

College and Career Readiness Performance Index (CCRPI) Scores Table

Updated February 18, 2021 to address DOE revisions to 2019 data.

Please note that this document is to be used for the 2021 9% Competitive Round only. DOE revisions to prior-year data will be utilized in subsequent rounds, if applicable. To confirm the most up-to-date state averages, please check the DOE website.

Applicants seeking points under *Quality Education Areas* with schools qualifying under option (a) for CCRPI scores must utilize the table below in determining the school's 2-year or 1-year average. For more information, see *Quality Education Areas* in the 2021 QAP.

The below estimates come from the Georgia Department of Education (DOE) website ([click here](#)). Due to the COVID-19 pandemic, the standardized tests underlying CCRPI scores were not conducted in 2020, and there will not be a 2020 public release. Thus, only two years of scores are applicable under the 2021 QAP.

	Grades K-5	Grades 6-8	Grades 9-12
2018-2019	77.45	74.15	76.15
2019	77.10	72.10	77.00

Please note that the 2019 averages in the above table differ from the 2019 averages on the DOE website. This is due to a data revision conducted by the DOE. For purposes of the 2021 round, DCA is allowing applicants to qualify schools based on the originally-published averages. For more information, see the 2021 9% Competitive Round Q&A document posted to the DCA website ([click here](#)).
