MUNICIPAL GOVERNMENT INFORMATION CATALOG: 2023

Table of Contents

Introduction.....	i
Alphabetical Index to Municipalities	I-1 to I-10
Chapter 1 : Management Functions.....	Section 1-Summary to Page 1-14
Chapter 2 : Services Provided	Section 2.a-Summary to Page 2.b-17
Chapter 3 : Public Facilities.....	Section 3.a-Summary to Page 3.b-13
Chapter 4 : Planning, Zoning and Development Procedures.....	Section 4.a-Summary to Page 4.d-14
Chapter 5 : Financial Management Practices.....	Section 5.a-Summary to Page 5.f-14
Chapter 6 : Economic Development Activities.....	Section 6.a-Summary to Page 6.d-12
Chapter 7 : Public Safety.....	Section 7.a-Summary to Page 7.b-15
Chapter 8 : Form of Government.....	Section 8-Summary to Page 8-13

Note: Page numbering is based on the tables contained within each chapter. Each chapter has separate page numbers.

Acknowledgement

The Department of Community Affairs acknowledges and thanks the local government officials who responded to the Government Management Indicators (GOMI) survey that result in this report.

MUNICIPAL GOVERNMENT INFORMATION CATALOG: 2023

What Information is Included in the Catalog?

The *Government Information Catalog* is a comprehensive guide to the organization and operations of Georgia's local governments. The Catalog is unique in that it provides the data collected directly from local governments including:

- Management functions
- Services provided
- Financial management practices
- Planning, zoning and development procedures
- Public facilities
- Economic development activities
- Public safety
- Form of government
- E-Government

What is the Purpose of the Catalog?

Local elected officials, administrators, state agencies and academics are among those who find the Catalog a useful source of comprehensive information on local government operations in the State. While providing information on specific subjects such as public safety or services provided, the primary purpose of the Catalog is identifying general patterns of government management and operations.

How is the Data Collected?

The data was collected through the Government Management Indicators (GOMI) survey prepared by the Department of Community Affairs (DCA) and administered to every municipality in Georgia with a response rate of 73 percent (387 of the 530 municipalities). Due to the large variety of local conditions and characteristics of the governments participating in the mandated survey and the turnover of local government employees, individual responses to specific survey questions may not be consistent from year to year. In addition, data is self-reported and not verified by an outside source. The data presented is best used in summary form to reflect general management practices and services among governments of a similar size.

How Do I Use the Catalog?

1. Determine the population group of the municipality for which you want information and whether the government responded to the survey. In each of the tables, municipalities are grouped by population and listed alphabetically within in each group to aid comparisons of similarly sized municipal.
2. Use the “Table of Contents” to determine which tables are most likely to have the information you need.
3. Note that each chapter is paginated separately. Some chapters have several sets of tables with pages numbered accordingly. Example: Page 2.b – 1 is the first page of the second table (Table B) in Chapter Two (Services Provided).
4. Each set of tables is preceded by a summary of totals and averages for each population group. The summary tables are useful for comparing an individual municipality to an aggregate of governments in its population group and provide an overview of the data in each table.
