quality improvement, and recreation. The Georgia Environmental Protection Division has not required Woodland to adopt the Wetlands Protection Ordinance, and they have not done so (See Appendix for Maps).

Flood Plains

Flood plains are primarily found in the central section of the county and along the Flint River. Any development should be closely monitored in areas that are subject to flooding. Woodland has been mapped for flood prone areas under the Federal Emergency Management Agency program. As a result of identified flood hazards in the city limits, Woodland participates in the National Flood Insurance Program (See Appendix for Maps).

Shoal Spider Lilies along the banks of the
Upper Flint River

Soil Types

Talbot County's geology is unique in that it lies along the Fall Line, a transition zone between the Piedmont Crystalline Rock and the Coastal Plain Sedimentation Rocks. As a result, soil classifications found in the northern part of the county are completely different in permeability and usage than those found in the southern part of the county.

The primary soil classification for Woodland is Mountainburg. Mountainburg soil series is most often found in hills and mountainous areas. It is well-drained with a moderately rapid permeability (See Appendix for Maps).

Mineral Resources

Talbot County's location on the Fall Line also indicates a wide variety of rocks and minerals. Talbot County straddles two of Georgia's five physiographic provinces: the Piedmont Plateau and the Atlantic Coastal Plain. The Piedmont Plateau is composed of metamorphic and igneous crystalline rocks while the Atlantic Coastal Plain is underlain by sedimentary rocks including limestone, clays of various kinds, sand and gravel. Woodland is located in the Piedmont Plateau (See Appendix for Maps).

Slopes

Characteristics of Talbot County's topography are broad valleys and steep rolling hills. Woodland has slopes of up to 25% within the city limits. Erosion and sedimentation control measures should be implemented on slopes that are suitable for development in order to minimize adverse impacts (See Appendix for Maps).

Flint River

Protected River Corridors

The Flint River has been designated as a protected river corridor under the River Corridor Protection Act (O.C.G.A. 12-2-8). This river flows along the eastern boundary of the county. Land along the Flint River performs a variety of critical functions related to water resources which includes controlling floods, trapping sediments, filtering out toxins and excess nutrients, and supporting rich assortments of wildlife and plant species. Uncontrolled development along the Flint River Corridor could lead to contamination of the water, thus having an adverse impact on the fishing, recreation, and drinking quality of the water.

Prime Agricultural and Forest Land

There are no prime agricultural lands located in Woodland. However, prime farmland needs to be protected from encroachments. Although the farming sector is small, it does add to the local economy as well as the scenic quality of Woodland and Talbot County.

The forested areas of Woodland and Talbot County are both aesthetically and ecologically valuable in the provision of natural beauty, wildlife habitat, and the maintenance of water quality. The forestland provides a haven for wildlife. The hunting and fishing industries are increasingly important in the economic sector of the county. Woodland should require that forestry activities be consistent with best management practices established by the Georgia Forestry Commission in order to ensure the scenic and environmental value of this large land area.

Table 14: Talbot County Agricultural Trends

	Number of Farms	Total Acreage	Acres of Harvested Cropland	Percent Crops Harvested	Forestland Total Acreage	Acres of Harvested Timber
Talbot	90	33,885	2,040	-	209,700	50,200
River Valley Region	4,588	1,002,225	420,520	-	2,383,000	579,500
Georgia	42,257	9,620,836	3,609,788	-	24,634,900	4,733,000

Plant and Animal Habitats

The Georgia Department of Natural Resources tracks endangered flora and fauna. This information is available only on a county level.

Talbot County has many areas that support rare or endangered plants and animals. According to the Georgia Department of Natural Resources, there are several known endangered or threatened plant and animal species in Talbot County. State and federally designated endangered plant and animal species are listed in the following tables.

Table15: Talbot County Endangered Species

Major Park, Recreation and Conservation Areas

While there are no major park, recreation and conservation areas in Woodland, Talbot County has many recreational resources as a result of its location along the Pine Mountain Ridge and the Flint River. There are three Wildlife Management Areas (WMA's) and many scenic sites and viewsheds (See Appendix for Maps).

Wildlife Management Areas

The Big Lazer Creek WMA/PFA is located at the point the Big Lazer flows into the Flint River. The park totals 5,864 acres, with a 250-acre fishing lake on Gum Creek. The area is known for its deer, turkey, and small game populations as well as an abundance of bream, crappie and bass. Also located at the Big Lazer WMA are a 100-meter rifle and pistol ranges, and four primitive camping areas.

The Sprewell Bluff Outdoor Recreation Area and WMA is a 1,372 acre park located along the Flint River. It offers a number of amenities including a boat ramp, picnic area and three mile hiking trail. Recreational access extends to hunting and fishing. Shoal bass and cat-fish are abundant.

The Chattahoochee Fall Line Wildlife Management Area opened in 2014. The 10,800 acre tract extends from southern Talbot County into northern Marion County. This WMA offers opportunities for hiking, camping and birdwatching. It will also serve as a demonstration site for longleaf pine ecosystem restoration providing habitat for both game and non-game species of wildlife and endangered species like the red-cockaded woodpecker and the gopher tortoise.

Scenic Sites and Viewsheds

The natural resources available in Talbot County, combined with its rural character, result in many scenic sites and viewsheds. In addition, the numerous creeks and streams that traverse the county create hills and valleys, providing beautiful views for the visitors and residents of the county to enjoy.

There are many highways and roads in Talbot County that are considered scenic resources. Northern Talbot is an area characterized by rolling farmland, historic farmhouses, and barns scattered throughout the area. Roadways such as Pleasant Valley, Chalybeate Springs, Bonnie Hawkins, Oak Mountain Ridge, Po Bidy, Ellison Pound, and Hwy 208 showcase the pleasant pastoral scenery offered in the county. South of the Fall Line, Juniper Pond Road also has a tranquil landscape.

Big Lazer WMA in Talbot County.

Sprewell Bluff Outdoor Recreation Area.

Identified Needs and Opportunities

Need

- Make sure the public has adequate access to regulatory guidelines concerning natural resources.
- The community has one potentially contaminated brownfield/greyfield properties.
- Guide new development away from important natural resources
- Adopt appropriate site design guidelines for development on sensitive areas (e.g. steep slopes, wetlands)

Opportunities:

- Improve, enhance, and promote Woodland's natural resources
- RVRC has an active brownfield/greyfield program

Red Cockaded Woodpecker: Endangered species with habitat in Talbot County

Desmognathus aeneus: Endangered species in Talbot County

Cultural Resources

Woodland is the second largest community in Talbot County. In 2004-05 a comprehensive survey of Talbot County historic resources was completed. That survey identified 581 resources fifty years old or older in the county. From that survey, over 50% were identified as being individually eligible for the National Register of Historic Places. The 2004-05 survey also identified 10 areas with large concentrations of historic resources that would be eligible for the National Register of Historic Places as districts: Geneva, Junction City, Woodland, Ypsilanti, Po Biddy, Prattsburg, O'Neal, Flint Hill, and Box Springs.

As of January 2005, there are ten individual historic properties and one historic district listed in the National Register of Historic Places in Talbot County: the Frederick A. Bailey, House, the Newton P. Carreker House, the Lockhart--Cosby Plantation, the John Frank Mathews Plantation, the David Shelton House, the George W.B. Towns House, Weeks-Kimbrough House, The Elms, and the LeVert Historic District (Talbotton). Of these listed properties, only The Elms is in the vicinity of Woodland.

Woodland understands the significance of cultural resources and places high importance on conservation of the area's history, tradition, and culture through preservation. However, Woodland has not enacted a historic preservation ordinance or appointed a historic preservation commission; therefore, they are not eligible for the Certified Local Government program administered by the National Park Service nor are they eligible for the Historic Preservation Fund grant program offered through the State Historic Preservation Office. While an inventory of the historic sites, structures, and objects within the county's borders was completed in 2004-05, there is no government entity in Woodland to sponsor National Register listings, oversee the application for survey funds, maintain an inventory of local historic resources, and attempt to preserve endangered resources in the city. At present, the Historic Talbotton Foundation (a county-wide not-for-profit) and individual, private citizens carry out these goals.

Antebellum Plantation Home in Talbotton

Zion Episcopal Church

Ford Building, Chamber of Commerce Office

Identified Needs and Opportunities

Needs:

- Make sure the public has adequate access to the location of historic structures in Woodland
- Historic resource conditions are endangered and/or declining.
- Improve, enhance, and promote Woodland's cultural resources.

Opportunities:

- Improve, enhance, and promote Woodland's cultural resources.
- The public has access to the location of historic structures in Woodland

Intergovernmental Coordination

Coordination between jurisdictions provides local governments an opportunity to inventory existing communication mechanisms and processes that have profound impacts on the success of implementing local government's goals and objectives.

Opportunities exist between neighboring jurisdictions such as Harris County, Marion County, Chattahoochee County, Muscogee County, Taylor County and Fort Benning. In order to reduce issues and take advantage of the potential opportunities, Woodland should maintain open communication and dialogue with all neighboring jurisdictions.

Furthermore, Woodland should strongly consider the impact of regional environmental conservation issues related to the longleaf pine ecosystem and endangered habitats of the gopher tortoise and red cockaded woodpecker. Partnering with neighboring jurisdictions to ensure conservation of natural resources can spur growth in the outdoor recreation industry and could be a powerful economic engine for local communities.

The city should also encourage the sharing of resources among local governments. This will foster fiscal responsibility and ensure proper execution of needed improvements.

City officials must be actively involved in regional planning activities with the River Valley Regional Commission and other regional organizations and entities. Confirming that all elected officials, government staff, authority members and other appointed officials are certified by the appropriate agencies according to state law will mean that local people have access to the latest information, tools and best management practices that benefit the community.

Lastly, the Service Delivery Strategy, Pre-Disaster Mitigation Plan and Comprehensive Plan should be updated regularly. The SDS update will be completed in conjunction with this update of the Comprehensive Plan. The current Pre-Disaster Mitigation Plan is also underway with an estimated completion date of October 2015.

Identified Needs and Opportunities

Needs:

- Communicate with the jurisdictions in Talbot County and Merriweather County
- Actively participate in regional planning efforts
- Need a back-up on our water system with Talbot County.

Opportunities:

- The Service Delivery Strategy will need to be updated prior to October 31, 2027
- Participate in the semi-annual Tribal Consultation facilitated by Fort Benning.

River Valley Regional Council Meeting

Existing Land Use

The proper mix of land uses ensures that a community is both viable and sustainable. It is a daunting task to limit new development in order to maintain a certain type of lifestyle. No one really wishes to limit growth at the expense of potential income. At the same time, no one desires to have a scene of the old west boomtowns, based solely on the production of certain products and wealth, without regard for tomorrow. Many difficult decisions must be made concerning how a community desires to encourage and improve the economic environment while creating a safe, healthy living environment for the citizens.

Often times, the balance between the residents and business community are at odds. The community decision makers are asked to weigh the past, present, and future desires and demands when making choices about the uses of the land within a jurisdiction, neighborhood, or even a parcel.

The following section includes the results of how the decision makers of Woodland would like to see their communities use the land. The information reflects zoning decisions, ordinances, and public input.

Existing Development Patterns

An analysis of existing development patterns provides an understanding of how land is used at a specific point in time. An existing land use map is the first step in gaining an understanding of not only what types of land uses exist and where they are but also how they interact. The purpose of this section is to map and review existing land use in Woodland, look at areas in need of attention, areas in need of protection, and areas with development opportunities.

Woodland is the most densely populated municipality in Talbot County. The city has a good mix of land uses. Residential housing is spread throughout the town. Multi-family housing is located primarily in the southern section of town. There are roughly 110 acres of residential land in the area. There are 10 acres of commercial uses. Institutional structures include four churches and three cemeteries while public uses are two public parks, post office, and government buildings. Education/public administration/healthcare land occupies almost 7 acres of land. Park and recreational land exists on Pleasant Hill Street in the east section of town, and one facility south of the city limits covers 6.8 acres. Agricultural/forestry land covers 232.17 acres or 46% of the land in Woodland. Much of this land is vacant or undeveloped. (See Existing Land Use Classification Table for acreages).

Table 17: Existing Land Use Definitions Table

Existing Land Use	Definition
Residential	The predominant use of land within the residential category is for single-family dwelling units organized into general categories of net densities.
Multi-Family Residential	The predominant use of land within the residential category is for duplex and multi-family dwelling units organized into general categories of net densities.
Agriculture/Forestry	This category is for land dedicated to farming (fields, lots, pastures, farmsteads, specialty farms, livestock production, etc.), agriculture, commercial timber or pulpwood harvesting.
Commercial	This category is for land dedicated to non-industrial business uses, including retail sales, office, service and entertainment facilities, organized into general categories of intensities. Commercial uses may be located as a single use in one building or grouped together in a shopping center or office building. Communities may elect to separate office uses from other commercial uses, such as retail, service or entertainment facilities.
Industrial	This category is for land dedicated to manufacturing facilities, processing plants, factories, warehousing and wholesale trade facilities or other similar uses. This category includes landfills.
Mining	This category is for land dedicated to mining or mineral (solids, liquids, and gases) extraction activities or other similar uses.
Parks/ Recreation/ Conservation	This category is for land dedicated to active or passive recreational uses. These areas may be either publicly or privately owned and may include playgrounds, public parks, nature preserves, wildlife management areas, national forests, golf courses, recreation centers, land in a land trust or similar uses.
Public/Institutional	Community facilities excluding utilities. This category includes certain state, federal or local government uses and institutional land uses. Examples include government building complexes, police and fire stations, libraries, prisons, post offices, schools, military installations, colleges, churches, cemeteries, hospitals, etc.
Transportation/ Communication/ Utilities	This category includes such uses as major transportation routes, public transit stations power generation plants, railroad facilities, radio towers, cell towers, telephone switching stations, airports, port facilities or other similar uses.
Undeveloped/ Vacant	This category is for lots or tracts of land that are served by typical urban public services (water, sewer, etc.) that have not been developed for a specific use or were developed for a specific use that has been abandoned.

Table 18: Existing Land Use Table City of Woodland

Woodland, Georgia	Acreage
Agriculture/Forestry	232.17
Commercial	9.73
Public/ Institutional	6.8
Industrial	10.3
Mining/ Extraction	0
Residential	104.71
Multi-Family Residential	5.43
Rural Residential	0
Transportation/ Communication/ Utilities	67.98
Parks/ Recreation/ Conservation	1.12
Undeveloped/Vacant	66.02
Total	504.26

Identified Needs and Opportunities

Needs:

- Identify and promote infill development opportunities and locate substandard structures.
- Update Woodland’s land development code

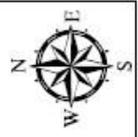

Opportunities:

- Reserve land for industrial and commercial growth. Include adequate space for the growth of employment-related uses, within the Future Land Use Plan/ Development Maps.
- Protect natural resources within developments. Promote the use of the conservation/ cluster subdivision development.

Woodland, Georgia
Existing Land Use

- Existing Land Use Classifications**

 - Industrial
 - Parks/Recreation/Conservation
 - Public/Institutional
 - Transportation/Communication/Utilities
 - Undeveloped/Vacant

Future Land Use

An analysis of probable future development patterns is based on an understanding of how local officials and citizens want land used. The first step in this process is the development of a future land use map. Such a map allows analysis of existing and potential resources, current and possible land uses and where and how they may interact. Due to the decrease in population, there should be only limited pressure placed on Woodland's infrastructure and public facilities caused by future development. Woodland has the community facilities and infrastructure capacity to handle future needs.

This section will map and review proposed land use in Woodland, look at areas in need of attention, areas in need of protection, and areas with development opportunities.

Areas Requiring Special Attention

Significant Natural Resources

The natural environment places certain opportunities and constraints on the way land is used. Soil conditions, slopes, flood frequency and wetlands all affect where development can safely and feasibly occur. Talbot County contains several significant environmental features including floodplains, groundwater recharge areas and a protected river corridor.

Woodland is located in the Lazer Creek Watershed. This watershed provides habitat for an abundance of flora and fauna as well as areas critical for improving water quality.

Woodland has been mapped for flood prone areas under the Federal Emergency Management Agency program. As a result of identified flood hazards in the city limits, Woodland participates in the National Flood Insurance Program. Any development in flood prone areas should be closely monitored for vulnerability to flooding.

The Mountainburg soil series found in Woodland is generally considered adequate for development.

Significant Cultural Resources

There are many cultural resources in Woodland. These resources add to the quality of life for all Woodland residents. A survey completed in 2005 identified 581 resources fifty years old or older in the county. From that survey, over 50% were identified as being individually eligible for the National Register of Historic Places. The 2004-05 Survey also identified 10 areas with large concentrations of historic resources that would be eligible for the National Register of Historic Places as districts: Geneva, Junction City, Woodland, Ypsilanti, Po Bidy, Prattsburg, O'Neal, Flint Hill, and Box Springs.

Woodland understands the significance of cultural resources and place high importance on conserving the area's history, tradition, and culture through preservation. The Woodland City Council prioritizes the conservation of the area's history, tradition, and culture. They also recognize the benefits of preservation are far-reaching, and can lead to increased heritage tourism, growth in small businesses because of available locations, and a sense of community and tradition.

Table 19: Future Land Use Definitions Table Woodland

Future Land Use	Definition
Single-Family Residential	The Single-Family Residential category is intended to provide for low-density residential areas consisting of detached single-family dwellings surrounded by yards that provide a desirable and healthy environment.
Multi-Family Residential	The multi-family residential category is intended to accommodate medium to higher density multi-family and single-family residential development in areas served by utilities, facilities and services necessary to result in efficient, but not over-crowded conditions. Intensities of land development should be limited to avoid congestion of building and traffic and to provide adequate open space for a healthful environment.
Agriculture/Forestry	Located within the City of Woodland are several areas that contain soils highly suitable for the cultivation of agricultural crops and forests. Land in the agricultural district constitutes a valuable natural resource, and protection is in the public's interest. Agriculture and forestry are major components of the local economy, and they remain viable economic enterprises if that land is held in relatively large tracts (5 acres to hundreds of acres).
Commercial	The objective of this district is to encourage unified groupings of commercial uses. This will include intensive commercial, financial, professional, government and cultural activities scaled to the pedestrian needs. It will also include clusters of retail and personal service outlets that provide for the daily needs and convenience of residents.
Industrial	The purpose of this category is to provide and reserve suitable areas for a variety of industrial uses including manufacturing, wholesale trade and distribution activities. These uses are intended to be located in areas with relatively level topography, adequate water and sewerage facilities and access to arterial streets and highways. This category is intended to permit only those industrial and other uses that will not generate excessive noise, particulate matter, vibration, smoke, dust, gas, fumes, odors, radiation and other nuisance characteristics.
Parks/ Recreation/ Conservation	This category is for land dedicated to active or passive recreational uses. These areas may be either publicly or privately owned and may include playgrounds, public parks, nature preserves, wildlife management areas, national forests, golf courses, recreation centers, land in a land trust or similar uses.
Public/Institutional	Community facilities excluding utilities. This category includes certain state, federal or local government uses and institutional land uses. Examples include government building complexes, police and fire stations, libraries, prisons, post offices, schools, military installations, colleges, churches, cemeteries, hospitals, etc.
Transportation/ Communication/ Utilities	This category includes such uses as major transportation routes, public transit stations power generation plants, railroad facilities, radio towers, cell towers, telephone switching stations, airports, port facilities or other similar uses.

Areas Where Development is Likely to Occur or Areas Where Development May Outpace Availability of Facilities and Services

Talbot County and its cities have experienced population decline over the last thirty years. Thus, growth pressures are currently minimal. Growth in Talbot County is most likely to occur in the municipalities and on the fringes of the municipalities with access to water and direct access to state routes.

In Woodland development is most likely to occur in the existing downtown, around Main Street and U.S. Hwy 41 and the portion of U.S. Hwy 41 adjacent to Pleasant Valley Road. Many residential areas have vacant lots ripe for development: along U.S. Hwy 41 at 3rd, 4th and 7th Avenues; also the neighborhoods off Pleasant Hill Street (See Appendix for Maps).

Areas with Significant Infill Development Opportunities

These areas are portions of the city that are likely to experience infill development in the coming years. Within municipalities, infill development should be concentrated in the existing downtowns. This development will be in the form of new businesses and additional retail development. Prominent intersections also provide prime areas in which vacant lots could be developed into new businesses. Infill development in established neighborhoods is also appropriate. Building homes on vacant lots within existing neighborhoods will increase the density of the area, saving the cities the cost of expanding and maintaining infrastructure often associated with new neighborhood developments (See Appendix for Maps).

There are many portions of Woodland in which both development opportunities and infill could occur. New development would most likely occur in the areas surrounding the existing downtown, around Main Street and U.S. 41, in addition to a portion of U.S. 41 adjacent to Pleasant Valley Road. In addition, many of the residential areas could easily become more populated with infill development. Neighborhoods along U.S. 41 and 3rd and 4th Street and 7th Avenue would be areas where this type of development would be encouraged. Also, the neighborhoods off of Pleasant Hill Street, including Lighting Street, 4th, 3rd and 2nd Avenue have potential for infill development.

Brownfields

In general terms, brownfields are abandoned or underused industrial or commercial properties where redevelopment is complicated by actual or perceived environmental contamination. There is no requirement on size, location, age or past use for brownfields. Some examples of brownfields include abandoned gas stations and unused former manufacturing plant.

Some issues involving brownfields include the potential to cause harm to the population and the environment, reduction in employment opportunities and tax revenue, increase illegal dumping and graphite and reduction in the property value for the surrounding area. Redeveloping brownfields can restore property to productive use, increase property values, improve public health and the environment, utilize existing public infrastructure, and increase job opportunities as well as local tax revenues.

Woodland has one potential brownfield, located off of Pleasant Valley Road.

Areas of Disinvestment

All communities have areas of disinvestment or areas in need of improvement and Woodland is no different. As these areas grow and develop, market forces will usually lead to improvements within them. However, in some cases, a public/private partnership will be needed to facilitate the necessary improvements. Within Woodland there are several areas that could benefit from growth. These are mostly residential areas that are characterized by manufactured or stick built homes that are in great need of rehabilitation. Overgrown vegetation and poor maintenance of the street and drainage conditions often exacerbate the perception of blight.

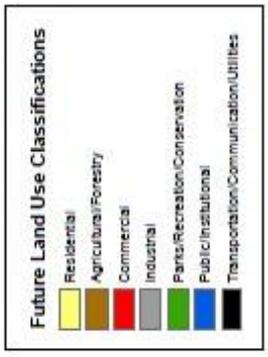

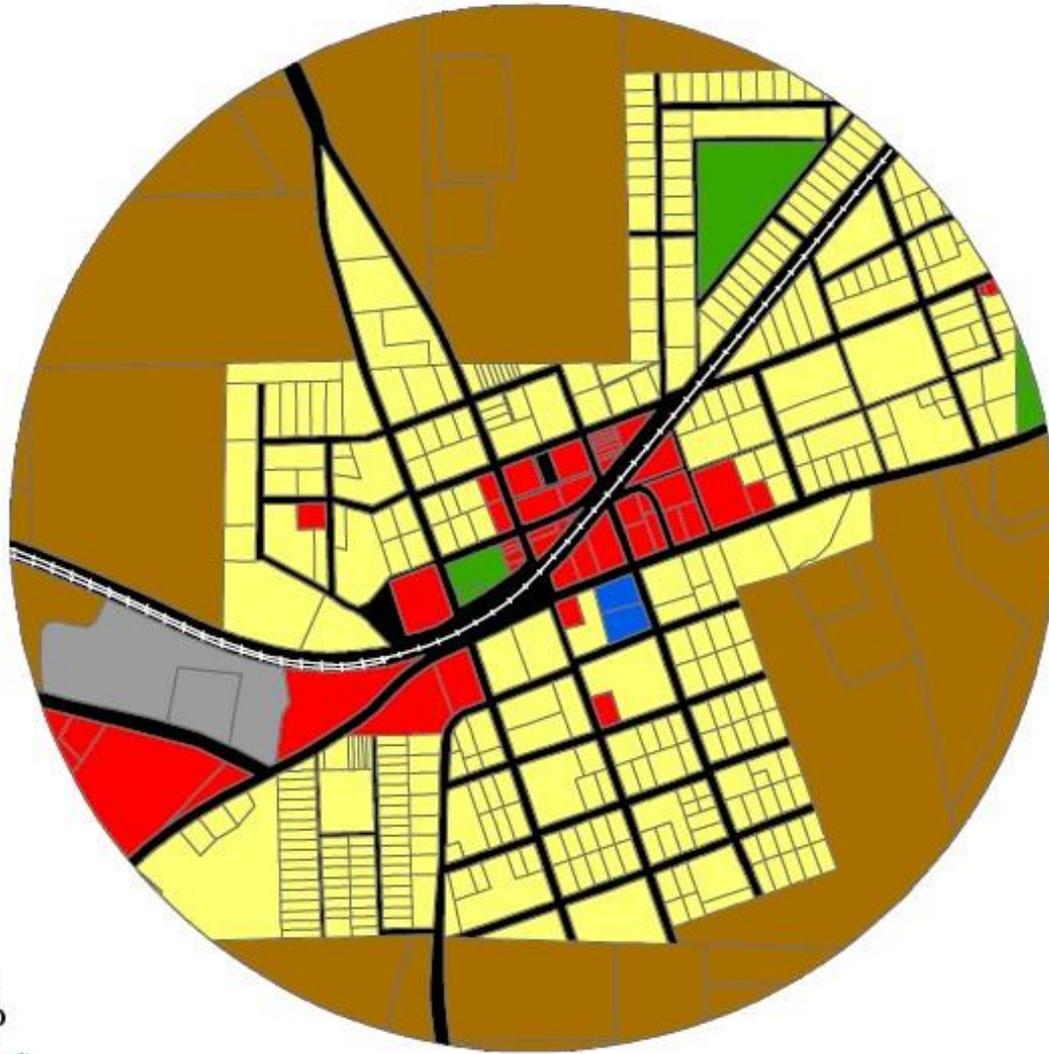

In Woodland, the areas of disinvestment and those needing redevelopment are scattered throughout the town. However, larger sections of houses needing improvement are located off of Main Street and 2nd Street, including 3rd Avenue and 1st Avenue. Also areas located to the west of U.S. 41 and north of Hawkins Road are areas that would benefit from redevelopment activities.

In addition to areas of physical disinvestment, the county as a whole, along with the municipalities suffer from poverty levels all above the national average, some significantly so, as indicated by figures taken from the 2010 Census. According to the U.S. Census Bureau's American Factfinder, 35.7.3% of Woodland's residents are living below the poverty level, compared to the state's average of 18.2%. By reinvesting in communities and creating a better quality of life through jobs, educational opportunities and recreational options these numbers can be reduced, and help promote the long term development of Woodland and Talbot County.

Community Needs and Opportunities

Quality Community Objectives

Woodland has reviewed the Georgia Department of Community Affairs' Quality Community Objectives. These objectives were adopted to guide this Comprehensive Plan Update and the future growth, development and redevelopment of Woodland. These objectives will assist community leaders in making local government decisions that affect the county's future land use patterns, environmental and historical resources, and economic development. These objectives will provide the framework needed in order to make well-informed decisions.

Economic Prosperity

Encourage development or expansion of businesses and industries that are suitable for the community. Factors to consider when determining suitability include job skills required; long-term sustainability; linkages to other economic activities in the region; impact on the resources of the area; or prospects for creating job opportunities that meet the needs of a diverse local workforce.

Resource Management

Promote the efficient use of natural resources and identify and protect environmentally sensitive areas of the community. This may be achieved by promoting energy efficiency and renewable energy generation; encouraging green building construction and renovation; utilizing appropriate waste management techniques; fostering water conservation and reuse; or setting environmentally sensitive areas aside as green space or conservation reserves.

Efficient Land Use

Maximize the use of existing infrastructure and minimize the costly conversion of undeveloped land at the periphery of the community. This may be achieved by encouraging development or redevelopment of sites closer to the traditional core of the community; designing new development to minimize the amount of land consumed; carefully planning expansion of public infrastructure; or maintaining open space in agricultural, forestry, or conservation uses.

Local Preparedness

Identify and put in place the prerequisites for the type of future the community seeks to achieve. These prerequisites might include infrastructure (roads, water, sewer) to support or direct new growth; ordinances and regulations to manage growth as desired; leadership and staff capable of responding to opportunities and managing new challenges; or undertaking an all-hazards approach to disaster preparedness and response.

Sense of Place

Protect and enhance the community's unique qualities. This may be achieved by maintaining the downtown as focal point of the community; fostering compact, walkable, mixed-use development; protecting and revitalizing historic areas of the community; encouraging new development that is compatible with the traditional features of the community; or protecting scenic and natural features that are important to defining the community's character.

Regional Cooperation

Cooperate with neighboring jurisdictions to address shared needs. This may be achieved by actively participating in regional organizations; identifying joint projects that will result in greater efficiency and less cost to the taxpayer; or developing collaborative solutions for regional issues such as protection of shared natural resources, development of the transportation network, or creation of a tourism plan.

Housing Options

Promote an adequate range of safe, affordable, inclusive, and resource efficient housing in the community. This may be achieved by encouraging development of a variety of housing types, sizes, costs, and densities in each neighborhood; instituting programs to provide housing for residents of all socio-economic backgrounds; or coordinating with local economic development programs to ensure availability of adequate workforce housing in the community.

Transportation Options

Address the transportation needs, challenges and opportunities of all community residents. This may be achieved by fostering alternatives to transportation by automobile, including walking, cycling, and transit; employing traffic calming measures throughout the community; requiring adequate connectivity between adjoining developments; or coordinating transportation and land use decision-making within the community.

Educational Opportunities

Make educational and training opportunities readily available to enable all community residents to improve their job skills, adapt to technological advances, or pursue life ambitions. This can be achieved by expanding and improving local educational institutions or programs; providing access to other institutions in the region; or coordinating with local economic development programs to ensure an adequately trained and skilled workforce.

Community Health

Ensure that all community residents, regardless of age, ability, or income, have access to critical goods and services, safe and clean neighborhoods, and good work opportunities. This may be achieved by providing services to support the basic needs of disadvantaged residents; instituting programs to foster better health and fitness; or providing all residents the opportunity to improve their circumstances in life and to fully participate in the community.

Community Vision and Policies

Woodland Vision Statement

The vision for Woodland is to provide a quality residential living environment while preserving the agricultural community. The Woodland City Council desires a well-balanced community for Woodland residents. Woodland will consist of quality residential, commercial, institutional and recreational development with well-maintained and efficient utility infrastructure. This vision will be supported by the following planning goals:

- Maintain the desired character of the city through open space preservation, while providing sufficient designated growth areas to accommodate expected demand for business and residential growth by utilizing traditional neighborhood development principles and conservation subdivision design techniques.
- Seek sufficient and desirable growth by attracting businesses that will balance employment needs with retail and service offerings to meet the needs of citizens.
- Encourage residential development that meets the housing needs of citizens as well as providing a range of housing types and styles.
- Ensure that development is done in a manner that serves to preserve environmentally sensitive features such as floodplains, wetlands, groundwater recharge areas, streams, view sheds, and natural topography.
- Ensure that a fiscal balance is maintained between residential and commercial development and available public services and facilities to include utilities, recreational areas, and general government services needed to accommodate planned growth.
- Preserve the city's historic and cultural resources that provide valuable information about the proud history of the city and a sense of place for its residents. Use the history, beauty, charm, and recreational opportunities in the city to attract visitors.
- Develop a well-planned, efficient, effective, and safe transportation system that meets local and regional needs.
- Partner with the County and neighboring jurisdictions to complete projects, accomplish goals and promote fiscal responsibility that benefit the city, county and region.

Community Goals and Policies

Woodland has adopted the following policies to provide ongoing guidance and direction to officials for making decisions consistent with achieving Woodland's Vision and addressing identified Needs and Opportunities. These policies will guide Woodland in future development decisions. The framework for decisions to be made about the future development of Woodland by investors and public officials will be provided by these policies. This section is organized with a broad community goal statement followed by policies for guidance.

ECONOMIC DEVELOPMENT

Goal: Promote and maintain a stable economic environment for Woodland.

OBJECTIVE

Support and encourage the growth of existing business and industry in Woodland.

POLICIES

- Partner with the County Extension Office in encouraging, promoting and aiding the farming community.
- Continue to endorse support programs for timber and farming enterprises.
- Partner with the Talbot County Chamber of Commerce in conducting periodic checks with local business and industry to track trends in business growth, reduction or changes.

OBJECTIVE

Encourage and support the diversification of the economic base in Woodland.

POLICIES

- Support the Talbot County Chamber of Commerce and Talbot County Development Authority through active participation and financial contributions.
- Support efforts of Talbot County Chamber of Commerce to work with developers to construct additional housing that will support expansion of the economic base.
- Identify and encourage those businesses that are compatible with Woodland policies and its resources to locate within the county.
- Partner with the Talbot County Chamber of Commerce and Talbot County Development Authority to attract clean industries and businesses that are environmentally friendly and enhance the quality of life for all residents of Woodland.
- Encourage and support the creation of an Entrepreneur Program to develop additional locally owned businesses which are compatible with the resources of Woodland are environmentally friendly and enhance the quality of life for Woodland residents.
- Expand and support existing adult literacy programs available to Woodland.
- Provide efficient transportation services to area jobs, technical colleges and universities.

ECONOMIC DEVELOPMENT

Goal: Promote and maintain a stable economic environment for Woodland (cont.).

OBJECTIVE

Encourage and support the diversification of the economic base in Woodland.

POLICIES (cont.)

- Develop and enforce land use controls to provide for better utilization of Woodland's economic development potential.
- Continue development of necessary infrastructure to enable local business and industry to expand and to market to out-of-area enterprises.
- Develop a tourism program to attract tourist related industry and enterprises.

OBJECTIVE

Develop and support training and educational programs to prepare the Woodland population for the work environment.

POLICIES

- Support the continued expansion of the vocational and technical programs offered at the local high school.
- Cooperate and support the workforce development initiatives promoted by the Valley Partnership and the River Valley Regional Commission.
- Encourage increased frequency of computer and Adult Education/Vocational Education classes.
- Expand broadband infrastructure and access to technology.

LPN student training

Technical College student learning HVAC repair

ECONOMIC DEVELOPMENT

Goal: Promote and maintain a stable economic environment for Woodland (cont.).

OBJECTIVE

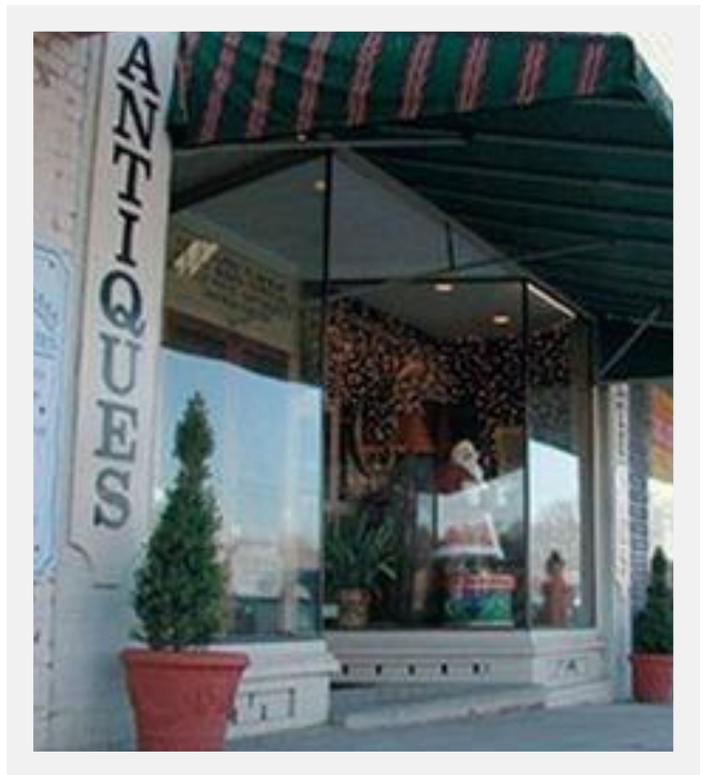

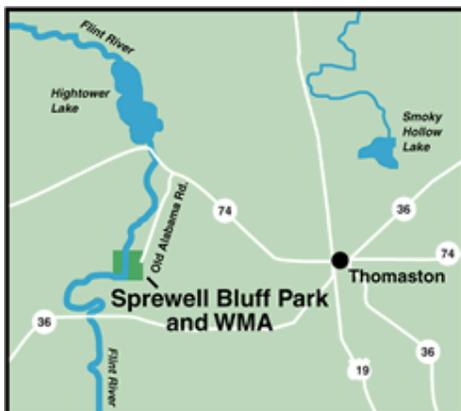

Increase tourism potential of Woodland.

POLICIES

- Support and encourage the establishment of tourist related businesses, such as antique shops, “bed and breakfast” inns, retail shops with locally grown and made merchandise and farm-to-table restaurants in the community.
- Promote and expand cultural heritage driving tours around the county.
- Encourage eco-tourism and outdoor recreation pursuits in conjunction with the Flint River and the WMA’s.
- Partner with Talbot County, Geneva, Junction City and Talbotton to develop a county-wide Tourism Plan.

Example: Mountain Bike Trail

Example: Antique Store

NATURAL AND CULTURAL RESOURCES

Goal: Increase Public awareness of natural resources and conservation.

OBJECTIVE

Broaden efforts to educate public and elected or appointed officials.

POLICIES

- Partner with the Chattahoochee Fall Line Conservation Partnership and other organizations that focus on natural resources conservation to develop educational programs for property owners and local schools.
- Inform elected and appointed officials of local conservation activities.
- Identify and protect significant natural resources.
- Recognize developers who present projects incorporating conservation efforts with incentives.
- Encourage and assist the formation of private citizens groups into conservation monitoring / promotion organizations.
- Identify conservation organizations and establish lines of communication/education.

OBJECTIVE

Market significant natural resources through a tourism program.

POLICIES

- Identify and enhance natural resources and scenic views.
- Coordinate efforts with other organizations with shared interests
- Designate and/or acquire those natural resources considered to be significant.

Example of signage for significant natural resources and sites

NATURAL AND CULTURAL RESOURCES

Goal: Protect and enhance Woodland natural places so they may exist into the future.

OBJECTIVE

Identify natural resources and keep information current.

POLICIES

- Share information with state and regional agencies and organizations to insure inclusion in planning activities.
- Consider designation of conservation districts.

OBJECTIVE

Support the conservation of natural resources.

POLICIES

- Assist in securing grant funds.
- Make property owners aware of state and federal financial incentives for natural resource conservation.
- Develop local/regional financial incentives for conservation such as grant funds, land trust, revolving loan funds, and tax abatements.
- Develop local designation and award programs to encourage good conservation practices.

NATURAL AND CULTURAL RESOURCES

Goal: Increase public awareness of historic preservation and historic resources.

OBJECTIVE

Broaden efforts to educate public and elected/appointed officials.

POLICIES

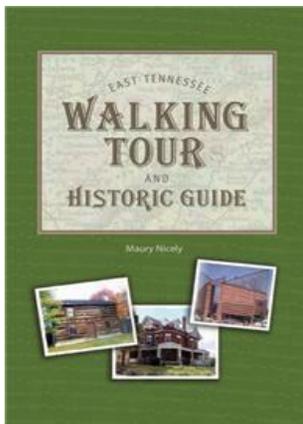

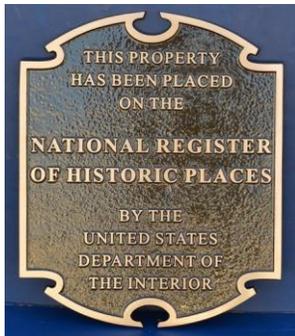

- Develop heritage education program in local schools.
- Inform elected and appointed officials of local historic preservation activities.
- Identify and protect historic properties.

OBJECTIVE

Market historic places with heritage tourism program.

POLICIES

- Protect and enhance historic properties.
- Coordinate efforts with other organizations with shared interests.
- Nominate eligible properties to National Register of Historic Places.

Kids experiencing heritage education class.

NATURAL AND CULTURAL RESOURCES

Goal: Protect and enhance Woodland’s historic places so they may exist into the future.

OBJECTIVE

Identify historic resources and keep information current.

POLICIES

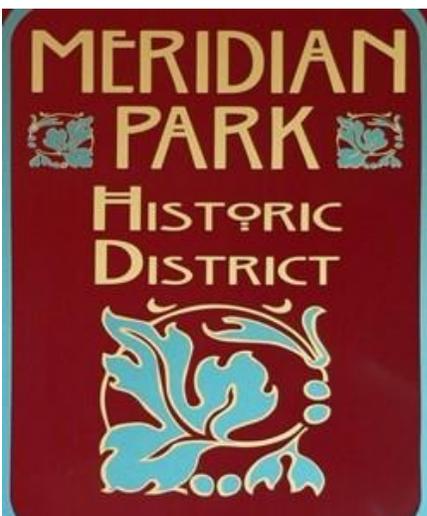

- Share information with state and regional agencies and organizations to ensure inclusion in planning activities.
- Nominate eligible properties to the National Register of Historic Places.
- Support retention of Regional Historic Planner Program.
- Consider designation of conservation districts.

OBJECTIVE

Support rehabilitation of historic properties.

POLICIES

- Assist in securing grant funds for eligible properties.
- Make property owners aware of state and federal financial incentives for rehabilitation of buildings on the Georgia Register and the National Register of Historic Places.
- Develop local/regional financial incentives for preservation such as facade grants, land trust, revolving loan funds, and tax abatements.

Example of identification signage for historic areas

Workers Restoring Historic Windows

COMMUNITY FACILITIES

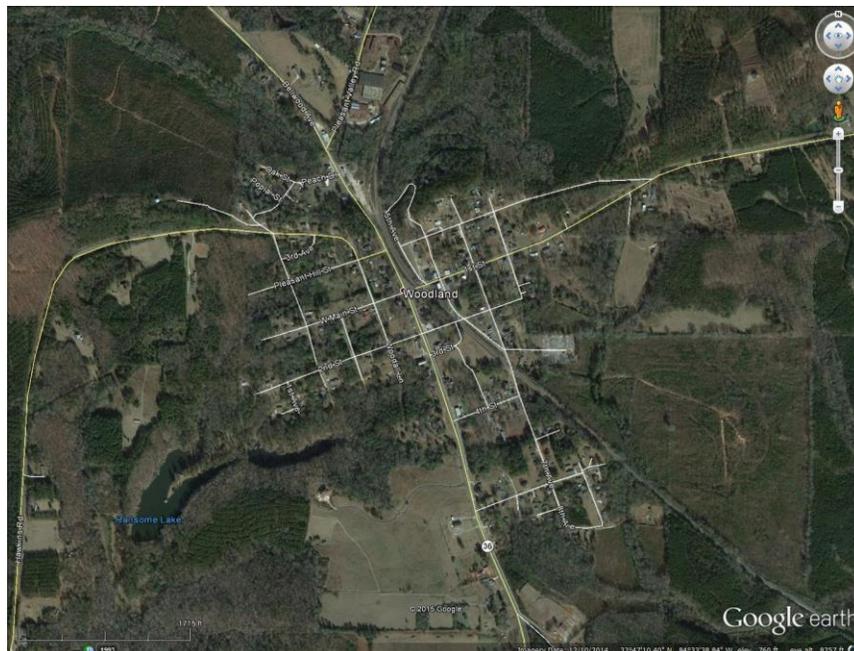

Goal: Maintain an efficient and reliable transportation system.

OBJECTIVE

Improve the street system to promote safe, efficient and well maintained access to property in the city and on through routes for local and regional travelers.

POLICIES

- Provide for the safe, efficient movement of people, goods and services in and around the City of Woodland.
- Minimize conflicts between local and through traffic (especially 18-wheel trucks) using every available means.
- Plan for design and establish an appropriate landscaping system for public right-of-way citywide to beautify the city and create and maintain clear paths of vision and movement along all traffic arteries.

Aerial View of Woodland

COMMUNITY FACILITIES

Goal: Maintain an efficient, safe and reliable public water system.

OBJECTIVE

Maintain the public water system to continue to serve the current and future population.

POLICIES

- Maintain and improve the water system to increase efficiency and operational longevity.
- Encourage those water system extensions that would support or encourage new development in areas appropriate for such activities.

Example of a water tower

COMMUNITY FACILITIES

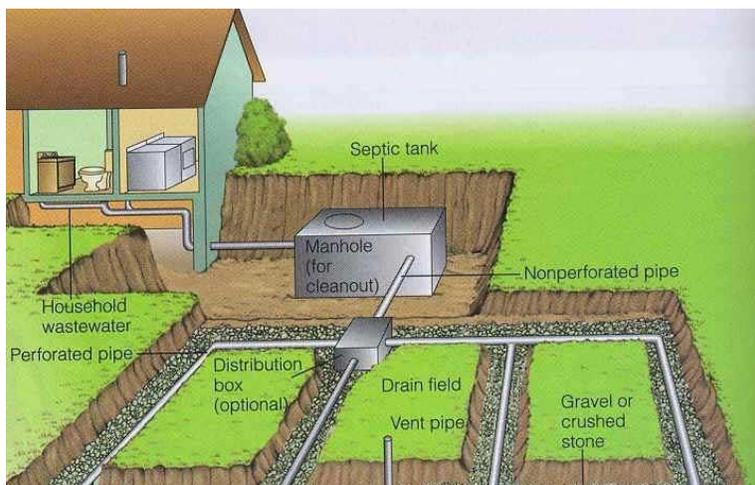

Goal: Maintain an environmentally sound sewage system program to protect the public safety, health and welfare of the residents.

OBJECTIVE

Protect the public safety and welfare by insuring the appropriate means of providing sewer to the residents of Woodland.

POLICIES

- Enforce minimum lot size requirements to insure the safe placement of septic tank systems.
- Study the need and feasibility of constructing a public sewer system.
- Work with local health agencies to insure that all residential and commercial establishments meet the minimum requirements for individual septic tanks.

Septic System Design Example

COMMUNITY FACILITIES

Goal: Provide for and maintain an efficient, reliable and environmentally sound solid waste collection and disposal program.

OBJECTIVE

Provide for an environmentally sound and reliable solid waste program.

POLICIES

- Continue to coordinate with Talbot County to follow the goals and objectives of the Talbot County Solid Waste Management Plan.
- Continue efforts to recycle in order to meet the State mandated 25% per capita reduction of solid waste.

Example of park clean up volunteers

Example of recycle bins at public park

COMMUNITY FACILITIES

Goal: Provide essential public safety and emergency services to protect the public health, safety and welfare of Woodland residents.

OBJECTIVE

Provide residents with expedient, reliable, and professional public safety and health care centers.

POLICIES

- Coordinate with the Talbot County EMS to provide timely medical emergency services.
- Continue to support and maintain the volunteer fire department in Woodland.
- Support and maintain the city police department.
- Collaborate with County Sheriff's Department to provide additional law enforcement and protection to Woodland residents.
- Implement a timely maintenance and replacement plan for all public safety equipment.

Woodland Police Car

Example of fire fighters at work

COMMUNITY FACILITIES

Goal: Provide essential recreational facilities that are well-maintained and accessible to all residents of Woodland.

OBJECTIVE

Provide Woodland's residents well designed and maintained public recreation facilities in appropriate places, designed to meet the recreational needs of local residents.

POLICIES

- Maintain and improve the existing city park area.
- Continue to develop the recreational complex south of the city on GA HWY 41.
- Look at adding more walking and bike trails and other facilities as needed.

Example: Pedestrian-Biking Trail

Example: Athletic Field

Example: Tennis Camp

COMMUNITY FACILITIES

Goal: Provide essential governmental facilities that are well-maintained and accessible to all Woodland residents.

OBJECTIVE

Provide residents with well-designed and maintained governmental buildings and facilities in appropriate places that meet the needs of local residents.

POLICIES

- Renovate the old city hall building to serve the city's administration office and the police department.

Old City Hall

Broadband Internet Service Facilities

Goal: Facilitate the extension of reasonable and cost-effective broadband to unserved and underserved census blocks

OBJECTIVE
Obtain Broadband Ready Designation

POLICIES

- Adopt Broadband Model Ordinance
- Evaluate potential Broadband Ready Sites and Identify deficiencies

OBJECTIVE
Prepare to meet eligibility standards for potential funding partnerships

POLICIES

- Pursue funding and/or provide services to facilitate enhanced broadband service availability

LAND USE

Goal: Promote Woodland as a healthy, attractive and efficient community.

OBJECTIVE

Maintain and enhance the character of Woodland as an attractive area in which to live and invest.

POLICIES

- Prohibit the systematic neglect of structures that leads to blight and decay of the.
- Encourage all land uses to be located, sited and designed to carefully fit local surroundings, protect and enhance the quality of the environment and maintain the character of the area.
- Maintain and protect Woodland’s residential neighborhoods from non-residential traffic and competing incompatible land uses.
- Improve sign visibility and use, promote safety and enhance the positive image of the city.

Code Enforcement Officer

Example: Residential Neighborhood

Neglected maintenance can lead to neighborhood blight

LAND USE

Goal: Promote Woodland as a healthy, attractive and efficient community (cont.).

OBJECTIVE

Make balanced and efficient use of land appropriate with the city's public policy system, resource base, and the health, safety and welfare of its citizens.

Example: Typical Subdivision Site Plan

Example: Conservation Subdivision Site Plan

POLICIES

- Encourage and promote land use and development that respects natural limitations of flood plains, steep slopes, wetlands and limiting soil types.
- Encourage the use of flood prone areas for extensive recreation and other appropriate open space uses.
- Promote moderate density clustered housing that includes open space that retains natural landscape character as an amenity.
- Conserve and maintain shared green spaces for recreation and natural resources preservation in expanding residential neighborhoods.
- Review all proposed transportation rights-of-way, utilities extensions and land uses and development to assure they are consistent with overall county policies and will fulfill the express function, purpose and character for which they are proposed and planned.
- Enforce the Woodland Land-Use Intensity Ordinance to reflect the city's policy toward growth, development and the use of land and other resources.
- Develop, adopt and enforce subdivision regulations to reflect the city's policy toward development and the design and the installation of utilities and other public facilities.
- Provide adequate land area for growth and development by implementing city policies and plans and constructing and maintaining public utilities and services.

LAND USE

Goal: Promote Woodland as a healthy, attractive and efficient community (cont.).

OBJECTIVE

Operate and maintain a sound and efficient system to plan for, guide and assist Woodland's continued development in accord with county plans and policies.

POLICIES

- Create a repository for ordinances, such as a file for originals and a loose-leaf notebook for working copies.
- Support and encourage modern and compatible residential, commercial and industrial development and the efficient use of local land resources through appropriate application of county ordinances and regulations for subdivision of land and control of use and development within Woodland.
- Continue to pursue, promote and encourage formal relationships with Talbot County and the cities of Geneva, Junction City and Talbotton regarding growth and development concerns, including but not limited to: Comprehensive planning, subdivision regulations, public works standards, building and occupancy permits, extension of public water, storm drainage, annexation, the implementation of a city and/or county sewage system, and other related matters.
- Pursue, promote and encourage coordination of the plans of all public boards, agencies, commissions and other authorities in Woodland, in accord with county policies and programs, to enhance mutual understanding and improve decision making.
- Fully and impartially enforce all applicable county codes and regulations throughout Woodland.

INTERGOVERNMENTAL COORDINATION

Goal: Maintain an open and cooperative relationship with surrounding jurisdictions and concerned entities.

OBJECTIVE

Encourage more communication and participation with various adjacent jurisdictions and entities.

POLICIES

- Continue to execute service provisions agreements in a timely manner.
- Continue to settle any disputes or disagreements in a cordial and organized manner.
- Partner with the cities and neighboring jurisdictions to complete projects, accomplish goals and promote fiscal responsibility that benefit the county, the cities and the region.
- Participate in the semi-annual Tribal Consultation process facilitated by Fort Benning.
- Participate in regional planning efforts promoted by the River Valley Regional Commission and other regional organizations.

Public group work session for comprehensive plan

Report of Accomplishments

Community Facilities

Activity	Status	Explanation
Create a capital improvements pro- gram to assess community facility project needs, cost and revenue	Cancelled	City of Woodland uses the normal budgeting process to address community facilities and infrastructure needs, will not go to CWP.
Improve city sidewalks by repaving with brick pavers, adding street lights and upgrading pedestrian crossings.	Postponed	Water system improvements is primary focus for the city. Sidewalk, pedestrian improvements beginning in 2025.
Repair water lines in the southeastern part of Woodland and apply for grants to make necessary improvements to the city water system.	Postponed	City has been out of compliance due to audit issues. Will address water issues in 2022
Upgrade the city recreation center by adding a tennis court, bleachers with shaded areas, and landscaping the grounds.	Underway	2023
Purchase new vehicles and equipment for the police department and maintenance department.	Underway	2025
Ensure that city staff has access to up-to-date technology and programs to allow effective communication between the city, its citizens and neigh- boring jurisdictions.	Completed	

Economic Development

Activity	Status	Explanation
Rehabilitate the downtown buildings in Woodland.	Underway	2025: two more structures require development.
Begin a city beautification program.	Underway	2025
Recruit a grocery store franchise to locate in Woodland.	Underway	2023 working with a Dollar General

Housing		
Activity	Status	Explanation
Continue to apply for affordable housing grants and housing redevelopment grants in an effort to balance housing cost and housing quality in an effort to construct affordable quality housing.	Cancelled	Audit issues prevented Woodland from applying for grant funds, will not go to new CWP

Land Use		
Activity	Status	Explanation
Identify contaminated properties (brownfield and greyfields). Develop land use plan and financial package for redevelopment.	Completed	There is at least one potential brownfield/ greyfield in the City.
Provide information to developers, landowners, and conservation groups regarding the importance of natural resources, green space, traditional neighborhood development and stream buffers.	Underway	2021
Develop a guidebook that illustrates the type of development wanted within Woodland.	Completed	
Review and update the land use intensity ordinance, building codes and other development regulations to create desirable development patterns and ensure compliance with state law.	Underway	2024

Natural and Historic Resources		
Activity	Status	Explanation
Inventory historic resources in the city that need protection.	Postponed	Infrastructure projects more important than new updated historic survey.
Provide information to property owners regarding land conservation and preservation best management practices.	Underway	2023
Adopt a tree replanting and tree preservation ordinance for new development.	Cancelled	Not a priority to other needs, will not go to new CWP
Provide information to developers, landowners, and conservation groups regarding the importance of natural resources, green space, traditional neighborhood development and stream buffers.	Underway	2021: moved to land use in CWP

Intergovernmental		
Activity	Status	Explanation
Ensure all elected officials, government staff, authority members and other appointed officials are certified by the appropriate agencies according to state law.	Completed	Will continue activity in the new CWP due to the addition of new elected officials and new staff.
Review and update the local government Service Delivery Strategy.	Completed	2021, will review again in 2025
Review and update the Pre-Disaster Mitigation Plan.	Underway	Will complete in 2021
Participate in the Plan Assessment Meetings between all local governments in Talbot County.	Completed	Will continue in the new CWP and complete if requested by Talbot County.
Partner with the School Board either through monetary donation or personal participation by local elected officials or government staff to implement a youth leadership class.	Completed

Public Meeting

Talbot County, Geneva, Junction City, Talbotton, and Woodland Joint Comprehensive Plan Update Public Meeting

Talbot County and the cities of Geneva, Junction City, Talbotton, and Woodland will hold a joint public meeting on Thursday, March 19, 2020 at 6:00 p.m. at the Board of Commission office located at 74 West Monroe Street, Talbotton, GA 31827 to review Comprehensive Plan Update activities and a schedule of completion.

The purpose of this meeting is to brief the community on the contents of the plan, provide opportunity for residents to make suggestions, additions, or revisions, and notify the community of the plan submission date to the River Valley Regional Commission for review. We will receive community comments on the contents of the Talbot County Comprehensive Plan. Plan contents include the future land use map, community work program report of accomplishments, the development of a new community work program, a final list of issues and opportunities, goals and objectives as well as any other portion of the plan to be submitted to the River Valley Regional Commission and the state of Georgia.

Talbot County, Geneva, Junction City, Talbotton and Woodland is committed to providing all persons with equal access to its services, programs, activities, education and employment regardless of race, color, national origin, religion, sex, familial status, disability or age. Persons with special needs relating to handicapped accessibility or foreign language shall contact the Talbot County Manager. The phone number for the Talbot County Manager, Carol Isley is 706-365-3220. For more information about the public hearing, please contact Rick Matlock at the River Valley Regional Commission at 706-256-2910.

Talbot County Comprehensive Plan

The comprehensive plan is a vision for the future of Talbot County. The ultimate aim of the process is to develop a strong community, a resilient economy, a vibrant place to live, and a healthy environment. This updated plan for 2020 takes a snapshot of Talbot County today and charts a path into the next decade.

Here you can read the latest updates on things like demographics, housing data, transportation, and more. We would love your feedback, comments, corrections and insights at the comment section below.

Latest Plan Updates by Scott Eason on Scribd

Community Data, Needs and Opportunities

The Comprehensive Plan is intended to be a policy guide relating to land use, community infrastructure, housing and economic development activities. An analysis of data is included in this document to assist with plan development. This section includes information regarding population, community facilities, transportation, housing, economic development, natural and cultural resources and intergovernmental coordination. All planning documents included in the comprehensive plan were considered in the evaluation of the community policies and activities.

Population

The projected population for Talbot County over the next twenty plus years is expected to continue to decline. However, the current trends of industrial development in northeast Muscogee County and continued utilization of Fort Benning could stabilize or slightly increase the population. It is believed that as the State of Georgia's Metropolitan areas continue to grow some residents will choose to relocate to smaller communities to experience a better quality of life and escape the bustle of the larger cities.

Table 1: Talbot County and Cities Population: 2000-2019

Community	2000	2010	2015	2019	Percent Change Since 2010
Geneva	107	105	101	96	8.6% decrease
Junction City	180	177	169	164	7.3% decrease
Talbotton	1,033	970	902	861	11.2% decrease
Woodland	358	408	375	361	11.5% decrease
Talbot County	8,458	8,885	8,408	8,105	8.8% decrease

Needs + Opportunities for Geneva

Geneva by Scott Berson on Scribd

City of Geneva

Community Facilities

Identified Needs and Opportunities

Needs:

- Uneven levels of development need of redevelopment (Downtown/Surrounding Neighborhoods)
- Growth limited due to infrastructure in Geneva (water).
- Diversify job base.

Opportunities:

- Develop adequate water facilities in Geneva for commercial, industrial, and residential growth.
- Increase of local job opportunities, which will less access to transportation.
- Work with educational institutions on job training and adult education programs.
- Continued development of local education system.

Needs + Opportunities for Junction City

Junction City by Scott Benson on Scribd

Junction City

Community Facilities

Identified Needs and Opportunities

Needs:

- Careful planning will be required to ensure adequate services are available to Junction City.
- Anticipated failure of individual septic tanks. The majority of city residents use septic tanks and many of these tanks will fail during the planning period.
- Stormwater management.
- Lack of local public facilities and services including medical and ambulance services, after school programs and activities for older children, and critical utility infrastructure.
- Lack of knowledge of community programs, cooperation between local leaders, and small number of local volunteers.

Opportunities:

- Junction City needs to review and update/maintain their current water system, as needed.
- Assess available public space and determine what needs expansion, renovation or closure.
- Existing community facilities, both public and private, provide a good foundation for existing and future populations in the area.

Needs + Opportunities for Talbotton

Talbotton by Scott Benson on Scribd

City of Talbotton

Community Facilities

Identified Needs and Opportunities

Needs:

- Careful planning will be required to ensure adequate services are available to Talbotton citizens.
- Anticipated failure of individual septic tanks. The majority of county residents use septic tanks and many of these tanks will fail during the planning period.
- Stormwater management.
- A few County buildings are operating at capacity and are in need of expansion.
- Lack of local public facilities and services including medical and ambulance services, after school programs and activities for older children, and critical utility infrastructure.
- Lack of knowledge of community programs, cooperation between local leaders, and small number of local volunteers.

Opportunities:

- Talbotton needs to review and update/maintain their current water system, as needed.
- Growth provides an opportunity to look at various fees, (Impact fees, Subdivision Review fees or Service Tax Districts) to compensate for new growth.
- Maintain and improve upon existing community facilities, both public and private.

Needs + Opportunities for Woodland

Woodland by Scott Pearson on Scribd

City of Woodland

Community Facilities

Identified Needs and Opportunities

Needs:

- Careful planning will be required to ensure adequate services are available to Woodland.
- Anticipated failure of individual septic tanks. The majority of city residents use septic tanks and many of these tanks will fail during the planning period.
- Stormwater management.
- Lack of local public facilities and services including medical and ambulance services, after school programs and activities for older children, and critical utility infrastructure.
- Lack of knowledge of community programs, cooperation between local leaders, and small number of local volunteers.
- No street tree ordinance that requires new development to plant shade-bearing trees appropriate to area climate
- No sidewalk ordinance that requires all new development to provide user-friendly sidewalks.

Opportunities:

- Woodland needs to review and update/maintain their current water system, as needed.
- Assess available public space and determine what needs expansion, renovation or closure.
- Maintain and improve upon existing community facilities, both public and private.

Subject: Talbot County Comp Plan Update 2020

Hello to all!

Talbot County is beginning the process to update its comprehensive plan. All receiving this email are comprehensive plan stakeholders. On March 19, 2020 at the Talbot County BOC office the first comprehensive plan public hearing is scheduled for 6:00 P.M. The public hearing will last one hour. Please let me know if you can attend the public hearing. This meeting date may be rescheduled if the Coronavirus is a concern.

Subject: October Community Planning Deadline Variances : COVID-19 Response (RV)

Good afternoon,

The Georgia Department of Community Affairs continues to closely follow news and information about COVID-19. While the situation remains dynamic, our agency's leadership team endeavors to ensure the agency is prepared to 1) take care of our people, 2) take care of the communities we serve, and 3) maintain the programs that are so vital to our mission. Our leadership team has embraced a philosophy that combines a British axiom and the Boy Scout motto: "Keep Calm and Be Prepared."

Cases of COVID-19 continue to be found in nearly every part of Georgia and across the nation, and as more individuals are being tested, the number continues to rise. Accordingly, work is ongoing to reduce the spread of the disease, and state officials are working closely with the Atlanta-based Centers for Disease Control & Prevention. More detailed information can be found at www.dph.georgia.gov. With all of this in mind, local governments across the state are continuing to responsibly cancel their meetings, reschedule public hearings, and postpone community involvement in their planning processes.

Local and regional leaders are rightly concerned about the impact of the cancellation and postponement of community involvement activities on their planning processes. DCA understands that a high-quality community planning process relies on involvement from a variety of stakeholder groups and via a variety of informational channels. While, in many cases, only one or two official public hearings may be required, a meaningful level of public participation relies on the opportunity to participate in a range of community involvement meetings, charrettes, surveys, directed outreach to interested parties and other activities that are typically ongoing throughout the planning process. While it may be possible to shift some of these activities to the virtual world using tools like Zoom, Skype, Go-To Meeting and WebEx, or even streaming on Facebook and YouTube, those media are not full replacements for valuable face-to-face human interaction. Even if fewer people actually choose to involve themselves in those activities, the validity of a community's plan is founded upon the opportunity for involvement.

OCTOBER 31, 2020 DEADLINE.

We are contacting you today about the pending October 31, 2020 deadline for your local governments to complete and get DCA approval/verification for a variety of community planning updates. Since DCA acted in March to allow variances for communities with June deadlines, we have continued to monitor the situation. Considering the continuing trajectory of the impacts of the COVID-19 response, we believe local governments are likely to experience disruptions in their planning processes and unusually low attendance at community involvement opportunities well into the summer. It is likely that those communities with October 31, 2020 deadlines will find it very challenging or impossible to comply with applicable requirements. Georgia's standards governing local comprehensive planning include an option to provide variances for deadlines when communities are facing a situation beyond their control that creates abnormal stress on their operations and makes it impossible to comply with some state-issued requirements [Note: Local governments that collect development impact fees have an additional Capital Improvement Element (CIE) of their comprehensive plan. Variances under this section of the planning standards also apply to mandatory annual updates of the CIE.]. In the past, this option has only been exercised in response to tornados, hurricanes, and fires when a community has suffered significant and overwhelming damage. However, considering the impacts of the ongoing COVID-19 pandemic, we believe it is appropriate in this case, as well. In recognition of the gravity of the current situation, consistent with the instructions provided by Governor Kemp's Executive Order declaring a Public Health Emergency, DCA Commissioner Christopher Nunn has issued an order (attached) allowing your communities to seek a deadline variance.

VARIANCE REQUEST STEPS.

Taking advantage of the variance opportunity is simple. A local government's Chief Elected Official (mayor or chairperson) or administrator/manager should send a written request for the variance following the template attached to this message. That template provides a letter which includes all the necessary language and information necessary for DCA to grant a deadline variance. Great detail is not necessary when "filling in the blanks," but be as descriptive as you can. DCA will accept hardcopy letters sent through the mail as well as scanned pdfs of letters sent to us by email to planning@dca.ga.gov. Upon receipt of an acceptable variance request, DCA will immediately update the community's comprehensive planning and/or CIE update deadlines and send the community and its RC an acknowledgement of the variance by email. Understand that **the variance request must be received by our office before the local government's October 31, 2020 deadline has passed to take advantage of this opportunity.**

SDS QUESTIONS.

Where a community also has a pending Service Delivery Strategy (SDS) Update deadline triggered by a county's local comprehensive plan update, the concurrent SDS deadline will also be automatically shifted when the county's plan deadline is shifted. Communities that have self-imposed SDS

deadlines (either as a result of a previous SDS Extension or some other local agreement) will still need to follow the standard SDS Extension process to change their deadlines.

Presently, this variance will only allow communities with an October 31, 2020 deadline to shift to a February 28, 2021 deadline. It will not impact deadlines falling in future years--future deadlines will return to October 31. It also does not impact communities with deadlines currently falling on February 28, 2021. DCA is sensitive to the concerns of communities that currently have February 2021 deadlines. Any local government already anticipating difficulty meeting their February deadline as a result of the response to the COVID-19 pandemic should reach out to planning@dca.ga.gov, directly or call our office at 404-679-5279 to discuss your concerns. The information you provide may assist us in assessing the potential need for any further variances.

Warm regards,

--J.A. West

Attached is a link to the Talbot County Comprehensive Plan. RVRC staff has updated all of the demographic data in the plan. The draft document can be accessed via the above link. Please review and comment. The attached web page allows you to make comments on the site. I also attached a PDF of the document just in case you have trouble accessing the link. Please send this information to anyone that you think might be interested. Also give me your thoughts on how to get the plan update process to as many people as possible. Given the Corona virus is still kicking I think it best that we

do all plan meetings virtually. Please give me your opinion on how to best conduct future meetings. All my contact information is below.

RVRC staff has updated the majority of all the demographic data in the plan. Attached above is a document listing the needs and opportunities for Talbot County and the cities of Talbot County. The draft document can also be accessed via the above link. You can leave comments in regards to the needs and opportunities on the comp plan website or hand write comments on the attached document and email them to me or to Carol Ison. **Please review and comment.** Specifically, write down one or two needs or opportunities in each section (e.g. community facilities, transportation, housing, land use, etc.) for the community in which you reside. In many ways I think our current list for each community can be trimmed down and more specific or pertinent to each community. Please send this information to anyone that you think might be interested. Also give me your thoughts on how to get the plan update process to as many people as possible. Please give me your opinion on how to best conduct future meetings. All my contact information is below.

RVRC staff has updated the majority of all the demographic data in the plan. Attached above is a document listing the needs and opportunities for Talbot County and the cities of Talbot County. The draft document can also be accessed via the above link. You can leave comments in regards to the needs and opportunities on the comp plan website or hand write comments on the attached document and email them to me or to Carol Ison. **Please review and comment. Specifically, write down one or two needs or opportunities in each section (e.g. community facilities, transportation, housing, land use, etc.) for the community in which you reside. In many ways I think our current list for each community can be trimmed down and more specific or pertinent to each community.** Please send this information to anyone that you think might be interested. Also give me your thoughts on how to get the plan update process to as many people as possible. Please give me your opinion on how to best conduct future meetings. All my contact information is below.

Yes I would add this. However, the biggest employers in the county are the County and the Board of Education. Also, Oliver Logging Co. And Martin Marietta Aggregates. Shouldn't they be added? I didn't even recognize some of those companies.

Q1 Please choose the Talbot County community where you live.

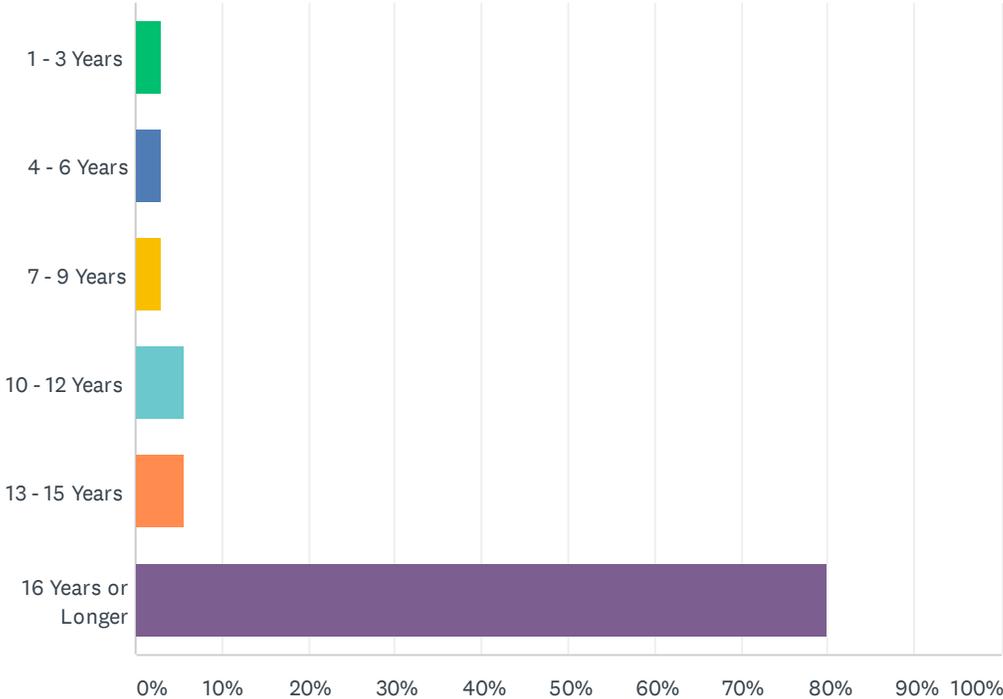

Answered: 35 Skipped: 0

ANSWER CHOICES	RESPONSES	
Geneva	5.71%	2
Talbotton	48.57%	17
Junction City	14.29%	5
Woodland	14.29%	5
Unincorporated Talbot County	17.14%	6
TOTAL		35

Q2 How long have you lived here?

Answered: 35 Skipped: 0

ANSWER CHOICES	RESPONSES
1 - 3 Years	2.86% 1
4 - 6 Years	2.86% 1
7 - 9 Years	2.86% 1
10 - 12 Years	5.71% 2
13 - 15 Years	5.71% 2
16 Years or Longer	80.00% 28
TOTAL	35

Q3 How has Talbot County, Geneva, Junction City, Talbotton or Woodland changed over the time you have lived there?

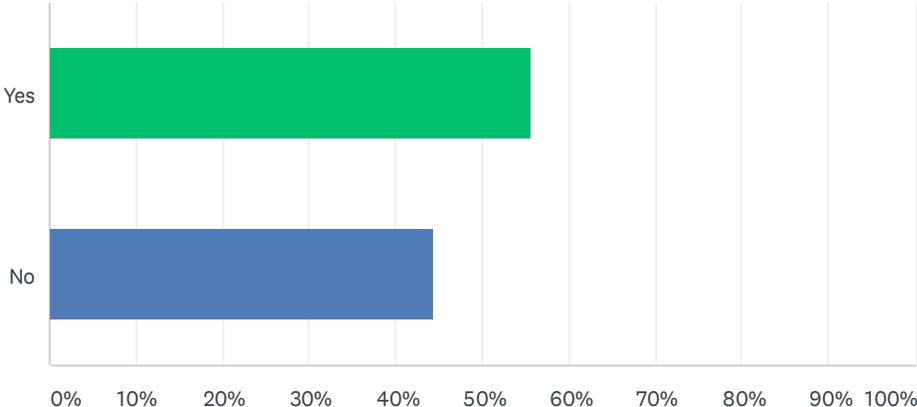

Answered: 27 Skipped: 8

Comprehensive Plan Survey for Talbot County, Geneva, Junction City, Talbotton and Woodland

#	RESPONSES	DATE
1	It changed a lot	12/14/2020 6:47 PM
2	Little, if any.	12/13/2020 8:48 AM
3	Talbot County has poorly declined in every area from population to no area jobs and/or no retail outlets (grocery stores).	12/4/2020 10:22 AM
4	Not much. Less business	12/3/2020 9:59 AM
5	There are no grocery store and medical serve is very limited.	12/2/2020 5:33 PM
6	Population has declined, businesses have closed, young people do not come back after college, it is not the thriving small county that we once had.	12/2/2020 2:16 PM
7	Poor. Nothing for the children	12/1/2020 4:40 PM
8	actually it has declined	12/1/2020 9:35 AM
9	Not much	11/30/2020 10:21 PM
10	My property taxes has increased a lot.	11/30/2020 9:03 PM
11	There is now a 4 Lane highway 2 Dollar General stores a new doctors office	11/30/2020 7:41 PM
12	We have not had a grocery store in over 10 years in Talbotton. No jobs are coming to the area. We have too many convenience stores for Talbotton. We need better leaders in our communities, not just family and friends. We need someone whom is going to improve our county from city council to county commissioners. We have too many police officers and not a jail!! We need improvements so our city will grow being the county seat.	11/30/2020 4:27 PM
13	It's not as much here now like it use to be	11/30/2020 3:14 PM
14	No local grocery store	11/30/2020 12:51 PM
15	No change! Looks rundown definitely needs some updates on buildings and roads	11/30/2020 12:42 PM
16	Alot of stores have closed down.	11/30/2020 11:43 AM
17	Talbot County/Talbotton has declined drastically during my lifetime of living here. Very few jobs for young people to stay here. The population has aged and is projected to decrease in the coming years. The student enrollment in the local school system is now down to less than 500 students. We do not have a grocery or drug store. We are a prime example of what has happened to small rural counties all over Georgia.	11/30/2020 11:21 AM
18	No change	11/30/2020 10:48 AM
19	It hasnt	11/30/2020 10:28 AM
20	Resources has seemed to become more scarce. As far as places to shop for essentials.	11/30/2020 7:56 AM
21	Less local opportunity	11/26/2020 9:34 AM
22	It hasnt	11/26/2020 2:58 AM
23	Very little changes	11/26/2020 1:59 AM
24	Fewer businesses, people seem less engaged, community seems to be eroding.	11/26/2020 1:04 AM
25	Vet little	11/25/2020 7:40 PM
26	It has changed very little.	11/23/2020 1:56 PM
27	Not too much	11/20/2020 3:11 PM

Q4 Do you walk around your neighborhood or community?

Answered: 27 Skipped: 8

ANSWER CHOICES	RESPONSES	
Yes	55.56%	15
No	44.44%	12
TOTAL		27

Q5 If you do walk around your neighborhood or community, where do you walk to?

Answered: 15 Skipped: 20

#	RESPONSES	DATE
1	Walk around the neighborhood, to recreational parks and down the streets.	12/4/2020 10:24 AM
2	Around town, bank & Post Office mainly.	12/3/2020 10:00 AM
3	I walk to the post office, the bank, when I am in town. I actually live between Geneva and Talbotton.	12/2/2020 2:17 PM
4	Around my neighborhood	12/1/2020 4:40 PM
5	N/A	11/30/2020 9:04 PM
6	To the park and back	11/30/2020 7:42 PM
7	I walk through town and back street.	11/30/2020 4:28 PM
8	Around my neighborhood	11/30/2020 12:52 PM
9	Around the water Department	11/30/2020 12:43 PM
10	To the store or around the block for exercise.	11/30/2020 11:45 AM
11	Library walking track	11/30/2020 10:49 AM
12	I walk to relatives that live by and in the public park on the trail.	11/30/2020 7:57 AM
13	Around my own property. I live in a rural area outside of town.	11/26/2020 1:06 AM
14	Walking Trail -Talbot Co. Library	11/23/2020 1:57 PM
15	Walking Trail and around city blocks	11/20/2020 3:12 PM

Q6 I think the best place in Talbot County, Geneva, Junction City, Talbotton or Woodland is:

Answered: 27 Skipped: 8

#	RESPONSES	DATE
1	Junction City park	12/14/2020 6:47 PM
2	Scenic farms, like those along highway 315	12/13/2020 8:50 AM
3	maybe Junction City. I know they are in need of way more that any other city in Talbot County, but the cost of living is probably lower as well.	12/4/2020 10:34 AM
4	Talbotton	12/3/2020 10:02 AM
5	The community center in Geneva.	12/2/2020 5:35 PM
6	I like where I live, in the country.	12/2/2020 2:18 PM
7	None	12/1/2020 4:41 PM
8	the school	12/1/2020 9:36 AM
9	ldk	11/30/2020 10:22 PM
10	The Sports Complex	11/30/2020 9:05 PM
11	The park	11/30/2020 7:42 PM
12	Talbotton. Entertainment venue is Junction City or Geneva. We have no entertainment in Talbotton.	11/30/2020 4:29 PM
13	Talbotton	11/30/2020 3:14 PM
14	Nothing	11/30/2020 12:53 PM
15	Big chic	11/30/2020 12:43 PM
16	The park in Geneva.	11/30/2020 11:45 AM
17	North and West Talbot County outside the municipalities	11/30/2020 11:22 AM
18	Talbotton	11/30/2020 10:49 AM
19	Geneva & Junction City park	11/30/2020 10:29 AM
20	The school.	11/30/2020 7:57 AM
21	The woods	11/26/2020 9:34 AM
22	Home	11/26/2020 2:59 AM

Q8 If I were Mayor or County Commission Chairman, the first thing I would do to make my community a better place for young people is:

Answered: 22 Skipped: 13

#	RESPONSES	DATE
1	Clean up downtown and recruit mentors to participate in a monthly empowerment program at the school.	12/13/2020 8:55 AM
2	Build more recreational sites, community buildings, youth programs and bring in grocery chains for jobs to instill good working habits early.	12/4/2020 10:38 AM
3	Work with the School Board on improving the school system.	12/3/2020 10:03 AM
4	Have more opportunities for them.	12/2/2020 2:27 PM
5	Pool and transportation	12/1/2020 4:41 PM
6	i will have a well managed recreational center	12/1/2020 9:39 AM
7	More businesses for more jobs and opportunities	11/30/2020 10:23 PM
8	Build workshops to advance in the youth skills.	11/30/2020 9:07 PM
9	Find out what they are interested in and try to put something together	11/30/2020 7:44 PM
10	Build a boys or girls club. Get mentors involved with the young people.	11/30/2020 4:30 PM
11	Get a YMCA for the kids find thing for them to do after school	11/30/2020 3:15 PM
12	Add a recreation center	11/30/2020 12:53 PM
13	Open a bowling ally or skating rink	11/30/2020 12:45 PM
14	Bring jobs so people can work.	11/30/2020 11:47 AM
15	Better law enforcement	11/30/2020 11:23 AM
16	Grocery store or a place to be active	11/30/2020 10:50 AM
17	A recreational Department	11/30/2020 10:29 AM
18	To figure out how to provide more affordable housing for families.	11/30/2020 7:58 AM
19	Cut taxes to invite new residents in to the county. Then improve school system, also wipe clean all elected officials to include appointed with term limits .	11/26/2020 3:02 AM
20	Clean up the abandoned houses. Increase law enforcement to reduce theft and shoplifting so there could be a grocery store and maybe more businesses would come into the area.	11/26/2020 2:04 AM
21	Improve opening new businesses. Preferable start would be a grocery store.	11/23/2020 1:58 PM
22	Better Education	11/20/2020 3:14 PM

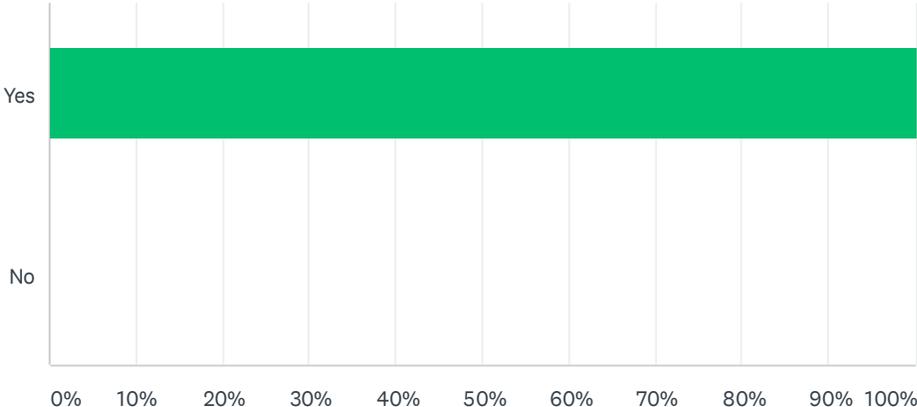

Q9 The most important problems facing my community are:

Answered: 22 Skipped: 13

#	RESPONSES	DATE
1	Whites apparent decision to let the town die	12/13/2020 8:58 AM
2	Housing and Health Care	12/4/2020 10:42 AM
3	Jobs & School System	12/3/2020 10:04 AM
4	Lack of jobs, no grocery store, no pharmacy, and many of our residents don't hVe cars. Also, for the kids, the lack of good and affordable internet.	12/2/2020 2:29 PM
5	Poor	12/1/2020 4:41 PM
6	no grocery stores	12/1/2020 9:39 AM
7	Poverty, drugs	11/30/2020 10:24 PM
8	Lack of cleaning up the community and half patching up street roads when water pipes are placed down.	11/30/2020 9:08 PM
9	No grocery store and housing	11/30/2020 7:44 PM
10	The corrupted chief of police.	11/30/2020 4:31 PM
11	We don't have nothing	11/30/2020 3:15 PM
12	Lack of jobs	11/30/2020 12:54 PM
13	Run down neighborhoods	11/30/2020 12:45 PM
14	No places to shop for food.	11/30/2020 11:48 AM
15	Ineffective government . No moral vision for the future. No jobs.	11/30/2020 11:24 AM
16	There's nothing to do	11/30/2020 10:50 AM
17	A grocery store	11/30/2020 10:30 AM
18	Food desert and housing options	11/30/2020 7:58 AM
19	High taxes	11/26/2020 3:02 AM
20	Poor, low income. Our county doesn't appreciate what is most important. Pay for EMS is way too low and we have only one ambulance and need at least two full time.	11/26/2020 2:07 AM
21	Lack of venues to purchase fresh vegetables, fruits, and meats. Additionally, lack of jobs.	11/23/2020 1:59 PM
22	Drugs and police protection	11/20/2020 3:15 PM

Q10 Are there any things you would change in your community?

Q11 If you answered yes, please list the most important changes you would make.

Answered: 22 Skipped: 13

#	RESPONSES	DATE
1	Change the mayor Educate the citizens	12/13/2020 8:59 AM
2	Local Government decisions to bring more businesses and housing (apartments and or building homes). We need both attractions in our community.	12/4/2020 10:44 AM
3	County Wide Water	12/3/2020 10:05 AM
4	Number one is have a consolidated government. Of the 4 towns only one is in the black. I think it would make the county thrive better if we were one. Second we need to clean up our community and make it more presentable to people passing through. Talbot County is a great place to live, but first impression is it is dying!	12/2/2020 2:32 PM
5	Trash man. Actually come on the scheduled days. Drug dealers get busted	12/1/2020 4:42 PM
6	clean the city up	12/1/2020 9:43 AM
7	Try and bring more positive opportunities for work	11/30/2020 10:24 PM
8	I think that we need more leaders to take a stand and run for some of these people in office that's not doing anything for our community.	11/30/2020 9:11 PM
9	Try to get more grants to help with housing in the unincorporated areas	11/30/2020 7:46 PM
10	I would start off with the removal of the mayor and 3 city council members.	11/30/2020 4:57 PM
11	Find things for the kids and then build stores and restaurants	11/30/2020 3:16 PM
12	Jobs	11/30/2020 12:54 PM
13	Have people clean up their properties and keep trash cleaned up on streets. A better school system especially for children that need special education	11/30/2020 12:47 PM
14	I would bring a grocery store back to the community.	11/30/2020 11:49 AM
15	Improve law enforcement	11/30/2020 11:25 AM
16	Grocery store or amusement place for kids	11/30/2020 10:51 AM
17	Get a grocery store	11/30/2020 10:30 AM
18	The lack of housing	11/30/2020 7:59 AM
19	Lower taxes, elect people who care to improve to county and not fall for local politics	11/26/2020 3:03 AM
20	Move the park out from behind the fire department in the Flint Hill area. It is too hidden from the public eye so illegal activities go on.	11/26/2020 2:09 AM
21	Improve the # of businesses in the county and provide a grocery store.	11/23/2020 2:00 PM
22	Clean up delapatated houses	11/20/2020 3:16 PM

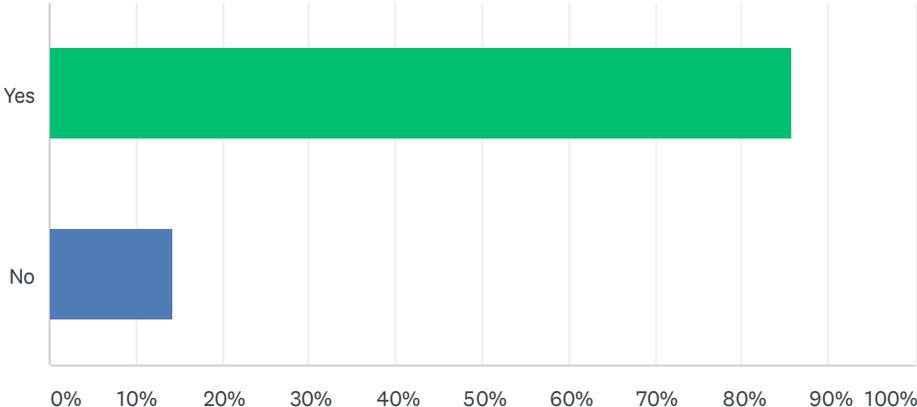

Q12 What things in your community should stay as they are? Please explain why.

Q24 If not, please list the most important changes you would make to the downtowns?

Answered: 13 Skipped: 22

#	RESPONSES	DATE
1	Dilapidated. Too few commercial outlets	12/13/2020 9:07 AM
2	Too many sore eyes, ran down buildings and houses.	12/4/2020 11:02 AM
3	The vacant stores filled with businesses.	12/2/2020 2:43 PM
4	We need business. It looks run down.	12/1/2020 4:44 PM
5	More businesses and there is still damage from the hurricane	11/30/2020 7:50 PM
6	Deserted towns!!	11/30/2020 5:00 PM
7	Add store and places for the kids	11/30/2020 3:19 PM
8	More businesses	11/30/2020 12:57 PM
9	Clean it up! Updates	11/30/2020 12:50 PM
10	Tear down all the old buldings	11/30/2020 10:34 AM
11	Buildings need updating. Both towns are looking old and tired	11/26/2020 3:08 AM
12	Woodland looks fine it would just be nice to have some businesses in the buildings not just facades. Talbotton needs a whole update and education for the area as to what they cost due to the shoplifting and other issues around the area. There is a major problem when the busiest store in town is the liquor store. Talbotton could be such a pretty little town if it could be cleaned up.	11/26/2020 2:19 AM
13	I suggest more businesses, lights, and landscaping.	11/23/2020 2:05 PM

Q25 Do you like the look of the commercial areas located along U.S. 80 and S.R. 96 in Geneva, Junction City and Talbotton?

#	RESPONSES	DATE
1	Clean up and modernize buildings	12/13/2020 9:08 AM
2	There's a lot of area to build and bring businesses. Build.. if you build it, they will come.	12/4/2020 11:04 AM
3	Too much litter	12/1/2020 4:44 PM
4	The only commercial is the sheriff office.	11/30/2020 5:01 PM
5	Not sure	11/30/2020 10:34 AM
6	There really aren't much of commercial areas there.	11/26/2020 2:19 AM
7	They could be cleaner and landscaping can be improved.	11/23/2020 2:05 PM
8	Clean up. Too trashy	11/20/2020 3:24 PM

Q27 What kind of new developments do you think need to take place in Talbot County and its cities?

Answered: 16 Skipped: 19

#	RESPONSES	DATE
1	Grocery store Restaurants	12/13/2020 9:09 AM
2	New home/apartment developments, grocery/restaurant chains, community buildings	12/4/2020 11:10 AM
3	Our Largest resources are Wood, Sand and Gravel. Something along those lines.	12/3/2020 10:17 AM
4	We need to have a grocery store in order to attract people to our community and a better education system. We have available housing, but a lot of them need a lot of repairs.	12/2/2020 2:46 PM
5	We need businesses. We only have big chic. We don't have anywhere to really food shop. No retail at all.	12/1/2020 4:45 PM
6	More business	11/30/2020 7:51 PM
7	Jobs which can help instead of convenience stores.	11/30/2020 5:02 PM
8	Stores and places for the kids	11/30/2020 3:20 PM
9	Jobs	11/30/2020 12:57 PM
10	Grocery store	11/30/2020 12:52 PM
11	Forestry related jobs	11/30/2020 11:36 AM
12	Grocery store and more jobs	11/30/2020 10:35 AM
13	Walmart	11/26/2020 3:09 AM
14	There needs to be better housing for people, especially in Talbotton.	11/26/2020 2:20 AM
15	Economic development on a large scale.	11/23/2020 2:06 PM
16	More grocery stores	11/20/2020 3:24 PM
